♥️ Yenni & Yenni ♥️

Mary introduced her friend, also named Yenni, to me today. She had stage 4 cancer on 2009 and relapsed on 2013.

After taking Reshi, TeGreen, g3, Marine Omega, and Cordymax, she recovered! Wow !! What a story... She is introducing all her cancer patient friends to Mary and want the best for them too.

So nice to hear such amazing story visiting Jakarta. She doesn't look like a cancer patient at all !!! 😊
