ExFuze Seven+ is the brain child of brothers Dan and Rick Cotton. They had found out about the power of botanicals from when their father was terminally ill requiring surgery in the hospital. After numerous failed attempts to make their father better with conventional medicine, their father's doctor recommended something he had heard helped some other patients recover when medicine had not been as effective. They agreed to let the doctor give their father a cocktail of botanicals. To their amazement, he had recovered well enough to go through surgery. He had made an amazing recovery, the brothers believed due to the botanicals. Their father was weaned from the botanicals after a year and his health slowly started to decline again. He eventually passed away two years after he had started treatment under the doctor's suggestion. The brothers were happy to have gotten two more years with their father and were amazed by the impressive health benefits of extracts and botanicals. This gave them the idea for Seven+ and thus ExFuze was born.

What is in Seven+ that gives it such potent health benefits?

It is a combination of years of research and contains:

How is ExFuze Seven+ Different than the rest?

There are many so called **"Super Juices"** on the market right now that contain one or two of these powerful botanicals in them. The down side of these juices is they cost A LOT of money and they taste awful! ExFuze Seven+ incorporates Seven of these powerful botanicals for an outstanding price. We've also found that many of these juices are made from juice concentrate and are not easily absorbed into the body. Independent studies were conducted with these products and with ExFuze Seven +, the results is that Seven + was shown to be the most directly absorbed into the body and health benefits were more readily achieved. We've already told you about all the amazing benefits you can get from drinking Seven+, why not take the Seven Challenge and take control of your health and life? There is no better time than today to get these amazing benefits!

I hope you really enjoyed this article, keep on the look out for upcoming articles.

Are you serious about improving your health and your life? I recommend Seven+ ProFormance by ExFuze since it contains 7 powerful super food antioxidants and more to jumpstart your health. Take control of your health today [here](#) and click on Buy Now!
