Ingredients in eXfuze

The following is independent Internet research on the ingredients in eXfuze Seven+

This research has nothing to do with the eXfuze company

Most of the studies and/or research below are based on the berry or fruit of each ingredient. Keep in mind that eXfuze Seven+ is made with the extracts of these ingredients and is therefore more dense and potent. In addition, there are many more resources to back up the miniscule amount of information shown below.

FUCOIDAN

http://www.uq.edu.au/accmer/assets/docs/Marinova_Aug06.pdf

- Research shows (Fucoidan) may have a broad-spectrum anti-viral property, including protection against HIV and herpes simplex (cold sore) viruses as well as tumor inhibiting properties.

- Seaweed eating populations may show lower cancer, HIV and inflammatory conditions.

- Fucoidan may have a considerable anti-viral, anti-coagulant and cholesterol lowering activity.

<http://www.naturoidoc.com/library/detox/Modifilan-about.htm>

- The ongoing research into Fucoidan has may demonstrate its ability to induce cancer cell apoptosis (programmed cell death) in leukemia, stomach, and colon cancer cells. Leonid Gordin, M.D.

ACAI

<http://news.ufl.edu/2006/01/12/berries>

- The study showed extracts from acai (ah-SAH'-ee) berries may have triggered a self-destruct response in up to 86 percent of leukemia cells tested.
- Acai is considered one of the richest fruit sources of antioxidants.

GOJI (Lycium Barbarum)

<http://www.gojijuices.net/gojijuicersearch.html>

We are so eXcited

Master The Moment National

- Seventy nine people in advanced stages of cancer were treated with the drug LAK/IL-2 combined with Goji (Lycium Barbarum polysaccharides) (LBP). From the 75 evaluable patients, regression of the following cancers were observed.
- Natural plant extracts of Goji (Lycium barbarum) are well-known to help exhibit anti-aging effect.
- This human supplementation trial showed that eating Goji (Lyceum barbarum) significantly raised levels of zeaxanthin in the group eating the fruit. Zeaxanthin is known to help prevent age-related macular degeneration.

NONI

<http://www.agrinom.com/noni/research.html>

- Noni Juice may help with anti tumor activity.
- Noni worked well with conventional cancer chemotherapy. When Noni was used with smaller than usual doses of the chemotherapy agent, the life span and cure rates of the animals (tested) increased as compared with a normal dosage of chemotherapy alone.

<http://www.vitaminlady.com/Articles/Noni.asp>

- May help reduce high blood pressure by virtue of dilating blood vessels. It is believed that Scopoletin (contained in Noni) demonstrates anti-fungal effects as well as anti-histamine and anti-inflammatory effects.
- Anthraquinones from Noni may help stimulate the activity of the entire digestive process, increasing much needed secretions, enzymes and bile flow. Anthraquinones are also effective and may help with pain relief and as a supplement in numerous health conditions.
- Noni may be helpful with anti-fungal, anti-viral, anti-tumor and antihistamine properties.
- Despite Noni's low PH, its overall effect on the body may help balance your PH. If you're too acidic, it will may help neutralize the acid, and if you're too alkaline, it may help produce more acid.

MANGOSTEEN

<http://www.researchmangosteen.com/>

- Anti-fatigue (may be an energy booster)
- Powerful anti-inflammatory (may help prevent inflammation)
- Analgesic (may help prevent pain)
- Anti-ulcer (may help with stomach, mouth and bowel ulcers)
- Anti-depressant (may help with low to moderate depression)
- Anxyolytic (may have an anti-anxiety effect)
- Anti-Alzheimerian (may help prevent dementia)
- Anti-tumor and cancer prevention (multiple categories cited)... may be capable of killing cancer cells.
- Immunomodulator (multiple categories cited) - may help the immune system
- Anti-aging (may have anti-aging benefits)
- Anti-oxidant (may have anti-oxidant benefits)
- Anti-viral (may have anti-viral benefits)
- Anti-biotic (may help modulate bacterial infections)
- Anti-fungal (may help fungal infections)
- Anti-seborrheic (may help skin disorders)
- Anti-lipidemic (may help blood fat lowering, LDL)
- Anti-atherosclerotic (may help with hardening of arteries)

- Cardio protective (may help protect the heart)
- Hypotensive (may help blood pressure lowering)
- Hypoglycemic (may have an anti-diabetic effect, may help lower blood sugar)
- Anti-obesity (may help with weight loss)
- Anti-arthritis (may help with arthritis)

- Anti-osteoporosis (may help prevent the loss of bone mass)
- Anti-periodontic (may help prevent gum disease)
- Anti-allergenic (may help prevent allergic reactions)
- Anti-calculitic (may help prevent kidney stones)
- Anti-pyretic (may help fever lowering)
- Anti-Parkinson (may help with Parkinson's)
- Anti-diarrheal (may help with Diarrhea)
- Anti-neuralgic (may reduce nerve pain)
- Anti-vertigo (may help prevent dizziness)
- Anti-glaucomic (may help prevent glaucoma)
- Anti-cataract (may help prevent cataracts)
- Pansystemic - (may have a synergistic effect on the whole body)
- The antioxidant properties are beyond dispute. Purified xanthone compounds distilled from mangosteen - particularly garcinone E - may be a useful adjunctive treatment in certain types of carcinomas (malignant tumors).
- Additionally, natural xanthenes derived from mangosteen have displayed considerable antifungal activities and may act as effective scavengers of harmful free radicals in the body.

GAC

http://www.ars.usda.gov/research/publications/publications.htm?SEQ_NO_115=153965

- GAC can produce more than 76 times the amount of lycopene found in commercial tomato. The total B-carotene in this fruit is also very high.
- <http://gachealthinfo.com/showrs.asp?rid=117&tid=32>
- Protein from the GAC fruit may manifest strong anti-tumor activities.

SEABUCKTHORN

<http://www.nutraingredients-usa.com/Research/Sea-buckthorn-could-have-liver-benefits-say-scientists>

- Extracts from the leaf of Seabuckthorn may also have significant hepato protective activity, making it a possible candidate for protection against liver disease.
- May have significant antioxidant and immunomodulatory activity.
- Consumption of Seabuckthorn berries may reduce levels of a protein that are associated with inflammation, diabetes and heart disease.

STRUCTURED WATER

<http://www.patentstorm.us/patents/6958163.html>

- Includes methods of removing or reducing free radicals on the skin and thereby slowing the signs of skin aging and the risks of cancer associated with the presence of free radicals in the skin.
- <http://www.stopcancer.com/000/022.htm>
- A pH slightly above the normal pH of 7.4, the toxic enzymes which characterize the low pH cells may be neutralized and the cancer cells may enter a dormant state.

OTHER INGREDIENTS IN SEVEN +

BLUE AGAVE

<http://www.blueagavenectar.com>

/glycemictestingofagavenectar.html
• Low glycemic index.

POMEGRANATE

http://www.healthfreedom.info/pomegranates_for_cancer_and_heart%20disease.htm
• Pomegranate juice can decrease LDL ("bad cholesterol") and increased HDL ("good cholesterol") by 20% in humans.

WILD BLUEBERRY

<http://www.suffolkblues.co.uk/health.html>
• Blueberries contain chemicals that may decrease the growth of cervical and breast cancer cells by a considerable percentage. They also contain resveratrol, another potential anti-cancer agent. Blueberries have also shown to not only slow the ageing process but actually may help reverse it. Experiments have also indicated that eating Blueberries may improve short term memory loss, balance and co-ordination.

ALOE VERA

http://www.mayoclinic.com/health/aloe-vera/NS_patient-aloe
• There is early evidence that oral aloe may reduce the risk of developing lung cancer.

*As with anything, there is varying information on each of these ingredients all over the Internet. What is listed here is only a fraction of what is available, but the majority of the research is supportive and encouraging.

These statements have not been evaluated by the FDA. This information is not intended to diagnose, treat, cure, or prevent any disease! Individual results may vary.

To know why this product is changing peoples lives and to try a free sample please contact us at www.startthefuze.com or 970-685-0877, ask for Bevan.
