

My favorite NSP product – Silver Shield, plus upcoming workshops

Silver Shield

Silver Shield liquid and gel, Patented, FDA Approved – ORDER AT: WWW.MOMSHERBSSHOP.COM

Silver Shield is one of my favorite products and one of Nature Sunshine's TOP PRODUCTS.. I personally have seen the benefits of using Silver Shield for myself and my family for viruses such as strep throat, sinus infections and gum infections. You can take it internally and apply the gel on the skin.

Read more TESTIMONIALS on my site on what Silver Shield has done for folks and their pets too.

Here is a list of 10 great uses of Silver Shield

- 1. Vaginal Yeast Infections:** Women are thankful for Silver Shield because it fights yeast and bacterial vaginosis and even HPV! No need for antibiotics. Add 1/2 bottle of Silver to a Douche syringe bulb hold for 10 minutes then release. Do this for 3-5 days, once a day, then apply a quarter size amount of Silver Shield Gel to a tampon and insert. This process will clear up female infections, safe and naturally. It doesn't even upset the normal balance of the beneficial bacteria. This is great news for many women dealing with this.
- 2. Herpes outbreaks/Fever Blisters:** Apply the Silver Shield gel directly to herpes outbreaks and let it absorb into the skin. This has been used as a successful method to control herpes outbreaks quickly.
- 3. Ear Infections:** Fill the ear canal with Silver Shield liquid drops in infected ear twice daily and let set for around 6 minutes. This will clear up the infection and help relieve pain!
- 4. Eye Infections (Pink Eye or Viral Eye Infections):** We know how easy Pink eye can spread, Silver Shield can be a savior in clearing this up quickly by applying a few drops in the eye. Add drops up to 5 times per day as needed. This is a good reason to always keep Silver Shield on hand.
- 5. Strep Throat:** Gargle with Silver Shield for about six minutes then swallow. Do this every few hours and continue to gargle twice a day for 5 days more. Safe enough for young children.
- 6. Food Poisoning:** Take 2 tsp. hourly until symptoms subside.
- 7. Acne breakouts:** Apply the Silver Shield gel on the blemishes to kill the bacteria festering in the pores. The gel can also be applied as a general application to the whole face after washing. Allow to set on face to seep in the pores, then apply moisturizer. This will help fight acne and helps with anti-aging.
- 8. Viruses:** Use Silver Shield when you have been exposed to any illness, including the swine flu. Take 2 tsp. twice a day. Helps build immune system and fight viruses.
- 9. For airplane travel:** Apply Silver Shield gel in nostrils and use as a disinfectant by rubbing on hands. The Silver Silver gel is 3 ounces, so it should be allowed on airplanes.
- 10. In the home:** Silver Shield comes in handy for disinfecting the countertops and on mold, including black mold. Dilute 1 ounce of Silver Shield to a spray bottle and fill with water then spray.
