Description

Have you been concerned when looking at the ingredients on your and your children's skincare/bath/shower/creams products? Neal's Yard products are Parabens free, SLS, SLES free, they are organic and natural, not tested on animals and Made in Britain. Preservatives and chemicals in products may make them lather, last longer but can also cause or make worse allergies. If your child has dry skin, eczema or psoriasis try them with NYR Organic products, hundreds have and have seen an improvement. Look at my website www.uk.nyrorganic.com/shop/suejohnstone for products. We are looking for more consultants in your area - come join us. Contact me for more details and to see first hand the products that can change your life.

Other Information

We advise that you ring before planning a visit to check all these details are up to date.
