How to Use LifeWave's IceWave and Y-Age Carnosine Patches to Support Healing for Eye Issues

If you are like me and have had an eye injury in the past, you want to heal as quickly as possible. After I had eye surgery I was looking for an easy way to speed up the healing process and found this simple and very easy patching protocol.

It's so easy that I made a short 6 minute video about it so you can try it at home for yourself. This works for any eye issues (swelling etc) or any injury to the eye. All you need is a few minutes, an eye mask and LifeWave's IceWave and Y-Age Carnosine Patches.

Enjoy!

Dr. Karen
