I started New Earth about 18 months ago n since it has been life changing! It's taken me off 15 medications! My family did n intervention because they thought I was dying I had a brain scan because I thought I was dying! I spent three years on the couch.

I'm 66 have a full time job at a 4 star restaurant. Very stressful because they expect perfection n very physical! I have Fibromyalgia n work was all I could do the rest of the time was just rest! And push through the night! I had a therapeutic riding program for children n couldn't do it anymore it's been 5 years since my beautiful Arabian Stallion has helped children! But things have changed 🙏

My Kidney Dr has down graded me from a 3 to a 2 out of 5 Because my numbers were so good. All my numbers came back GREAT 🌞 I'm am now off the couch more then I'm on n people keep telling me the change in me is like night n day 🙏

I had a live blood analysis down yesterday n the tech said the proof is in the blood. It glowed it looked so good 🍀

The Edge line of New Earth is not just for athletes it's nourishment To help push u through that WALL! And Moms Dads kids we all hit that wall! Because it's a whole food (AFA Algae n Fungi) Jur body uses it all! My horse uses it my dog steals it from the table! And my girlfriends 3 year old daughter has had major benefits!

For me n my Family I can't even begin to express how Grateful I am for this amazing First Food on the planet that Mother Nature has given Us 🍀 EVERYONE needs to add this to there diet!

Our DNA is programmed to Heal our bodies on a daily basis! And we need to give it energy to help that process! It can't get any better then the food Mother Nature created for us 🍀

A 100% whole organic certified (even Sports certified) Food!

For me Life Changing 🙏

Have a Blessed Day 🍀

Enzymes – Wild Essentials

Delicate nutrients responsible for carrying out virtually every metabolic function.

Decrease with age.

Average diet deficient in enzymes.

Inhibitors of enzyme optimization- include excessive use of the following: drugs and pharmaceuticals, processed and artificial foods, diets of only cooked foods, cold foods and cold drinks, stress, hydrogenated fats, worry, anxiety...
