Struggling with Psoriasis? Or someone you know is? You/they no longer need to suffer with this treatment (see pictures and caption below) :-
One 5-min treatment with the Body Spa and ageLOC Body Shaping Gel followed by a blend of 10mls each Perennial Body Moisturizer, Firewalker and Enhancer for twice daily for one week and got the results you can see in the pics. I have given client same blend of cream again and I will post more pics later. Pretty impressive considering she has had the condition for years and steroid creams that didn't work. She will be showing the Doctor next time she goes.
