### General Testimonials

*"I received a sample of "Oil of Olay" in the mail in the month of April, 2006. I used it, and the first couple days, it felt good, so I went and bought 3 of the "Oil of Olay Regenerist" full size products. Within 5 days of using "it", my face started itching, and when I touched my skin, it started a painful burning. I looked closely in the mirror, and I had a horrible rash, clear bumps and they were turning red. I panicked and called my dermatologist, told the receptionist what I was using, and she said "can you come in now?" I ended up getting a shot in the rear-end (boy did that burn too) and some icky feeling cream for my face and was diagnosed with "Contact Dermatitis", meaning I had a severe allergy to a topical treatment I had used.*

*I learned a lesson, to the tune of \$82.00 for the dermatologist, pain on my face, and the other end too. I threw the Oily of Olay product in the trash and asked my dermatologist when I could start my regular skin care regime of Noevir. I had to wait 5 to 7 days! That was the hardest wait! I really wanted to use my Noevir. I will never try another product that is not Noevir, and I do "love the skin I am in", and it is Noevir that has helped me achieve that! Thank You Noevir!"*

—Dianne

*"I wanted you to know that I received the product yesterday (quick!!). I used it last night and followed your instructions on rinsing. My face is already doing better. The bumps are almost gone!! Yesterday, before I used it, the bumps on my forehead were red and swollen and it gave me a headache all day. Just using this once and the bumps are almost gone and they don't hurt at all.*

*These products are awesome. My face actually feels clean and when I put on the Balancing Lotion with a pad, the pad was actually clean after I used it-- that is incredible! Today I told the girl that I got the Arbonne from that I can't use that product anymore because of my sensitivity to it. There are other reasons, but no need to be cruel. She was not happy, but understood.*

*This looks like the beginning a beautiful relationship and I can't wait to order some other things."*

—Cheryl

*"Life just stays too busy! I do swear that these vitamins make a difference. Everyone in my office got that horrible respiratory flu this year except for me. I have no time to get sick! These vitamins do the trick."*

—Nina

*"I want to share an experience I had which makes me a firm believer in Noevir products. I was traveling for a business meeting and my luggage was lost. I didn't have anything - including my Noevir skin care products. Due to scheduling, I had to shop at Wal-Mart! They were the only store open. Out of desperation, I purchased Oil of Olay cleanser. I washed my face with it and it was awful! I washed my face again with soap to get the Olay cleaner off because it felt so heavy. I spent my entire trip without my Noevir cleanser and moisturizer - not fun. I love my Noevir skin care products and how they make my skin feel."*

—Cheryl Y., AZ

*"Did I ever tell you the story of when i switched back to Noevir (this past summer)? Just out of curiosity, I used all Noevir products on one side of my face, and some other skin stuff (which I thought was doing pretty well in taking care of my skin) on the other. In just a week, the Noevir side was doing much better. Even my husband and friends said the Noevir side didn't look as tight and dry, had a much nicer feel, and even the color was pinker and "healthier". Thanx again for getting me back on track!"*

—Nancy

*"I received my skincare samples Friday afternoon. I wanted to try them before letting you know. So far, I've used to Noevir 505 Hydrating Emulsion and the Perfecting Cream. The results were immediate. I was shocked Janice! It took years off my face and made me look like I was 24 years old! Even my husband noticed. the samples you sent are of a very generous size and a nice variety. It will allow me time to see how my skin reacts to something new. The catalog is also very helpful and I'm confident I will probably be ordering from you in the future. Thank you so very much for your kindness."*

—Jeanne, Ca

*"Hi, Janice, Just wanted to share with you that I received the nicest compliment about my skin today. I had a meeting this morning and afterwards my friend left me a message about how "pretty" my skin looked, so "smooth, hydrated and glowing." Wow. I felt awesome and knew you would appreciate the huge compliment that is to Noevir! I received a similar compliment not too long ago and have honestly never before felt that my skin was something people would notice as a positive trait!"*

—Judi

*"Janice is wired for success. Her ability to strategically think for each business partner gives her downline an edge over other groups. Her past success in the corporate world intertwined with her knowledge of the*

Noevir's business plan and product is what most customers and representatives desire. Her passion to serve the clients is why she has attained the levels of honor at Noevir. This is why I personally have signed up again under Janice to ensure I'm getting the best products for myself and family. I know Janice will educate me on new products and notify me when special offers will benefit my pocket book. How fortunate for Noevir she is committed to their company, to her business partners and customers. Janice is a "guaranteed success".

—Julie Higgins

#### Testimonial from an **Agaricus XP** user:

**My family and I are thoroughly impressed with Agaricus. My dad fell flat on his face two days ago with a sudden onset of the flu. Could barely lift his arms he was so exhausted (plus stressed out), with a high fever, burning eyes, I was so worried I even called the paramedics (his vitals were fine, so they left). I gave him everything under the sun, supplements, etc. He was better with all of that. But the clincher was when I gave him two sticks of Agaricus in warm water last night (24 hours after onset). Before even finishing his cup, he started sweating (the fever broke) and was sprightly up and about, eyes sparkling and excited that he felt so good so quickly. He also slept like a baby last night (instead of his usual anxiety-filled insomnia - again, stress). SOOO, I want to promote Agaricus because it's worth every penny and more!**

—Name Withheld by Request

**I have struggled with Osteoarthritis and Fibromyalgia for some years now, and until I started taking Agaricus on a daily basis, I suffered through a lot of inflammation and joint pain. I have done so well on Agaricus, that at one point, I even thought I could cut back and take it less often, because I was feeling so much better. However, after a few days of not having Agaricus in my system, I realized that this is one supplement I cannot be without, or my quality of life would be restricted. Ever since I started with my daily dose, I feel so much better, and with the Autoship Program, I never have to worry about missing a day... thanks to Noevir.**

—Mary Lou

**I had asthma as a child, but it went away as I got older. About 10 years ago, however, it came back worse than ever. I have been working with my doctor to get off albuterol and had already made some progress, but when I started taking Agaricus, my symptoms got much better! After the second box of Agaricus, it was like night and day! Thank you, Noevir!**

—Susan

**I was on overseas trip to Egypt, Syria and the Philippine for five weeks when I got sick with a bladder infection. I was worried about taking the medicine over there, but luckily, I do not travel anywhere without Agaricus XP! I took two packets three times a day for three days, and I kept taking one a day till I was back here in the US. I did not feel tired or sick and my energy level was excellent. Thank you, Noevir, for the miracle Agaricus XP!**

—Ellie

#### Testimonial from a **505 Skincare/EXTRA Skincare** user:

**I have often wondered what my skin looked like before Noevir. (I have been using Noevir 7 years.) I had my chance to find out the hard way after spending a week in the hospital! When I was sick, it was all I could do to brush my teeth daily. I just didn't have the strength to do my skincare regimen. When I got home from the hospital, the first thing I did was head for the bathroom and my Extra/505 line. I was shocked when I looked in the mirror! My face was flaky. My face was a trifle broke out. Pores were clogged. Eczema was back. What a mess! I used my skin regimen and rinsed the infamous 20 times. My face looked better. In the a.m., I repeated the process. My face was coming back to balance.**

**You do not want to learn the hard way what your skin could look like without Noevir. It is the best anti-aging product offered on the market and we are extremely lucky to be associated with such a quality product and such an ethical company.**

—Judy, Fl.

#### Testimonial from an **Advanced Moisture Concentrate EX** user:

**I ordered the Advanced Moisture Concentrate Ex. I think EVERYONE should have this product. My skin was feeling dehydrated and this product gave it the drink of water that it so sorely needed. Amazing product! When I fell and got a rug burn, I put this product on the burn and it healed really fast with no scar. I bet it would be great for bikini waxing or lip or brow waxing.**

—Kathy

**"If I had to pick one of my FAVORITE products that have dramatically helped change the look of my skin, it would be AMC EX — hands down! It has gotten the Rosacea around my nose under control and evened out the color of my skin. This product I would highly recommend. I use it every day, morning and night. I have even used a small amount on my grand-dog, Laney. She is a bulldog, and they are known for getting irritation in the folds of their face. This cleared it up in no time. I now have a consistent user! Thank you, thank you, Noevir...Laney thanks you, too!"**

—Mary Lou

**"I have been using the AMC EX for over 15 years. It is one of my favorite products. As an Esthetician, I do acne treatment and microdermabrasion. The AMC is phenomenal for hydrating and healing the skin. I use it on my clients after the microdermabrasion and I put the Clay Masque over it to hydrate and take away the redness, same with the acne treatments. It is not oily. It makes your skin soft, smooth and keeps the moisture in. I also add a couple of drops to my body lotion and moisturizer. It does miracle on my elbows and heels. Everybody should have the AMC EX. It does last a long time. Thank you, Noevir, for the best serum I have ever used in my life."**

—Ellie
