ExFuze Seven+ is the brain child of brothers Dan and Rick Cotton. They had found out about the power of botanicals from when their father was terminally ill requiring surgery in the hospital. After numerous failed attempts to make their father better with conventional medicine, their father's doctor recommended something he had heard helped some other patients recover when medicine had not been as effective. They agreed to let the doctor give their father a cocktail of botanicals. To their amazement, he had recovered well enough to go through surgery. He had made an amazing recovery, the brothers believed due to the botanicals. Their father was weaned from the botanicals after a year and his health slowly started to decline again. He eventually passed away two years after he had started treatment under the doctor's suggestion. The brothers were happy to have gotten two more years with their father and were amazed by the impressive health benefits of extracts and botanicals. This gave them the idea for Seven+ and thus ExFuze was born.

What is in Seven+ that gives it such potent health benefits?

It is a combination of years of research into botanicals. It is a health supplement that contains powerful extracts from around the world that many civilizations through the years have found contain very beneficial ingredients.

What exactly is in it that makes it so powerful and beneficial?

- Acai "Amazon's Healing Fruit"
- Mangosteen "Thailand's Queen of Fruits"
- Noni "Polynesian Miracle Fruit"
- Gac "Southeast Asia's Fruit From Heaven"
- Goji "Himalayan Mountains Berry of Life"
- Seabuckthorn "Potent Golden Berry From The Mountains of China and Russia"
- Fucoidan "The South Pacific's Super Nutrient"

What are in these extracts and how do they benefit you?

Acai contains:

- 15 Antioxidants
- Near Perfect Essential Amino Acid Complex
- Highest Free Radical Killing Power of any Known Fruit
- Omega Acids
- Naturally Occurring Vitamins A - K

Acai may help with:

- Controlling Cholesterol
- Boosting Immune System
- Fighting Infections
- Mental Focus and Sleep Quality
- Enhance Digestion
- Enhance Sexual Function
- Increase Energy and Stamina
- Prevent Cancer
- Slow the Aging Process

Mangosteen contains:

- Xanthones
- Antioxidants, Nutrients and Phytonutrients

Mangosteen may help:

- Maintain intestinal health
- Aid the body's healing process and strengthen cellular walls
- Reduce Allergies
- Prevent Alzheimer's
- Support the immune function
- Support cartilage & joint function
- Reduce the symptoms of Parkinson's Disease
- Promotes Healthy Respiratory System

Noni contains:

- Abundant linoleic acid
- Powerful antioxidants
- Strong Anti-inflammatory Properties
- Beta Carotene, Calcium, Vitamins (B & C)
- Trace Minerals

Noni may help:

- Support proper digestion and helps the body absorb more nutrients at the cellular level.
- Support the body's natural healing process

Gac Contains:

- Antioxidants and Carotenoids
- 10x more Beta Carotene than carrots
- 70% more Lycopene than tomatoes

Gac may help with:

- Defend Against Vascular and Cellular Damage
- Protect Against the Effects of Aging
- Support Proper Blood Flow
- Anti-Inflammatory Concerns
- Destroy Cancer Cells
- Decrease Prostate Cancer
- Immune System
- Fight Bacteria and Viruses

Goji contains:

- Wide Array of Nutrients and Trace Minerals
- 19 Amino Acids
- More Iron than Spinach and Loaded with Beta Carotene
- World's Richest Source of Vitamin C

Goji May Help:

- Support Healthy Liver Function
- Support Eys and Heart Health
- Increase Exercise Tolerance, Stamina and Endurance
- Promote Longevity
- Support Blood Glucose Control
- Insomnia, Headaches, Weight Loss and Aids with Digestion
- Relieve Stress and Depression
- Diabetics Control Sugar
- Control High Blood Pressure

Seabuckthorn Contains:

- Flavonoids, Carotenoids, Antioxidants
- Folic Acid
- Nature's Perfect Multi-Vitamin (A-C-D-E-K)
- Omega 3, 6, 7 and 9
- 190 Bioactive Substances

Seabuckthorn May Help:

- Slow Aging
- Treat Eczema and Severe Dry Skin
- Lower Cholesterol and Tri-Glycerides
- Boost Immune System
- Inflammation (Pain Reliever), Wound Healing and Tissue Regeneration, Anti-Aging
- Combat Stress
- Lower Cortisol Secretion

Fucoidan contains:

- Omegas
- Powerful Antioxidant Compounds
- Many Glyconutrients
- Nutrition Closely Resembles Human Breast Milk
- Antiviral Properties
- Anti-Inflammatory Properties

Fucoidan May help:

- Destroy Cancer Cells and Block Tumor Cells From Spreading
- Favor Aortic and Cardiovascular Health
- Protect the Heart and Decrease Cholesterol and High Blood Pressure
- Protect Digestive Tract Lining (Heartburn / Acid Reflux)
- Diabetes Control and Maintain Optimal Kidney Function
- Enhance Immune Function and Detoxify the Body
- Maintain Healthy Blood Flow and Support Proper Joint Functions
- Support Circulator System
