1. This is an amazing product that has helped keep my blood pressure under control and has dramatically dropped my pain level. Not to mention my skin is clear and I have tons of energy! I hope to help many people live a better life with this wonderful product! (Tammy Lynn Crawley)

2. I was diagnosed with a mass in my stomach. My doctor proposed surgery. I decided to do a Detox, up to 30 pairs of Ganoderma per day. When I returned 15th September there was no mass left. I believe Ganoderma helped to remove it. I believe that everyone needs Ganoderma in his or her lives. (Written by Ron Kennedy)

3. In year 2008, I often felt physically uncomfortable and also suffered from limbs numbness. As a result, I went and had medical checkup. It was confirmed that I had diabetes and hyperuricaemia. The doctor advised me to undergo a long-term treatment along with medication. The condition of my body had not changed, the uncomfortable and limbs numbness persisted. Later on, I suffered headaches, dizziness and running nose. I discovered that there was a defect in my heart. Hence, I was encouraged to go to the doctor for further checkups. I went to a specialist. The report showed that I had virus infection in my heart which lead to valve obstruction. While in the hospital, I felt into a state of coma. The doctor explained to my brother that I had a heart infection which had already spread to the brain. This might result in paraplegia and it could be fatal. The virus was not under control. The doctor told my brother that they had tried their best and hoped that we prepared for the worst. After undergoing several heart and brain surgeries, I regained consciousness and survived. The right side of my body was disabled. After being discharged, my mobility deteriorated and my body appeared to be very weak which needed long-term treatment in order to recover. I went to the Gano Excel Self Test Health Activity in Muar. I was advised to consume Ganoderma, eternity Nakodi, Excellium and Spirograss and together with the prescription given by the hospital. A few months later, I started to regain my weight, my red blood cell index was normal, heartbeat was stable and had no breathing difficulties anymore. On top of that, I became a part of Gano Excel as well. People who know my experience and saw me in person will give credits to the products of Gano Excel automatically.

4. I've been telling everyone how Ganoderma helped my pressure. A year ago I was in and out of the hospital, my blood pressure the last time I was in the emergency room was 200 over 179 of course I began to cry because I was so sick and scared. That reading was with my Meds (2 different meds 3 times a day) and working on my diet and salt intake. I thank God for Ganoderma now a little over a year, I am doing so much better. My blood pressure has been regulated for over 6 months or more, without any medication. My doctor has released me from all the meds, he no longer prescribe any medication for my BP. In fact he was surprised by the results. He told me to keep doing what I was doing and keep the weight down. and I should be fine.

5. "New hope arises after suffering from STROKE over a year"

I was paralyzed one year ago. Since then, I was forced to use a wheelchair to move around. My right hand and leg were not able to move at all. I had tried different methods of treatments and medication but all of that did not work.

Until 18 June 2009, a distributor of Gano Excel Mrs Kamariah and her husband came to visit. I was introduced to the benefits and greatness of the products by Gano Excel.

After consuming the products for 2 weeks, reactions occurred where there were red spot all over my body and my whole body felt as if being poked by needles. Days after days of this reaction, pus started coming out from my amputated limb. I was informed that this was just temporary.

Beginning of the 3rd month which I consumed the products, an unexpected change happened. I was able to lift up my hands slightly. After the end of the 3rd month, I could lift up my hand completely and amazingly, I could even stand! After those positive changes, I was advised to consume eternity Nakodi.

Thank God, I am now able to walk with a walking stick. A big thank you to Mrs Kamariah and her husband, who gave their opinion, advice and support to me to keep consuming the products of Gano Excel. Thank you to Gano Excel as well for producing such good and quality products. I sincerely hope that Gano Excel will continue to grow and can be able to help people who are in need like me.

## TESTIMONIALS

“My son has ulcerative colitis for 5 years. After many years finally it starts to have positive changes. After consuming the second box of Cordyceps his blood count and prolaps has been absolutely improved, and the amount of iron in the body became to a normal level. I would like to share this experience, so that everyone who has the same illness or people who have Crohn's disease can find out what these wonderful products are capable of.” a parent

6.  
I tried all kinds of medicines to treat the psoriasis on my hands without any success.  
I never expected the Gano Café which I take daily would heal it completely. My friend, has a similar problem because she has psoriasis on her forehead and neck. She took the Gano Café and Gano capsules, and in less than a month, she told us "we are heaven sent" because the affected area was no longer itchy or reddish. It was dry and cured. (Minda)

7.  
I received a phone call that changed my life.

I suffered from chronic yeast infections.  
My doctor said it was a pH balance problem. He put me on several different creams and medication.

One day my friend called me just as I was about to go to the ER. I almost didn't answer the phone but at the last minute I decided to. It was my friend on the phone I told her what was going on and I needed to go. She said the strangest thing. what she said to me was just so unheard off. because she was so convincing She seem to really believe what she was saying. I decided to give it a try. And what happened she gave me some coffee and the Gano Soap. I was to drink cup of the coffee and go bath myself and get back with her little later but what happened next, I want to say almost immediately after bathing I felt such a relief and to my amazement it was gone almost like instantly. I thought it was because, I was clean. That next day there was no pain or anything as the day before I called her and asked her what was that, what's in it? She told me it's a herb called Ganoderma. At this time I wasn't sure what it was, all I knew was I was feeling so much better. I continue to drink the coffee. I use the soap everyday. almost a year later, I haven't had a flare up. I don't suffer with chronic yeast infections any more. This was a personal battle. for me. I didn't want people to know I felt ashamed. but now I feel, I have to tell others. I've learned so many others suffer with the same. I feel 25 years younger. I don't have pain or headache, my breathing is so much better, my mind is sharp and clear. I'm living again and I'm thankful for Gano Excel and the Ganoderma.

8.  
I woke up with a very severe headache and I didn't have anything to take for it I remembered a friend of mine gave me a pack of the ganoderma coffee and I thought to myself that's not going to help but. because the pain was so severe. I decided to try it. I made a half of the pack , I and drank it and thought well it taste good. With in 5 or 10 minutes later, I noticed my headache was gone. I was like WOW! did that really happen? I'm convinced that the ganoderma coffee really works. Thanks to my friend, I have a new found remedy for pain. (Submitted it by Cheryl T)

9.  
Sometime I forget to take my prescribed medication, but I always take my Gano capsules  
I had my first stroke at age 81 while I was hospitalised with food poisoning. So I was 6 weeks in hospital instead of 1week. After 6 months care by my daughter, I was able to live on my own again. I suffered another stroke 4 months ago, which has affected my memory and mobility and I am unable to live alone again.  
I will be 96 on 23rd November, 2004. What I realise is that is that through my daughter giving me a daily dose of Ganoderma I am walking confidently again with my stick. No more wheelchair or walking-frame. My short-term memory is improving. I also have a stoma, and the soap is great for keeping it clean from scoring. Massages with the oil on my legs help my grazes and bruises heal quickly. Sometime I forget to take my prescribed medication, but I always take my Gano capsules. They make me feel so good. (Written by Elizabeth Pepene)

10.  
We give our Dog Ganoderma  
Since taking Ganoderma in April I have experienced initial energy spurts and longer concentration. I have also started to detox which with patience will deal with various issues in the body, which can heal itself. We give our 13 year old dog a half capsule of each, and she has improved greatly. She was limping with serious joint pain, becoming incontinent and diarrhea. All those symptoms have gone after one month and she is now jumping around again ! (Anna)

11.  
No more Seizures  
Our daughter suffered with grand mild Seizures for three years, in her sleep. One I witness, and it was very scary. She goes through a sleep deprived EEG every six months. The second last EEG she had showed a ton of grand mild seizures activity all over the chart. When we went to see the pediatric neurologist. She said, We will keep doing a follow up of EEG's every six months. So I thought what can I change for her in six months that will make a difference. I started her on a all natural mono-sodium glutamate diet. Then I introduced to Ganoderma. I started giving her the Hot Chocolate occasionally, not even every night. When we went back to the pediatric neurologist. She said my daughter has a normal EEG finally. I think that blew her away, because, she couldn't believe that she went completely from a grand mild EEG to a normal one in six months. She ask me what I had been doing, I told her about the Ganoderma from Gano Excel. She wanted to try it. I gave some samples. She recorded it. She told me to keep doing the all natural treatment and the Ganoderma. This is something I will never stop giving my daughter. (Jen)

12.  
I thank God for Ganoderma  
Here's my story:  
I stood speechless as my sister's bad news slowly sank into my shocked brain. "Mum has been given 2 days to live", Mum passed away 2 days later. She had just turned 53.  
Both my grandmothers had died of bowel cancer – one was 52; the other was 66. Several uncles, aunts, and cousins had also succumbed to various types of cancer, (one cousin with leukemia was only 34). My younger brother became a fatality at age 55.  
It was probably the day after my mother's funeral that I made a definite decision that should I contract the disease, I would not submit to surgery, radiation or chemotherapy.

The day I was introduced to Ganoderma in June 2004, was the same day my doctor had sent me for an ultrasound to investigate lower abdominal pain. Since he was then on holidays, it was 2 weeks before I received the results. The doctor carefully explained that for uterine cancer they would remove the uterus and I would not live long, or enjoy quality of life in the meantime.

Conversely, if I did nothing, the result would be the same – not much of a choice! Thankfully, he then acknowledged my right as a patient to choose my own path which he noted in records. I decided to increase my intake of Ganoderma. Two subsequent scans at quarterly intervals showed very pleasing progress, as did the scan 14 months later. This time the endometrium thickening was down from the original 6.3mm to 2.8mm (4mm is allowable for my post menopausal age). Medically this is extremely rare. Very importantly, the previously described tubular structure related to the endometrium was no longer apparent. My doctor said, "I am very happy with this report".

During this visit, though, the doctor reminded me that my last colonoscopy several years earlier, had shown pre-malignant polyps, and he ordered another colonoscopy. Very happily, this test was clear.

In 2008, my requested test report prompted my doctor to say, "I'm not sending you for further tests; there is just no need". Sometime later, my doctor moved interstate.

A few months ago, because of my family history and for my own ongoing peace of mind, I asked my new doctor for an updated test of the pelvic area. The results were still excellent.

I feel very blessed, and I thank God that Ganoderma was available at the very time I so desperately needed it. I continue to take Ganoderma for both future protection and for an amazing quality of life for my approaching 75 years.

13.

I have always been an active worker up until 4 years ago. When I stopped working I started to get very sick. After consuming Ganoderma I have noticed many good results. My memory and my sight are both very good now, I have a lot more strength for gardening and hard work, I can now run. I have noticed the warts that were on my hands have disappeared from applying Ganoderma toothpaste and now disappearing from my ankles. An infection in my leg healed very quickly while taking Ganoderma. My hair was white and is now returning to original color, I also am noticing new growth now. I no longer suffer from poor digestion and heartburn. A cancer spot on my hand has now gone from applying the toothpaste. While taking Ganoderma I started to get a rash on my body, this was a reaction and I stopped taking the capsules, while I was not taking the capsules, my blood pressure rose to 220 and heart b p m were 257, so I took the capsules again. These are both now regular. I feel like I have a new life, I will never stop taking Ganoderma. I also use the shampoo, coffee and toothpaste. (Sebastian)

14.

Ganoderma Excellium: Help my out of control 4 year old

My 4 year old son was out of control.

I didn't know what to do with him, but I knew I had to do something. I didn't want him to grow up the way he was. When he didn't get what he wanted, he would fall out start screaming and crying none stop. He would fight his sister. When I took him to the store or in public. It would be so embarrassing the way he would behave in public. I couldn't get him to sit still to do his homework, He wouldn't focus on anything. His teacher would send his report ever week with red and yellow marks (all bad) She would always comment on how he wouldn't do what he was told, or how he miss behave in class Not knowing what to do I took him to the Doctor seeking help for him. They tested him After two visits, They diagnosed him with the dreadful ADHD. I was heart broken and afraid for my son. They gave me a prescription for Ritalin. NO WAY!! I thought. I didn't want my son on any drugs. My Mother give him 1 half of Ganoderma Excellium Capsule and a half pack of the Hot Chocolate. A few hours later my son came to me and said I need to do my home work. I did a double take, looked at him and thought. Did it work that fast??? Well I never saw that happen. He never want to do home work. It was always a fight to get him to sit still an do his home work. To my surprise 5 minutes later he came back and said he was finish, I looked it over and it was correct. He is very smart (his sister helped him). Later he took his bath with no problem went to bed earlier than normal. After taking the capsules all week his teacher was so amazed at the change in his behavior. Now he gets all green checks marks (very good) she gave him an award and comment on how well he did all week. Thanks to Gano Excel. I feel like I got the reward.... (Crystal Thomas)

15.

I was diagnosed with diabetes in March 2000. Subsequently, I injured my foot and it swelled up, got infected with pus and emitted an unpleasant odor, so I had to bandage it. Having gangrene in my foot was an unpleasant experience. I tried countless treatments, but to no avail. Finally, one of my toes was amputated and I gave up hope. I started consuming Ganoderma. A week passed, pus and a fluid discharge oozed from the gangrene and I felt dizziness and pain. With patience and support from family, I continued using the products. My foot slowly healed. There was no more pain and new tissues started to grow. After 2 months, the wound was fully healed. I wish to express my sincere thanks to those who recommended me Ganoderma products and supported me. Today, I can resume with my business activities freely. (Sopiah Hamidul)

16.

On August 9, 1993, a trash truck rolled over my car and I developed a debilitating disease called Fibromyalgia.

I experienced chronic pain, sleep deprivation, migraine headaches, and extreme memory loss. My immune system was compromised and I was bed ridden for almost two years. I became depressed with no hope for recovery or a meaningful life!

Over 90% of the people with this syndrome die of suicide, because of the continuous pain and mental anguish. The only method of treating this disease was to prescribe narcotics such as Demerol, Morphine and Tricyclorides that had devastating side effects including organ damage and severe weight gain.

After taking Gano Café 3 in 1, Ganoderma and Excellium, my body was without pain for the first time in almost eleven years. I have energy to run a business and mental clarity. I lost 10 pounds and two dress sizes in 11 days.

My mission in life is to expose everyone to this miracle called Ganoderma, so that they too, can live and walk in the power of health; which will allow them to be the best that they can be! (Claudia)

17.

My 5 yr old son suffered from asthma. After consuming Ganoderma for 3 weeks, he coughed and vomited a lot of mucus and phlegm from his lungs. This lasted for about 2 weeks on a dose of one pair of capsules per day. Normally he was only able to run around the outside of the house as fast as he could once. Then need his asthma pump. One day when racing his brothers, he ran around the house 3 times in excellent time. To my surprise he was breathing deeply when finished and with no need for his pump. This to me is just amazing. With myself I noticed after consuming the capsules for one week my lower back pain was as if not even there, it is so minimal at around 5 %.I have had two spinal blocks with caesarean births and had 5 children altogether, so this has caused much back pain. My menstrual cycle was also extremely abnormal. After taking Ganoderma for 3 months all is very regular and normal now. (Germaine Winspear)

18.

My Ganoderma Story:

Before I started taking Ganoderma Lucidum one year ago, I felt "an absolute wreck", in fact I thought I was "going down the tube" When I eventually got out of bed each day, I felt like I had been hit by a truck I was sore all over and it took me a few minutes to stand up.

I suffered from many conditions such as chronic fatigue, ME, fibro myalgia, high blood pressure, diabetes type 2, frequent bladder infections, heavy aching legs, depression, sciatica, short term memory loss, poor eyesight, agoraphobia, diverticulitis attacks, sinusitis, overweight, brain fog, degenerated left hip, snow white hair, generally felt and looked very old, sick and I was in pain.

Nothing my GP gave me did any good at all and although being a trained nurse and trained naturopath myself I could not help myself either. I spent most of my time sitting, laying down or sleeping, I felt so bad that I didn't want to go on living because I didn't want to be a burden on my wonderful partner who had said "Even if I have to spoon feed you, I won't leave you".

The day after I took my first pair of capsules, I woke up in the morning amazed that I could remember my dreams in vivid colour, I hadn't been able to remember dreams for years, so I knew something dramatic was happening in my brain, and since that very first day I have gradually continued to improve in health and sense of wellbeing to the point that I no longer feel sick and old, my eyesight has improved dramatically and even my hair colour is gradually going back to it's original shade.

Over a few weeks I gradually built up my dose to 6 pair of caps a day and stayed on that dose for 3 months, I now take 4 pair a day. Now, when I wake up in the morning I bounce out of bed work all day and hardly ever need to rest, I laugh a lot and I feel absolutely fantastic and people keep telling me how great I look. I have started an eBay business which keeps me very busy, I love it and I'm coping very well with it, considering I work 7 days a week and up to 16 hours a day.

I truly believe that Ganoderma Lucidum has 'turned back the clock' for me and I never want to go back to the way I felt before. I plan to take these "miracle" capsules for the rest of my life. (Helen Hazel, 65 years and getting younger by the minute)

19.

I was informed I had colon cancer in Dec. 2001. In Jan. 2002 I was operated on and started chemotherapy. In 2003, I was re-examined and operated on again, but only to find that the cancer had spread all over my belly. The doctor said that no therapy was needed and I left the hospital. I stayed in bed all day long and could not eat anything. My belly ached. Then, I took Ganoderma Lucidum. After I had taken one bottle, the ache decreased and my appetite increased. I could even walk about in the room. (Mrs. Meng Yunqing)

20.

I have been taking 1 each a day of the Ganoderma and Excellium capsules for 4 weeks now. My blood sugar level history is as follows:

Before taking the Gano & Excellium capsules= 300

After taking the Gano capsules:

1st week: 252; --- 2nd week: 187; --- 3rd week: 153; --- 4th week: 137.

This the first time my blood sugar went down to 137 in 13 years! I'm so excited about the Gano Excel products.

21.

I lost one kidney in an accident, and then I got cancer of the throat, uterus and my remaining kidney. I half-healed myself through organic foods for 3 weeks, amazing my doctor. Then I found Ganoderma and am now completely free of Cancer. Also, my granddaughter was very sick at birth, and in intensive care. We added Ganoderma to the breast-milk, which was expressed for her. She was discharged from hospital 2 days later! (Erickaunna Schmidt: Aged 75)

22.

**A year ago, It seem like there was no hope getting My Blood Pressure under control. But look at me now!**

A day ago

Today

**I can't thank God enough for Gano Excel and Ganoderma. I'm healthy, happy and free of medication.**

23.

### Ganoderma Testimonials By Gano Excel

**Mr. R.Ramasamy (82 years)**

Chronic diabetic for the past 17 years and also affected by eczema (skin disease) for the past 7 years. After intake of 3 pairs of the Ganoderma for 2 months, sugar level came to normal (i.e from 250 to 120 in fasting),. My eczema problem totally vanished and feel very energetic. Presently continuing with 2 pairs for maintaining my good health. Remarks : I am very grateful to my son Mr.K.R.Velusamy and Mr.R.Radhakrishnan for advising me to use this product.

24.

### I Had A Lump The Size Of A Pea In My Breast

Written by Honora Broderick

For 4-5 months I had a lump the size of a pea in my breast, which became infected. The doctor put me on antibiotics, and when the inflammation subsided she made an appointment for a biopsy. But meanwhile I had been on Ganoderma for 6 weeks, and returned to my Doctor the lump had gone.

25.

### Veronica Brown's Testimonial:

Thank you for sending the coffee. I drank it Saturday morning & I gave Greg a pack to drink also because he was really stressing about his job. I felt very relaxed and worry free. My sugar for the first time in a long time went down to 161. That is way better than having it in the 200-400 range. My son felt less stressed out after he drank it. His girlfriend had doubts about it so they are both doing research on this product.

Ganoderma Testimonials 100% Organic, all Gano Excel

26.

Before I came to know about Gano Excel I had so many health problems. As far as I can remember, at the age of 5 I had asthma and it lasted until I was 11 years old. Although I had recovered from it the cold and cough persisted. These symptoms became more apparent as my age increased and I had breathing difficulties hence, my lungs became worse.

At the end of August 1999 my health worsened and the doctor confirmed that I was suffering from high blood pressure and since then supplies of drugs was my best companion. I went for countless consultations with the doctor. I suffered heart problems, kidney failures (only one is functional) and gout. I felt miserable as I depended on medications.

I suffered stomach pain since 1995 and in 2003 it was finally diagnosed as bladder stones. I spend lot money during the 8 years. In September 2003 I underwent a surgery. 2 stone were removed from my bladder. After the surgery I was advised to watch my daily diet to prevent recurrence, particularly prostate cancer.

22 November 2009 my niece, who is a Gano Excel entrepreneur visited me with a few others. Their presence was a blessing as I was introduced to the great products. Even though I just found Gano Excel it's better late than never" because it's not too late for me to improve my health condition now.

During the first visit I was presented with booklets about the patients and product catalog. She made me a cup of Ganocafe 3 in 1. At first, I was quite reluctant to drink it as the doctor adviser me to be careful with my diet. For 15 years I watched my diet because should I take the wrong food I will fell bloated and congested. But due to my curiosity and partly the strong and convincing presentations I tried it. Once I was convinced by the effectiveness of the products I bought Ganoderma, Excellium, Sakanno, GanoTea SOD, eternity Nakodi and Mixed Oyster Powder.

I went through a rough aliment reflection. I coughed for 15 days, had eyesore for a month and diarrhea for 3 days. Although the ailment reflections seemed troublesome but I could feel the goodness of it, besides, it was only temporary.

Now my health condition improved tremendously. After 6 months of using Gano Excel products and at the age of 63, I felt healthy. 9 May 2010 The General Hospital was no longer my second home. I didn't need to schedule so many appointments now as my health is more stable.

My heartfelt thanks to my niece and the other Gano Excel entrepreneurs for introducing me to Gano Excel products. I'm continuously searching for Gano Excel products information through Gano Excel meetings so I can share my experience with more people.

27.

'If I eat too much candy (my old fault), this coffee is a perfect solution without milk and sugar.' (Kis Ágnes)

28.

'My son has ulcerative colitis for 5 years. After many years finally it starts to have positive changes. After consuming the second box of Cordyceps his blood count and prolaps has been absolutely improved, and the amount of iron in the body became to a normal level. I would like to share this experience, so that everyone who has the same illness or people who have Crohn's disease can find out what these wonderful products are capable of.' (a parent)

29.

'I'm going to live 120 years with the help of Gano Excel products. I hope you will see it!' (Fábiánné Ottilia)

30.

"This is the most delicious chocolate drink I've ever had!" (Réthyné Gyenes Hajnalka)

31.

'A few months ago my hands became very dry. I applied many creams, but all of them had improving effect only for a few days. I tried Gano Soap two weeks ago. Since then I use it every day, not just for hand-washing but also as a shower gel. On my skin you can see the improvement, in fact the dryness is almost completely eliminated, and my skin tone has become much fresher.' Claudia Meszaros

32.

'GanoCafe Classic is very good for morning headaches, I love this coffee.' (Csiki Irma)

33.

'GanoCafe isn't just healthy, it is DIVINE.' (Hosser Mária)

34.

'I am consuming and distributing Ganoderma products since 2008. More than 100 of my clients are doing the same and I have to highlight the fact, that NONE OF THEM has ever said that it would be not good or it had no positive effect. I don't need to be convinced!' (Végh Árpád)

35.

'I drink Gano coffee and tea, and I also consume Ganoderma capsules. Before that, due to my autoimmune disease I had terrible pains in my esophag and stomach, but since two weeks, as I started taking the capsules, the pain slowly has gone, and now I can eat easily again.' (Simó Ildikó)

36.

'On Friday my father cut off half of his right little finger with an angle. A very ugly wound has been formed, but he didn't go to see the doctor. Yesterday I visited him: his wound seemed to be really serious, so I suggested to put a Gano Rooibos teabag bandage on it. He agreed. This morning I visited him to check. We took off the filter and he couldn't believe his eyes – the wound began to heal, and no longer swelled. Today we put a new teafilter on it. Thank you, ganoderma!' (Gusztonyi Melinda)

37.

'I hope this testimonial will help many people. I had been suffering for a long time because of my scrapy, rough skin on my elbows. Sometimes my skin was so dry and painful that I couldn't even move my arms. I tried many-many creams, even a sheep fat cure, but there was no relevant improvement. Once I mentioned to Melinda this little problem. Though I didn't believe in it, she offered me the ganoderma soap with such a sincere devotion that I decided I would give it a try. After a 3-day treatment I could experience a big change. After 3 weeks the skin on my elbows became smooth and healthy.' (Mándity István)

38.

'I became ill when I was 26 years old. The doctors told me I had about 10 years to live. I needed to take lot of steroids, which destroyed my health, so I started to search for other solutions. I tried hundreds of supplements, but real change was brought by the ganoderma products of Gano Excel. So I joined in and started a cure of its ganoderma products. For about half a year I couldn't walk, I had permanent fever, but after this 6 months I started to get my health back, and now I am here. I take very little steroids now, and the side effects are also diminished. For example my eyes was operated 17 times, but since I take SpiroGrass, I don't even need any spectacles at reading.' (Kovács Sándorné Katalin)

39.

'After taking Cordyceps, my stamina started to improve from day to day. I could feel that I have a much better performance on matches, trainings and now I am in great shape. I am grateful for this, because the results appeared not after years, but week by week, and my football season was more succesful.' (Bartha Levente)

40.

'I love to eat and drink, I especially love red wine, which as we all know, contains lot of acids. We talked about this with Teri, who recommended the Gano Excel products. I am generally sceptic of such kind of things, but I thought I could give it a try. After 1,5-2 months my gastric acid ceased, although I continued to consume the same quantity of wine as before. No doubt this improvement was because of GE products.

2 years ago my wife was diagnosed with Alzheimer's disease. We visited many doctors, great specialists, but they all recommended cures of medicines, as usual. Among these medicines there were nerve sedatives, and my wife needed to sleep almost all day. At nights she had nightmares, one time she even fell off the bed. I consulted Teri, my sponsor and she offered a package of products called „Spring Purification Package" (the content of the package was the following: 1 Garcinia, 1 Rooibos Drink, 1 Soap, 1 Classic – a cure of 3 weeks). I didn't doubt it, we wanted definitely to try. Since the cure was done, my family is consuming Gano Excel's Excellium, tea, coffee and hot chocolate (we don't buy any other products from the store), and the symptoms of my wife have been eased a lot: she can stay awake for a longer time and can do many of the houseworks she did before (washing, cooking etc). So we experienced lot of improvement, and I hope we will have the same experience in the future. We stopped taking medicines recommended by doctors, but I have some fear to talk with neurologists about this experience. I hope we will find a good specialist who is open to these alternative solutions, and will support us taking cures of Gano Excel products.

I have a 3 years old little friend, whose grandmother is my neighbour. Last week when he visited me his body was covered with plenty of mosquito bites. I rubbed Gano Fresh toothpaste on his skin, and next morning all the bites disappeared. The funny thing was that after 3-4 hours later two other children from the neighborhood appeared at my door asking for the same cure.' (Thiel László)

'There was a period in my life, when I had spasm in my lower back every 2 weeks. It was so serious, that I couldn't even straighten my back. I started a cure of Gano Excel products: Ganoderma and Excellium capsules next to Gano tea and coffee. After 1-1,5 months the spasm attacks appeared more and more rare, while after the 3rd month the spasms never came back. I believe this result is due to ganoderma.

Ganoderma has an effect of blood purification, and I have a great experience of it. For about 27 years I was suffering by serious depression. I started consuming the Gano Excel products and my symptoms gradually ceased. After some time I could exist as a whole person without taking calmatives or any other medicines. I can confirm confidently, that these nerve medicines can cause lot of damage in our organism. By now I became a fully active working, healthy person.' (Dobosi Péterné)

42.

'I have drug allergy since 1986, and I have been always looking for alternative substitutes, but with many disappointments. The most bothering thing was at other MLM companies, that they always were strongly profit-oriented and didn't really focused on our health.

I am a big fan of coffees. Before meeting Gano Excel I drank the coffee with lemon, because this way the tannic acid of the coffee was neutralised. Since I consume Gano coffee, there is no need of lemon. I also had hemorrhoids and encouraged by other product consumers and testimonials I read, I started to use Gano fresh for it. The itching and bleeding has stopped.

I was advised to drink tea for hypertension. When I started to drink according to the prescription, cramps appeared in my neck. I didn't want to stop, because on the other hand my high blood pressure was reduced. So I continued the tea-cure, but I was using more water at preparation. After 3 months all my mentioned symptoms disappeared, and I can also drink the tea without dilution.' (Sasvári Pálné)

43.

'An acquaintance of mine gave me a sachet of Gano Excel coffee. He told me to try it, because thanks to this product a girl, who is suffering of sclerosis multiplex, doesn't need to use wheelchair anymore. I met this girl and I saw her medical records, too. When I was informed that the coffee contains Ganoderma mushroom, I thought: what a great idea! While you drink the coffee, the mushroom produces its beneficial effects. I registered at once without any hesitation. After drinking the 3rd coffee my legs were almost flying on the ground. Since then, people are giving me positive feedbacks all the time.' (Peller Terézia)

44.

'Last evening our dog, Mimi (a Hungarian beagle) went into our bathroom next to the bathtub. He marked out a piece of Gano soap and started to whin for it as long as he could get it. He went out to the garden with the soap, put it on the ground, than started to roll around it, as if he would have wanted to be rubbed. We were looking at the dog with amazement. I think animals know very well what are their needs. After this scene my son decided in the future he would wash the dog with Gano soap.' (Peller Terézia)

45.

'I have been suffering by ulcerative colitis for about 10 years. 2 years ago my health became at real risk: I lost 20 kg during a 2-months period. The doctors tried to cure me with more and more drugs, but nothing changed. I didn't want to give up, so I started to look for alternative solutions. That is how I met Melinda, who offered me Cordyceps capsules. At the beginning of this cure my CRP value was 21,7 (inflammation level), my organism eliminated all the food I brought in, I couldn't leave the bed for about 3 months, and I was hardly able to look after myself. 1-2 weeks after I started the Cordyceps cure I started to feel the benefits of it: my diarrhea ceased, and step by step I could get back to a normal life. At the moment my CRP value is 0,9, I do sports and I LIVE A LIFE OF FULL VALUE. I don't even need to daily consume, because I am okay even without large doses.' (Grecula Rita)

46.

'I recommended a Garcinia capsule cure to an overweighted man, who was missing one leg because of amputation. He wanted to save his another leg. A few months later he told me gladly that he lost some weights, and the cholesterol level in his blood has been also reduced. Because of this improvements he needs less anticoagulants than before. We saved his another leg! This is again a fantastic experience and a proof, that Garcinia is the sweeper of the veins.' (Nyistyár Mária)

47.

'Since I am a Gano Excel member and I daily consume its products (mainly the delicious, healthy coffees), I feel much better, and I am more and more energetic!!!!' (Forgács Istvánné)

48.

'Quite a new experience about the excellent benefits of Gano Excel tea and soap. It is more than a proof for me!

2 weeks ago a big unidentifiable red spot, kind of a boil appeared on the elbow of my 5 years old daughter. First I was scared what could it be. I made some pictures for the sake of the skepticas, than using a little water I created a thick foam of Gano soap, and I put it on the spot. By the end of the day the boil bursted out. I put a wet Gano teafilter wrapping on it for the night. Next morning her elbow liked nicer, but the boil was still there, so I continued the cure, using soap by day and tea by nighttime. The boil slowly started to move back. Beginning from the third day I used the soap cure only 3 times a day. The appeared 2 weeks ago, and by now it almost absorbed. The Gano cure helped a lot for us, as a proof see the attached photos taken before and after.' (Gusztonyi Melinda)

49.

'My mother-in-law has suffered from psoriasis for nearly 10 years. It covered her entire body, from her feet to the top of her head. She didn't want to hear about an alternative solution, she just trusted in her doctor. She was taking hard steroids her skin was damaged, and constantly bleeding somewhere, that caused skin thinning.

One night we received a call that our Mother is choking, her tongue is swollen, and she got drug allergy. Fortunately, we took her to the emergency in time, so she was saved.

Then, she was afraid of taking her medicines, but she agreed on trying some natural product.

We would like to thank to Mrs. Dobosi to showed us the products of Gano Excel. According to her proposal my mother-in-law began to consume Ganoderma capsules, one pill a day, then two capsules per day, and drunk two liters of Gano tea daily. In the first two months, basically no change had occurred, but in the third month, her skin began to clear rapidly. At the end of the third month, she was completely recovered. There was no signs of psoriasis on her skin.

Since then, she has been taking the capsules and drinking the tea, unless she forgets to do so. After three months of tea consumption, she always takes a one-month break in tea's drinking.

Her skin is still healthy, she can sunbathe and she can go out. Not only her health, but her life became better as well!

We would like to thank to Gano Excel for its efficient products, and also to Mrs. Agi Dobosi for her help.' (Zoltan Lendvai - Tótszerdahely)

50.

'I don't know where to begin, but I want to tell you what This product has done for me.

I was so in debt with medical bills. There were many times I would put off going to the doctor, because I couldn't afford the extra bills piling up. I had creditors calling and chasing me. I hated going to the mail box thinking it would be filled with bills I couldn't pay. It's been 2 years now, I don't have to visit the doctors or the ER. My health has taken a drastic change for the better. I feel so much younger, I can walk in my heels (been years) I have so much energy. I think so much clearer now. My doctor reduced all the medication, some I no longer need. The circulation in my arms & legs are so much better, I don't have the numbness anymore. I don't have sleep apnea anymore. I use to have headache everyday (sometimes all day). My skin disorder has cleared up, (I can wear open toe shoes). I can go on. I've notice in the past 2 years, So much have change in my health since I started using Gano Excel products. I want to thank you and Gano Excel for introducing me to these products...' (Emily)

51.

'My wife had failed to change our son's socks back to their original color with any ultra bleach until she finally rubbed them with Gano Soap and put them into the washing mashine. The result was that not only a spot left there, they were nice and white.' (Géza Eckl - Egerszalók)

52.

'I got back to a member who had been registered a year ago. At those days, her partner was around 35 years old with poor liver function according to lab tests. However, instead of taking the prescribed medications he took 2 capsules of Cordyceps daily for 3 months. His problems has recovered and now he is healed.' (Gyuláné Kovács - Mélykút)

53.

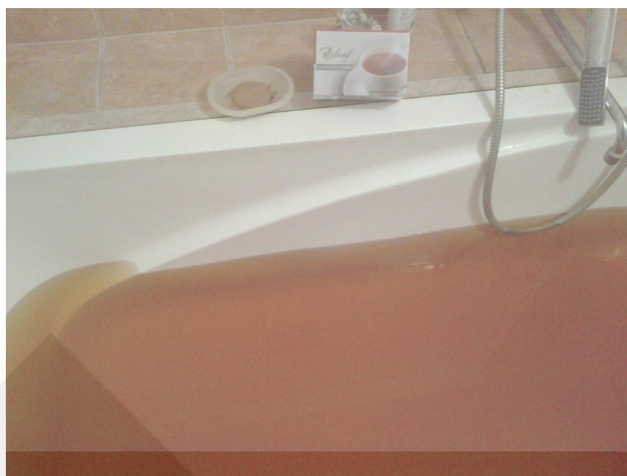

'An unexpected experience with Gano Excel's Gano Rooibos O'Leaf Drink.

Location: Eger, Hungarian Fair, Health tent. Blood sugar and cholesterol screening.

During the screening of 120 people, the lady who made the screening, found 14 extremely high levels.

We made all these people drink 1-2 dl Rooibos drink and after 20-30 minutes there were control screening tests. The meter measured values between 6-6.4 in all the 14 cases, while no one had consumed anything else but tea. I have been knowing this product since 8 years, but I just had the opportunity to test such an extent what the product could do in a short time.

No wonder, that from 19 liter there was only 5 left, but it was not wasted either. Mixing it with bath water, its amazing effects could have been enjoyed later.' (Géza Eckl - Egerszalók)

54.

'Meeting with a miracle when you're in trouble. It was very windy, and as usual, this time the eyes and mouth go full of dust. But what kind of dust? In the modern world, unfortunately, it is polluted dust. After 6 hours, my eyes were swollen and became festering with discharge. I made tea: I put one filter to 2 deciliters of warm water (40 Celsius degrees). I let it soak, and I started to wash my eyes in an eye wash bottle, into which I previously poured the tea. After several rinses, the sanies cleared out. Then after 2 days, my eyes were completely healed. As it recovered, I deluted the tea. I suggest to perform a general maintenance for the eye with diluted Gano Rooibos Drink. But do not overdo it! In case of intestinal cleaning, we should drink tea until the stool easily excreted and there is no distention. In the meantime, eat light meals. I wish you good mood!' - Józsefné Ottilia Fábán (Zalaegerszeg)

55.

'Not so long ago, only size 64 pants fit, then came 17 February 2014, since I have been consuming Gano Excel products again. Today, on 25 May 2015, I wear size 52 pants. I wasn't on a diet, my taste has become pure and I want the good flavors now. I don't do more exercise, and I eat what I want.' - Geza Eckl (Eger)
