Tina Peralez With those with lupus.... your dr was ok with you taking plexus? My mom has lupus she went to the dr and had blood work done and her levels were extremely high. The dr asked her if she was taking plexus she had never heard of it she said no. The dr said the only time he sees levels this high is when patients go on plexus

Lynnette Wogen Johnson

Lynnette Wogen Johnson I am so happy so many of you had great results with Plexus. I did not, it made me swell really bad, was always tired (more than usual) and didn't help me lose weight. I gained weight. But I will tell you to try it. Everyone reacts to things differently and you will never know until you try something.

Sharon Dye Wright

Sharon Dye Wright Are you taking your pills at night the cleanse and pro bio made me swell because I took it in the mornings. At night it will not. Amazing because it cleans your gut the place where most sickness comes from. We take it for health reasons.
