It met and exceeded my expectations. Having been through 3 types of cancers, stage 4 Non-Hodgkins Lymphoma and Advanced Aggressive stage 4 Prostate cancer both metastasized and a fast growing tumor on my chest I found this book an excellent read as I have searched out many natural health and healing books. I do not have cancer today. This book was referred to me by Dr Mark Stengler who has an excellent background in Holistic Medicine.

Life Saving Cures

By Dallas Wills on June 18, 2013

I bought this Book because I have several disorders. The book lists more of common things that ail People. I have rheumatoid Arthritis (RA) and Diabetes. I have already found a cure for Diabetes. My Blood Sugar goes very high after I eat. As high as 190 and as high as 145 after fasting. Now my Blood Sugar goes only goes up to 145 after Meals and my fasting level is in the 90's which is normal. There are many cures listed in the Book and research data by many Doctors. It gives the name of the ingredients that can be used for cures. It covers Diabetes, Cancer, Rheumatoid Arthritis, Pain, Heart, Memory and many more. It tells you where you can get the

Have many alternative medicine books but this is the absolute best bar none!

By [DEM](#) on January 26, 2015

If I could have only one alternative medicine book, this would be my first choice. I have been treating my cancer with alternative means and am winning the battle. The first subject in the cancer section was the one I added to my schedule and it immediately greatly increased my cancer cell die off. The book was worth the price for just that one thing but I am looking forward to trying more. A big thumbs up!

Herbs and components for healing.

By [T. Grondin](#) on July 9, 2015

Format: Paperback Verified Purchase

This book is so informative and gives you the access to others that you need to complete your herb or components for making these things work for you. I have already told others about what is shown, and I appreciate the links where I can find the ingredients. You won't be sorry that you made this purchase. It is chocked full of helpful information.

Informative

By [Amazon Customer](#) on April 26, 2016

Format: Paperback **Verified Purchase**

A friend of mine recommended this book and I must say I found it to be quite informative. A great "Go to" book. Wish I knew about it a few years ago. Takes awhile to read through but just looking up specific topics gives you your information on a need to know basis. Some things I already knew but it does cover a wide selection of topics. I ordered the flax seed hull powder talked about in the book and love it.

The book already came in handy. I am giving my husband the antibiotics prescribed for him. My husband contacted bilateral pneumonia and I researched and found a cure/immune builder for him. The book also tells where to get the products it suggests which is a great asset. Everyone should own this health book and read about new information regarding health cures.

He now takes only the Seacure plus a mineral supplement called Matol and he feels great.

This totally changed his life

By [Sylvia Smith](#) on August 24, 2015

Format: Paperback

In 2013 my husband was diagnosed with ulcerative colitis. The medication he was prescribed helped somewhat in the beginning, but soon he was feeling just as sick as he had before. I think Miracles From the Vault was an answer to prayer. In it I found out about Seacure and ordered it from Texas. We noticed a change immediately. He began by taking 3 capsules Seacure a day with 3 of his Mesalamine. He then went to 4 capsules and 2 Mesalamine. He now takes only the Seacure plus a mineral supplement called Matol and he feels great. This totally changed his life. We are so thankful.

Wonderful new discoveries that Physicians won't touch. I got one for a friend, then after he did not need it was able to sell it right away.

Everyone Wants To Borrow My Copy - Great Info & Advice

By [The Wise Woman](#) on October 2, 2013

There are a few books that you love to share but do not want to be without – and for me Miracles from The Vault by Jenny Thompson is one of them. Everyone who comes to visit ends up sitting reading this book and taking notes for themselves and people they know.

Insider Secrets

3

The information is concise (each herb/supplement/homeopathic/food ingredient) is described in a few pages, with footnotes on medical tests and there is ordering info in the book – but most of the stuff you can get on Amazon. I have tried about 10 products, and some of them are true winners for me ... [Nutricology Taurox 6x Liquid, 0.45-Ounces](#), [Peri-Gum Concentrate Mouth Wash 1 Ounces](#), [GEROVITAL GH3+](#), [Enhanced GH3 Anti-Aging Formula](#), [Healthy Origins EpiCor, 500 mg, 150 Capsules](#) and [Eczederm Rescue Gel, 1.0 oz](#). I also tried over the past year about 5 other things they recommended but didn't see enough results to reorder – which is what you get when you are trying out stuff to see what works for you.

I highly recommend this book and using your intuition (and symptoms/desired results) to guide you as to what to try and what to share with friends and family.

I Would Probably Still be Sick if Not For This Book

By [Deb](#) on February 9, 2016

Format: Paperback

I had the worst case of bronchitis I've ever had lasting 3 months. Steroids, antibiotics and healthy lifestyle wasn't kicking it. I tried one of the products recommended for chronic lung disorders (Mucolyxir). The product promotes expelling of mucus in the lungs which, for me, would occur within a few minutes after taking it. The coughing has stopped; my lung capacity is greater than I ever remember having. I will continue to use it as needed. This book will be my go-to alternative therapy reference book. The cases of success cited in this book are exciting and I'm thankful to be one of them.

I recommend this book and its cures highly

By PWCEditing on January 7, 2014

I recommend this book because I've found that the cures are inexpensive compared to what you'd pay in co-pays for prescriptions that have more side effects than help. Most chapters talk about scientific studies that have been done to prove what these doctors are saying about these things.

One thing I purchased in the Pain Part was a Farabloc cloth. I lent it to a friend who'd been bitten on two fingers by a dog, and she told me that the cloth took the pain down and helped heal the wounds in 3 days. I know it was a small cloth (12"x30"), but when you read how it's made and how it works, it's a small price (\$87) to pay for stopping pain! Especially chronic pain.

The naysayers need to just try it. A co-worker of my wife's is going to use something in the book to break up inoperable stones in his kidneys. When a naysayer gets a cancer diagnosis, s/he will be wanting something that works, not the chemo and radiation treatments that poison the body and its immune system. By the way, there's a good Part dealing with the Immune System.

EVERYTHING YOU EVER WANTED TO KNOW, BUT ...

By Frank Verdi on August 6, 2013

This "Miracle From The Vault" book is a miracle & it's about time. All kinds of new, valuable (sorta priceless) info. I've pursued alternative medicine for many decades, owned New Age companies, and used to buy supplement books 20-30 at a time. I have perused at least 3,000 to date - This one might be the best. abundance of hard-to-find information. Stuff you can't find anywhere. Yes it is an infomercial & yes there are no pictures & yes several products I've even tried without fantastic results. If any of that matters, you don't deserve this book. Otherwise it might save you the money & time it takes to study the other 2,999 books. HOWEVER YOU MANAGE TO GET A COPY, THIS ONE IS A KEEPER...

This is a very good alternative medicine reference

By [Nancy Hollo](#) on December 27, 2015

Format: Paperback

My husband subscribes to the HSI newsletter and received this book as a subscriber. I've seen lots of rehashes of medical journal articles written for us laypeople but this book far excels any I have seen. My husband and I are enjoying good health right now but this book has a place on our bookshelves for such time as we may need a miracle. I got to this page while searching for a Jenny Thompson infomercial I accidentally clicked on this morning that was full of fascinating facts and wanted to listen again. There aren't too many infomercials I would search for on purpose except hers.

Reality Of True Health And Beyond

By [Ronald Harris](#) on July 23, 2013

I have a dear friend who has cancer and does not have insurance, and as the information was shared, they were delighted to have the long awaited answers, to an alternative treatment. This book can change the lives of those whom are suffering, or those whom are choosing between the mainstream treatments, and the natural and most sensible ways to address health issues. The time and effort that has gone into this complete anthology is far and beyond just pure knowledge and an opportunity to experience reality and truth in one's own life, it can be the guidepost to realize what it means to take control of your own well being, in every sense of each offering. This should be a mainstay in every home in America. Because this compilation is based upon many maladies, and each one is addressed with answers and ways to obtain the help, plus it has all the research, of many great individuals and groups and studies and clinics that have been working for many years, and some dedicated their entire lives to this research. I can give you absolute satisfaction regarding this information, and once it is made available through Amazon, the masses will respond to what this book contains. I truly believe that the latest vital health secrets are listed in this manuscript and with each answer to health questions, introduces the company that is the most active in dealing in with a problem, and has what you need. Cudos to Jenny T. And what this book will mean to others, as much as it does to me, a confidant who is very thankful, and dealing with type II diabetes. May many others find their path to health and get answers to the vital questions that this book shares. And many deserved rewards to those brave soul's like Jenny Thompson, that grant us freedom to chose for ourselves.
