What are the best Moon Valley Organics products for after sun care?

Sunburn Relief:

Rejuvenating Rub Medicinal Salve uses Organic Lavender and Mint Essential Oils to soothe and cool sunburns, while Organic Arnica stimulates pain relief and reduces swelling. Apply regularly and enjoy the relief.

Herbal Heal blends Organic Calendula, Organic Usnea and Organic Rose Hip Seed Oil to moisturize and soothe sunburns. Free of any fragrances or stinging ingredients, this medicinal salve is gentle on the most tender skin.

After-Sun Care:

Rewards Program

Moon Melt Lotion Bars use Organic Essential Oils, healing herbs, and organic beeswax to protect and rehydrate your after-sun kissed skin. Allow the bar to melt in your hands and apply lovingly to any area in need of moisturizing.

Are your products safe to use in the sun?

Our products are not recommended for direct sun exposure. We recommend our Salves, Moon Melt Lotion Bars, and Herbal Lip Balms as after sun care.

What is crystalized honey and how do I make it smooth again?

We like to think of crystallization as a sign of high-quality honey! Crystallization is a common occurrence when the honey is raw and has not been filtered through charcoal (which would remove pollen and other natural goodies).

Honey is a supersaturated solution that contains a great deal more sugar than water – over 70% sugar to often less than 20% water. Crystallization happens when the glucose in your honey spontaneously precipitates out of the supersaturated solution and loses water, transforming the glucose into glucose monohydrate (the tiny crystals/granules). Keeping your honey in temperatures below 50 degrees F will help prevent crystallization.

If you wish to de-crystallize your honey, I would recommend boiling water and then removing it from the source of heat, adding your jar and allowing it to cool to room temperature. This process may be repeated until the honey has returned to its original liquid state. You can also enjoy the honey while crystalized; crystalized honey makes an excellent spread on your favorite toast!

How to get Moon Valley Organics Savings!

1. Sign up for our rewards program to earn “HoneyBees” points that you can collect and use towards future purchases (free shipping, \$10 OFF, etc.) - <http://bit.ly/2e5etHg>.
2. Once you are part of our Rewards Program you will be able to use the “Referral Discount” option as many times as you would like. Earn 20% OFF for yourself and a friend when you share Moon Valley Organics with the referral option with your

family and friends. They will automatically get 20% OFF their purchase and once they order you will receive 20% OFF your future order!

3. TRIPLE DIP IN SAVINGS – by signing up for our “Subscribe & Save Auto-Ship” program with the items of your choice AND when you customize your order to be over \$75 to get FREE SHIPPING and the 10% OFF your order (plus you'll get the rewards points)! 3 order minimum commitment for subscription orders.
4. Look for our email promotions to save big on your orders! Promotional discounts cannot be combined with auto-ship orders.

What is Vanilla Flavoring?

Moon Valley Organics Vanilla Flavoring is Organic Food Grade, made from components of organic essential oils that make the flavoring smell like vanilla.

Are your products vegan?

Our products are not vegan, as we are beekeepers and we use beeswax in all of our products, excluding the Foaming Liquid Hand Soaps.

Are your products certified gluten free?

Our products are not certified gluten free.
