Inside you'll find 46 life-changing ways to build your income and wealth automatically, including...

- **Born after 1943? You could collect an extra \$890.07 per month from Social Security.** Very few folks seem to know this, but if you were born after 1943, there's a way to collect

as much as an extra \$890.07 per month from Social Security. All you need to do is make one small change when filing for benefits. Full instructions on page 7.

- **When paying MORE in taxes is the perfect way to retire rich.** This might surprise you, but one of the easiest ways I know of to quickly make enough to retire rich is by PAYING taxes. You'll understand why after you see page 45.
- **The sneaky way to buy your dream home for FREE.** Thanks to a little-known government program, seniors can buy and own their own dream home, without ever paying a dime. As crazy as it may sound, it's completely legal, and tens of thousands of "in the know" folks are doing it right now. Full details on page 47.
- **How to collect a government pension — even if you've NEVER worked a government job.** It's no secret government workers don't worry about retirement the same way everyone else does. They're some of the last folks who can still rely on a pension in retirement. But did you know that you too could collect a government pension — even if you've NEVER worked a government job? Flip to page 51 right away.

Dear Reader,

If you're retired or approaching retirement...

And worried you don't have enough saved...

Then you'll want to pay VERY close attention to this short message.

Because today, I'm going to show you how to claim your FREE copy of my new book, ***The Little Black Book of Income Secrets***.

Why would I give you a copy for free?

It's simple...

For folks nearing retirement who are concerned about getting by, this book is too important NOT to have.

Just look at a few of the income-generating tips and tricks you'll find inside...

- **The quickest, easiest way to set up an income stream that'll pay you consistently for life.** This is the first thing I recommend ANYONE nearing retirement does. It takes just five minutes to set up, but this income stream will pay you consistent monthly income you can rely on. It couldn't be easier! Full info on page 23.
- Over the last two centuries, nearly 90% of the world's self-made millionaires have been created through real estate — **here's how YOU can become a self-made real estate mogul with just \$500 in start-up money.** Page 21.
- **Collect up to four times more rental income than your neighbors with one sneaky trick.** Page 97.

It's been called a "must-read in retirement" for a reason...

The only way to live a worry-free retirement these days is to have steady streams of income coming in, month after month.

Without income you can count on, you're dependent on low-paying government retirement programs like Social Security to get by...

And that's not a spot you want to be in...

Do you really want to leave your financial future up to those overpaid bureaucrats?

I know I don't.

And that's why I wrote this book... to show everyday folks — just like you — how to tap into these little-known income secrets...

And collect EXTRA income... money you can count on to roll in, month after month.

Keep in mind, these are some of the most carefully guarded income secrets in the world.

In fact, George Washington even used the same kind of secret you'll find on page 11 and became one of the country's wealthiest men — from scratch!

This book could result in hundreds of thousands of dollars of steady work-free income for anyone who reads it.

Which is why I wasn't surprised when it shot up to the #1 best-

seller spot almost right after I released it...

That's because the bottom line is this:

If you're nearing retirement, you need to get your hands on a copy right away. This income can help you live with TRUE financial freedom in retirement.

And that's why I want to send you a FREE copy of my new book.

But before I show you how to claim it, let me introduce myself — and show you why this could be the most important book you'll EVER read...

Do NOT Retire Until You Read This Book

My name, by the way, is Mike Burnick.

If you've ever spent any time following the markets or financial news, you've probably seen me before.

I frequently appear on CNBC, Fox Business, Bloomberg TV and dozens of nationally syndicated financial talk radio programs.

The reason all of these top sources turn to me for answers is simple...

Not to brag or boast, but in over 30 years, I've had what most would consider to be a legendary career...

As the Director of Research at Weiss Capital Management, for example, I was responsible for managing nearly half a billion dollars in assets.

And in the 2008 crash — when most folks lost their shirts — I actually MADE over \$200 million.

I've achieved more in 30 years than most folks do in a lifetime.

And along the way, I've made some VERY powerful friends...

And I've discovered some incredible secrets to AUTOMATICALLY growing your income and wealth.

For years now, these secrets have been reserved for the rich and powerful. Very few folks know about what I'm sharing with you today.

Which is a shame...

Because anyone can use these secrets — and they can be absolutely life-changing.

And that's why, earlier this year, I undertook my most ambitious goal yet...

I teamed up with the nation's largest independent financial research firm — with more readers than *The Washington Post* or the *Los Angeles Times* — to share everything I've learned with hardworking Americans across the country.

I wanted to share the income secrets of elite investors with everyday folks from all walks of life...

And explain, step by step, how to use them to generate reliable streams of income that can last a lifetime...

Which is why I wrote ***The Little Black Book of Income Secrets***...

Because I know firsthand what these secrets can mean for your life and retirement.

It doesn't matter if you just want a few hundred extra bucks per month to be able to take care of your bills without stressing...

Or if you want \$5,000... \$10,000... even \$15,000 or more per month to live the "good life."

This book will show you exactly how to reach your retirement dreams.

And after reading it, your life could change dramatically...

You can pay off your mortgage and other debts without thinking twice...

Travel to exotic locations, bringing along the whole family on a trip they'll never forget...

Quit work for good and retire with the free time to do whatever you want...

Set the kids and grandkids up for life, making sure they won't ever have to stress about money like most folks do...

Almost anything is possible!

But unfortunately, almost nobody knows how to set up streams of income like this.

It's not their fault... these secrets often only circulate by word of mouth in elite insider circles.

And that's why what you'll find in ***The Little Black Book of Income Secrets*** will shock you...

After all, have you ever heard mention of these secrets until now?

- **The single most important sentence you will ever read about retirement.** Mark my words, this sentence will make or break American retirees. It contains just nine words, but it'll completely change your perspective on retirement — and virtually GUARANTEE you a successful retirement. Flip to

page 5 as soon as you get the book.

- **Over 62? Thanks to this strange loophole, you might never have to worry about retirement again.** Check out page 85 to see why. If this applies to you, this could change everything.
- **What NEVER to do with your money in retirement.**
There's a good chance you're doing this with your money right now. You need to stop IMMEDIATELY. See why on page 71.
- **PLUS — the little-known Social Security document that's paving the way for some smart retirees to collect more than \$38,221 per year.** Why don't more retirees know about this little-known Social Security document? It's paying some savvy folks as much as \$38,221 per year. Just open to page 9 to find out how to get started collecting these payouts.

Look, just one of these secrets could be the difference-maker in your retirement.

It could be the difference between working for another decade and missing out on retirement memories with the grandkids...

And living a dream retirement full of travel, family time and relaxation.

So it's not fair that these secrets are kept to insiders — despite the fact that ANYONE can use them.

And that's why I want to send you a FREE copy of ***The Little Black Book of Income Secrets*** today.

What you'll see inside this book is just too life-changing to not have.

For example, imagine how much easier your life would have been if you knew about this before...

At First, It Was Just a Coveted Employee Perk...

You've probably heard the name Sam Walton before.

From his humble beginnings in a little farm town in Oklahoma, Sam went on to build America's largest company — Walmart.

But what you may not know about Sam is that he created an opportunity that has helped pay for the retirements of thousands of everyday folks for years.

And, more importantly, it could help pay for YOUR retirement.

What you're about to see is a little-known opportunity that started as an employee perk.

Early on, Sam realized the key to growing his business was devoted employees.

So Sam did something radical — he offered employees the opportunity to become “partners” in the business.

Right away, this started making many employees very rich...

Employees like Shirley Cox, a cashier who barely made \$7 an hour — yet was still able to retire in her 40s, thanks to this perk.

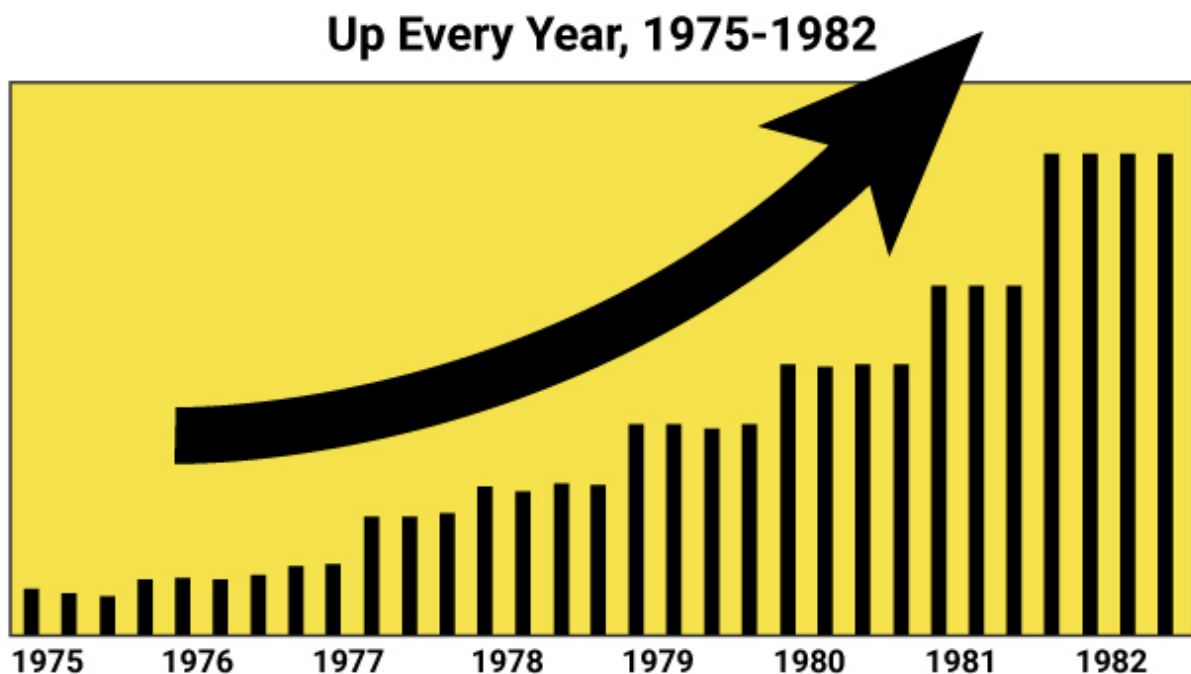

News started getting out of this success — *The Wall Street Journal* raved about it.

As word spread, shareholders wanted in too...

So Sam Walton opened this up to the public — and it's made a lot of “in the know” folks very rich...

That's because the amount of income this secret generates has increased every single year... for the past 44 years.

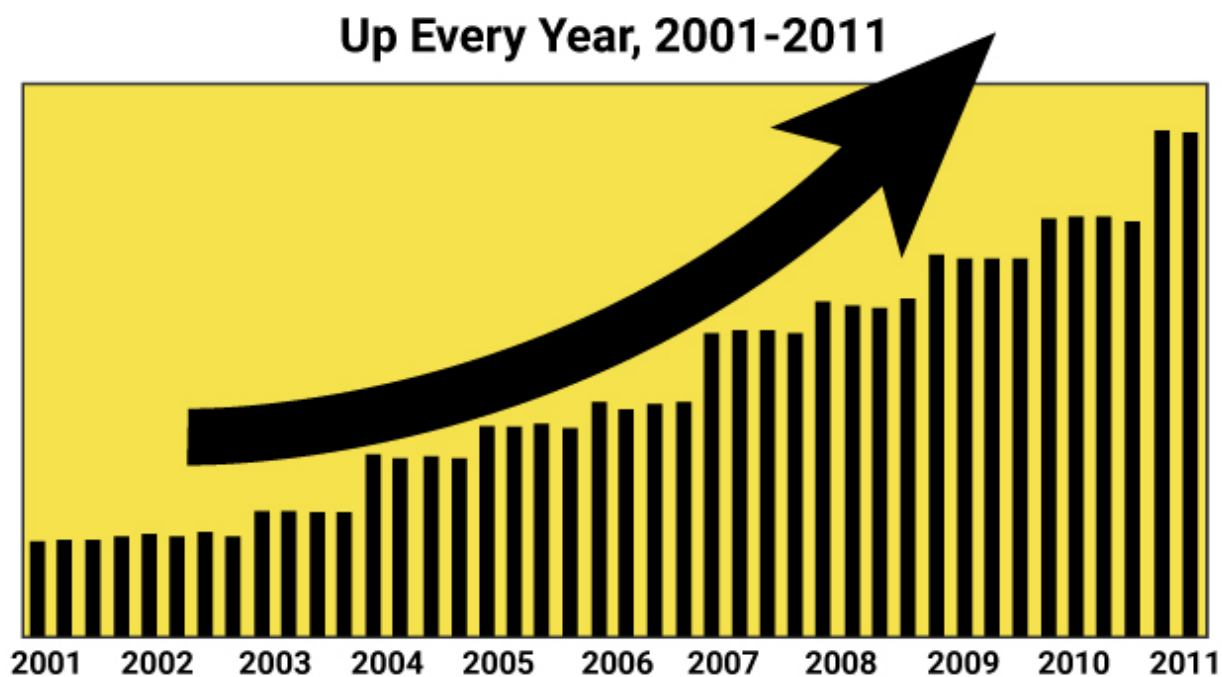

Through the great inflation of the '70s...

To the stock market crash in 1987...

Even during the dot-com bubble AND the housing market crash...

For decades now, this income stream has always
gone up.

And the ever-increasing payouts from it have helped thousands of hardworking folks collect all the retirement income they need.

Just look at what this incredible secret did for John and Sarah Andrews...

The couple had just \$122 saved for retirement after putting their children through college. They didn't think they'd ever be able to retire.

But then they discovered this “employee perk” — and have turned their initial \$122 stake into nearly \$100,000 — a number that's still growing.

So why have you never heard of this, despite the fact that it's open to ANYONE?

Well, the government actually restricts certain advertising of this program to the public.

(Leave it to the government to keep you in the dark about moneymaking opportunities like this.)

So you've probably never heard of this until now.

Could you use it to turn \$122 into an exceptional \$100,000 or more over time? It's possible.

You'll get the full details of this life-changing opportunity that ANYONE can use on page 89 of your FREE copy of ***The Little Black Book of Income Secrets***.

But that's just one of the life-changing secrets you'll discover when you claim your free copy.

Here, take a look at what you'll find on page 29...

Copy This \$200 “Retirement Blueprint”

The AARP estimates the average American will need \$1.5 million to retire.

But for savvy “in the know” folks who know about the “retirement blueprint” you'll find on page 29, you might only need as little as \$200...

That's because if you copy this \$200 “retirement blueprint”...

You could make enough money to retire incredibly wealthy.

I know how crazy that sounds...

But I know of one person who actually got started with LESS than \$200...

And turned it into a \$7 million fortune!

I guarantee you've never seen a way to accelerate your wealth like this before.

Best of all, this is actually SAFER than how most folks invest their money.

And getting started couldn't be easier...

Just flip to page 29 and follow the step-by-step instructions to copy this \$200 "retirement blueprint"...

And you could be well on your way to a wealthy retirement in less than five minutes.

And, of course, the well-kept secrets you'll discover inside this book DON'T end there. Here's a few more you'll find inside...

- **The bank is a safe place to store your money, right?**
WRONG! If you're keeping the majority of your money in your bank account, you're making a HUGE mistake. But don't worry, I'll show you what to do instead. The facts are on page 71.
- **Do you make this mistake when buying gas?** This might surprise you, but every time you buy gas you're making a HUGE mistake if you aren't doing this — one that could be costing you as much as THOUSANDS per year. Check out page 39 right away.
- **HOW TO CUT YOUR MEDICATION COSTS BY 90%.** This little-known "trick" alone will likely save you tens of thousands of dollars. Page 99.

Still not sure that this book will change your retirement?

Then you'll want to pay close attention to this...

Your State Treasury Might Owe You Money... Here's How to Claim It

Right now, millions of Americans are owed money by their state treasury — and they don't even realize it.

As CNBC said...

“More than \$40 billion in unclaimed funds sits in state-level offices across the United States.”

Paul Schatz, president of Heritage Capital, even told folks...

“I would say the majority of my clients have found something lying out there in unclaimed property.”

You'd be surprised how many people are owed money — often thousands of dollars — and don't even know about it.

This cash comes from many different places, such as old bank accounts or uncashed checks.

One New York resident decided to check, and was shocked when she discovered she was owed \$13,000... money she claimed in about five minutes, absolutely tax-free.

As she said of it...

“I think my grandson is gonna have one great birthday party.”

If you're an American citizen, there's a good chance you're owed at least the average amount of \$1,000 — maybe even more!

So how do you check?

That's the best part...

The government actually set up a website to easily figure out if you're owed in five minutes or less (but, as you might imagine, they're not going out of their way to spread the word).

But on page 81, you'll see the details of the website to visit and see if you're owed — as well as instructions on claiming your money.

And, of course, this won't be the only “easy income” you'll find in my book. Here's a few other things you can expect to see...

- **The little-known secret that folks around the country are using to walk into any FDIC-insured bank... and walk out with “FREE” silver.** This might surprise you, but around the country folks are collecting “FREE” silver — all by walking into any FDIC-insured bank (even if you're not a member), making a simple transaction, and walking out... often with a few hundred dollars' worth of silver. It's completely legal, and folks have been doing this for years. Full details on page 57.

Free silver isn't enough? How about this?

- **What the Federal Reserve DOESN'T tell you when they raise interest rates.** This might surprise you, but you could

actually pocket a small fortune every time the Fed raises rates. And with the Fed planning to raise rates several times over the next year, you need this secret now more than ever. See page 13.

Of course, you shouldn't be surprised if you've never heard of these income-generating "gems" before...

Many of these secrets are only spoken about in elite insider circles — very few folks know about them.

But if you'd like to know all of them — and have a step-by-step guide to using them to retire worry-free...

Then You NEED This Free Book in Your Hands

Just imagine how great your retirement would be if you could build your income and wealth — automatically in most cases.

Imagine how freeing it'd feel if you never had to stress about how you'll pay for next month's groceries again...

Imagine being able to tell your children they're set for life, because you've made a fortune several times over...

Imagine flying you and your spouse first class anywhere in the world (and even MAKING money while on vacation, with the sneaky "trick" revealed on page 53)...

Isn't that the quality of life you deserve?

Think about it...

You busted your butt for decades — and now you're supposed to just sacrifice your dignity and scrape by?

Your retirement shouldn't be like that.

And when you know these income secrets that I bet not one in 10,000 folks know...

It doesn't have to be!

You CAN live the lifestyle YOU want... it's completely possible.

Maybe that's just relaxing in retirement, knowing that whatever happens in the economy or with Social Security, you won't run short of cash.

Maybe that's living lavishly...

Whatever it is, it's what you deserve.

Makes sense, right?

And trust me, it's not hard to start living life on your own terms...

My book contains literally dozens of secrets that can help you to generate thousands in extra income.

And even though not every secret will work for everybody... you only need to take advantage of a few to change your retirement

forever...

Like:

- **The weird “Nasdaq Trick” that lets you collect thousands from the stock market every single week.** Just make a simple trade in your brokerage account and watch the income roll in. Why is NOBODY talking about this? It’s a drop-dead simple way to potentially collect thousands from the stock market, week after week. Flip to page 53.

Or...

- **The six-figure business in a box.** More and more retirees are starting their own businesses in retirement. This six-figure business in a box shows you how you can start a business in an afternoon — and start making as much as tens of thousands of dollars from it — WITHOUT needing employees or much start-up money, or having to deal with any other hassles. This is drop-dead simple. Page 93.

Just imagine, while having your morning cup of coffee, you set aside five minutes to set up the simple strategy on page 23 to start receiving GUARANTEED monthly income checks.

Then, in a few clicks, using the weird “Nasdaq Trick” I cover on page 53, you could make \$353.27 in a few minutes.

You go outside. Play some golf with friends. Eat lunch with the wife.

Afterwards, you decide to spend a few minutes taking advantage of the little-known Social Security document that's paving the way for some savvy folks to collect as much as \$38,221 per year...

All told, in just a little over an hour of "work," you made more than most doctors or lawyers do per hour.

And most of the secrets I'll share with you in ***The Little Black Book of Income Secrets*** pay you over and over, for life... and require little or no money to get started.

That's the best part... many of these secrets AREN'T just a one-time thing.

Once you set them up, they'll continue to pay you work-free income for months, years or even the rest of your life...

Which leads me to my next point...

**YOURS FREE: Fill Out This
Social Security Form... and**

Boost Your Payouts by Thousands

I was just recently tipped off about a strange document from the Social Security Administration — **Form SSA-521**.

From what I can tell, although it could boost your payouts by thousands, almost nobody knows it exists — not even most employees of the Social Security Administration!

As one spokesman for the Social Security Administration, Mark Lassiter, said...

“It’s perfectly legal... [but] our service representatives can go an entire career and never encounter [this form].”

One fellow I know of, John Beck, a 70-year-old from Ellicott City, Maryland, recently discovered this form...

And, after setting aside a few minutes to fill it out, he boosted his Social Security payments by about \$1,000 per month.

As he said, it’s “a sweet deal.”

But here’s the kicker...

Out of the 32 million retirees who collect Social Security benefits, John was one of just 71 folks who took advantage of this SSA-521 form that year.

It really is a shame almost nobody — not even most Social Security Administration employees — know about this...

Because boosting your benefits by thousands could have a HUGE impact on your retirement. And it's as easy as filling out a simple form and mailing it in.

Now, you could spend your time digging through the complicated Social Security website... looking for the instructions on filling out Form SSA-521...

But I've already done the hard work for you.

See, I've spent the past few weeks putting together a special report detailing this little-known form.

Such as where to find the form... what to fill out... where to send it... how much you can expect to collect... and much more.

It's titled ***Form SSA-521: Fill Out This Little-Known Social Security Form and Boost Your Payouts by Thousands***. And I'll send it to you alongside your free copy of ***The Little Black Book of Income Secrets***.

And there's still one more bonus I'd like to send to you on top of all of this...

P.S. I just read an article that Social Security is tapping into its reserves for the first time.

Now, more than ever, counting on the government is setting yourself up for failure. You absolutely need income streams coming in from other places if you want financial independence in retirement.

Which is why you need to claim your FREE copy of ***The Little Black Book of Income Secrets*** immediately.

You'll love how easy it is to set up several streams of income that'll pay you for life.

Best of all... it's FREE! All I ask is that you pay a small (but reasonable) \$4.95 to cover the shipping costs.

On top of that, you'll also get all of the bonuses I mentioned — and one full month of complimentary access to ***Infinite Income***, where I'll show you new ways to grow your income and wealth, every single month.

I hope that sounds fair...

And I hope you realize that I wouldn't do this if I wasn't 100% certain that what I'm going to send you will change your life.

So, while there's still copies left, click the button below to claim your free copy of ***The Little Black Book of Income Secrets*** along with all the extra free bonuses.

When you claim your free copy today, you'll also get instant access to another free bonus.

It's titled ***Retirement Killers: How to Avoid the Mistakes That Could Cost You Thousands***, and reading it might be the best decision you'll ever make.

That's because, after 30 years of doing this, I've realized that almost nobody prepares for — or even knows about — these “retirement killers” until it's too late.

And although they're easy to avoid, most folks never do. And it's not their fault — they're never warned about these “retirement killers”...

I've never heard any financial advisor or the mainstream media mention them.

That's why I want to give you a copy of ***Retirement Killers: How***

to Avoid the Mistakes That Could Cost You Thousands

alongside all of your other free gifts you'll receive when you claim your free copy of my new book...
