Q: Hello. I want to confirm the dimensions of this sofa. The width is 76" That is measured from outer arm to outer arm. Am I correct that the thickness of the arms is approximately 5"? If so, I want to confirm that the interior distance between the two arms is 66". Also, could you tell me the height of the top of the arms (from the floor)?

Thank you! - Margaret

asked by A shopper

A: The overall sofa width is indeed 76" and the space between the arms is 66". You are correct that the arms are each approximately 5" thick. The arm height is 23."

Q: Which fabric options are the most durable? Mold resistant, pet and kid "proof", that sort of thing?

asked by Laura L

A: While we don't test specifically for mold and pet/kid resistance, our most durable fabrics include: Basket Slub, Chenille Tweed, Distressed Velvet, Heathered Crosshatch, Heathered Tweed, Performance Velvet, Twill and Worn Velvet. They're all tested up to 40,000 rubs and suitable for high-traffic use.
