## Level 8 - \$20,000

There's no doubt that this level is where the "big boys" play, and is designed to easily rake in an avalanche of serious cash for you each month.

And from that point, your monthly income proceeds to explode due to the constant "pass up" sales from other members at the lower commission levels.

All this is possible solely because our staff of professionals is highly trained in using a proprietary, step-by-step process of closing "high-ticket" sales.

These giant-sized 20K commissions arriving at your doorstep make this one of the most powerful, "wealth-on-tap" programs ever created.

And now, with our team working tirelessly to close your sales 7 days a week, these \$20,000 "next-day" commissions finally become a reality for you.

Being a Level 8 VIP Member means you are fully qualified – letting you earn commissions from all levels, as well as receive all the "pass up" sales that must come from the "unqualified" members below you.

This Level is not for everyone, as it is our most aggressive membership package, reserved for people who have above average dreams.

It is provided solely for the smartest entrepreneurs who have a strong desire to fully maximize their income starting right now – without any loss potential from "pass up"

sales.
