Monthly Newsletter for Distributors

This monthly newsletter is designed to keep our ever growing team of distributors up-to-date on the latest and greatest happenings of the past week. If you have anything to share please send an email to charles@ecmg.net

GET READY TEAM: Normal Business Operations Resume 2nd Week of August!

The long wait is OVER according to Bruce Levitin on July 21st during the West Coast regional meeting attended by over 1000 people. Thanks to Danelle Rich you can see the announcement by [clicking here!](#)

If you are a distributor that signed up for \$59 here is the schedule of when your distributor account will be active and only then can you sign up customers:

- May (Week ending August 10th)
- June (Week ending August 17th)
- July (Week ending August 24th)
- August (Week ending August 31st)
- You will be notified via email
- You will have clear instructions regarding selecting auto-ships

59er reps will not receive auto-ships until after the initial order is processed. Any previous monthly product auto-ships will not be processed. This does not affect your preselected, prelaunch package.

This section will cover various training tips and tricks that our field leaders have assembled through out the month

TIME TO GET MOTIVATED!

Article compliments of Jeff Berger

It's time to look in the mirror and ask: "Are we going to do this together?"

Committing to business ownership is one's choice and cannot be pushed onto anyone. All of us who enrolled as New U Life Distributors did so for some reason. What was your reason? What's your why?

The beauty of New U Life TM is that you have a remarkable support system in a field of network professionals like **Chris Cavedon, Danelle Rich, Ken Olson, Patti Sinclair, Charles Hausmann** and many others! Everyone in the field has been provided with conference call numbers, training videos, social media support and more! Every call & training session is recorded making replays easy to fit in to busy schedules.

The question to ask yourself is "**Am I willing to set aside the time to engage in these team trainings to learn how the business is being built so I can build my team?**" Are you willing to do what the leaders are doing to grow your business?

The premier thing a network professional looks for is a specialty product or service. A lot of companies don't have what we have in a stand alone item. What we find happens very often in our industry is that companies fall under the same catalog of products and/or services. Even among some of the industry giants there is extreme competition. We don't have to worry about that!

What we have at New U Life is extraordinary within the network marketing community. It's happened a couple of other times with products that are unique but not like the patented formula that we have in SOMADERM TM. We know that we have something incredibly special! Yes, we have a learning curve to maneuver through but every new endeavor has that. With incomparable field support and a "game changing" product, we have a WIN/WIN match!

Now, the only thing you need to ask yourself is "**Am I going to build a dream for myself and my family?!**" "**Am I going to lock arms with industry leaders and get to work?**"

Start dreaming big! Realize that as soon as we hit the re-launch button it's going to go crazy! You'll begin to grow in confidence and belief! Start building a massive list now! This is an opportunity of a lifetime. As cliché as that might sound. We KNOW that those who put their heads down and go to work are going to reap massive rewards!

We wish you nothing but success!

#1 Distributors can upgrade their business kit within 30 days of signing up

If someone on your team has purchased the \$199 or \$499 business kit they have 30 days to upgrade that kit to a larger business kit.

#2 Customers can convert to being a distributor

If someone on your team signs up as a customer and then decides they want to be a distributor they can pay the difference based on the business kit they choose and be converted to a distributor.

#3 Does the consumption of alcohol effect HGH?

Here's a little more on alcohol + HGH to get a better understanding. Walk away from your cocktails for two weeks, use your gel as directed, and notice a remarkable change! You're Weight will melt off, muscles will tone and you'll sleep soundly!

"Just in case I wasn't clear before, you should not consume alcohol while on a HGH protocol. Alcohol, in any considerable quantity, blunts the HGH-releasing effect of amino acids and also reduces natural HGH release. An ounce or less of alcohol two or three hours prior to taking a HGH releaser will have little effects on the HGH release, but using alcohol to get to sleep (or consuming after 7:00 pm) can substantially suppress your natural HGH release throughout sleep.

We develop muscle while we sleep and the growth hormone is primarily launched from the anterior pituitary during sleep. Anything that conflicts with sleep will certainly similarly meddle with the release of growth hormone. Alcohol, in particular, interrupts the sleep cycle and as a result will also prevent the release of growth hormone from the anterior pituitary.

Alcohol will also activate hormonal imbalance so when alcohol is in your body, it sets off the production of a substance in your liver that is directly poisonous to testosterone. Testosterone is vital for the development and recuperation of your muscles. As alcohol is soaked up through your tummy and small intestine and into your cells, it can interrupt the water balance in muscle cells, modifying their ability to produce adenosine triphosphate (ATP), which is your muscles' source of energy. ATP offers the fuel required for your muscles to contract. No matter how much HGH you make use of, you still may NOT get maximal results if you consume more than two alcoholic drinks per day while utilizing HGH.

If you choose to drink alcohol while taking HGH supplements, drink lots of water and wait at least 3 hour until resuming your required HGH dosage.

GET ON THE GEL Website Gets a Facelift!

With the re-launch of the pre-launch we have also updated the look and feel of our flagship site that EVERYONE should be using to

introduce new prospects to our amazing Somaderm Gel product

COMPLIANCE 101

Article compliments of Teddie Miller

As a Retired Natural Alternative Wellness Practitioner, Specialized in Nutrition, Genetics and Hormones, compliance with all agencies is the utmost importance to protect our careers and products we choose to share with others.

First, we do NOT claim to cure, treat, prevent or heal any known medical condition in the allopathic (medical) community and NO medical Claims EVER!

Here are some tips on how to share our experience we are having and I have seen in our testimonials that need to be corrected and not used moving forward.

Terms to consider changing to be compliant and those we should never use in conjunction with "the gel" usage:

Pain ALWAYS use = discomfort

Anxiety = uneasiness

Depression = extreme sadness or mood issues

Migraine = extreme head discomfort, I have to lay in a dark room at times

Menopause = change of life

Lyme = issue caused by a tick bite or passed down in pregnancy, etc

Fibromyalgia = widespread discomfort in joints, tissue, awful moods there are many more.

Why should we not connect them?

When we say, "I have been on the gel for xxx amount of time and I no longer have xxxxx (insert a medical term) it can be associated to a medical claim... a definite NO!

But we CAN say, "I have been on the gel for 3 weeks and have better moods, extremely happy and my mental focus is so much better!"

All these above issues are medical vs alternative descriptions. We are not medical professionals, and yes medical professionals can make claims, we can NOT.

If unsure how to word a certain medical DIS-ease please ask! Also, we should be using disclaimers on all testimonies, posts etc. We will help guide you to be very successful in protecting our product and your business center!
