About the product

- MAXIMIZE YOUR MEMORY, FOCUS AND MENTAL CLARITY: This memory and focus supplement contains a proprietary blend of Ginkgo Biloba, Bacopa Monnieri, Alpha GPC, DMAE, Phosphatidylserine, Acetyl L-Carnitine, and Huperzine A to improve your memory focus, and mental clarity.*
MULTIPLE BRAIN HEALTH BENEFITS: Memormax works through four comprehensive and complementary mechanisms – improving blood flow to your brain, lifting acetylcholine levels (an important brain neurotransmitter), enhancing brain cell activities, and increasing the energy available for brain functioning.*
MORE KEY BRAIN BOOSTER INGREDIENTS: Memormax provides significantly higher level of key brain booster ingredients than other memory and focus supplements to help you remember better, improve focus, and think more clearly.*
CONSISTENT MEMORY AND FOCUS THROUGHOUT THE DAY: This memory and focus supplement from was formulated to be taken twice daily with food, e.g. with breakfast and lunch. This means you have stronger and more consistent memory and focus throughout the day compared to other brain health supplements that are only taken once per day.*
GUARANTEED QUALITY: Memormax was developed by physicians specializing in nutritional biochemistry and epigenetics and is the only brain supplement to carry the Medical Doctor Research Certified seal. Each bottle contains a 30 day supply (60 brain pills) and is made in the USA using Good Manufacturing Practices in an NSF Certified, FDA registered facility. AmericonPlus offers a 60 day money-back guarantee based on 100% satisfaction.

Product Description

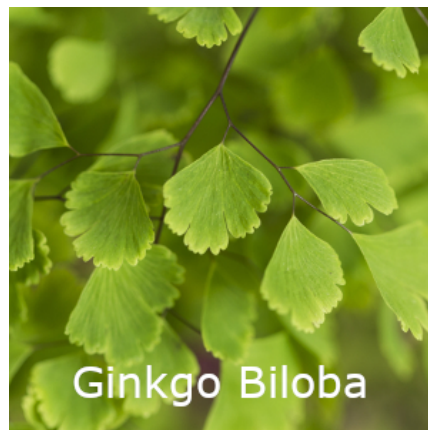

Memormax – Highly Effective Memory and Focus Supplement

Memormax improves your memory, focus, and mental clarity. It works through four beneficial and complementary processes - it improves blood flow to the brain, it lifts acetylcholine levels (an important brain neurotransmitter), it enhances brain cell activities, and it increases the energy available for brain functioning.*

Memormax contains a synergistic blend of Ginkgo Biloba, Bacopa Monnieri, Alpha GPC, DMAE, Phosphatidylserine, Acetyl L-Carnitine, and Huperzine A. Each of the ingredients supports those four brain health processes and contributes to the overall effectiveness of this comprehensive brain health supplement.*

Significantly Higher Levels of Key Ingredients than other Brain Booster Supplements

Memormax provides more Ginkgo Biloba (120 mg) per day compared with other memory and focus supplements. This higher level of ginkgo improves blood flow to the brain.*

In addition, Memormax includes more Alpha GPC (300 mg), DMAE – also known as dimethylaminoethanol or Deanol - (100 mg), and Huperzine A (400 mcg) per day compared to other brain booster supplements. This is crucial for enhanced acetylcholine levels.*

Finally, Memormax delivers more Acetyl L-Carnitine (250 mg) per day than other mental clarity supplements. The increased carnitine supports higher brain energy levels.*

More Consistent Brain Energy, Mental Clarity, Focus, and Memory Boost Throughout the Day

Memormax was designed to be taken twice a day with food. This

The Only Memory and Focus Supplement with the Medical Doctor Research Certified Seal

This memory supplement was formulated by physicians specializing in nutritional biochemistry and epigenetics. Memormax is the only brain supplement to carry the Medical Doctor Research Certified seal.

In addition, AmericonPlus's memory supplements are manufactured in the USA at facilities that are NSF Certified and follow FDA Good Manufacturing Practices. Each bottle contains 60 brain booster capsules for a 30 day supply.

Memory Better

November 14, 2018

Verified Purchase

I'm 60 and plan to continue working for another 10 years. After taking this supplement, I can remember better and think faster and more clearly. It is helping me keep up with (and even do better than) some of my younger colleagues at work! Also I have not experienced any side effects. I can definitely recommend this product for helping with memory.

Better Memory and Concentration

December 9, 2018

Verified Purchase

I have some mild memory problems – people’s names, where I left my phone, occasionally the point I’m discussing with someone. I think it is just normal ageing as there isn’t any serious memory problems in my family. I have not been taking this supplement very long but it has definitely had a positive impact on my memory. I am also more alert and focused and better able to concentrate, particularly at work. I’ve also tried to make sure I eat well, get exercise most days and I do get a full nights sleep. I think the combination of all these things helps.

Great stuff!

December 5, 2018

This stuff is working well for me. I've only been using it a few weeks, but I feel like it is significantly improving my ability to recall some of the small details I was forgetting--names, upcoming dates, etc.

Definitely feeling something

May 4, 2019

Verified Purchase

I've been taking Memormax for about 3 weeks now. It may have been a coincidence but the first week it gave me a headache and I was debating whether or not to continue. I decided to tough it out and after that week there's been no side effects. I have now noticed my memory, concentration and mood are all improved. My wife began taking Memormax at the same time as me and she noticed the same. I find I need less coffee and am sleeping better. I'd say that's a very positive result and I plan to keep taking these. I also noticed there's an official NIH study regarding Memormax so these pills are the real deal.

Didn't work at all for me. Optimind worked for me. More expensive, but I'm sticking to Optimind.
