About the product

- **IMPROVE FOCUS, CLARITY, MOOD & MEMORY** – Get more done and be more productive CompleteBrain is packed full of cognitive boosters and nootropics specifically formulated to help you take your game to the next level.
- **FEEL MORE ALERT & AWAKE** – CompleteBrain was designed with essential vitamins for brain health, including B vitamins which help provide clean energy and alertness without the crash and jitters from stimulants.
- **MORE THEN JUST NOOTROPICS** – Unlike most brain pills, CompleteBrain contains essential vitamins and nutrients for optimal brain and nervous system support. Often modern diets can lack these, so it's critical to address this.
- **ANXIETY & STIMULANT FREE** – Works great with or without Caffeine (coffee, energy drinks, etc.) – you decide what's best for you. All natural formula made in the USA by a FDA registered, GMP Facility.
- **MONEY BACK GUARANTEE** – We're confident in our products and we want you to be too. Try this product for 2 weeks, if you don't notice the results you were hoping for simply return it for a full refund, no questions asked.

Product description

CompleteBrain is a multivitamin and nootropic supplement designed from the ground up for today's fast paced world. We've packed it full of nootropics and cognitive supplements to help you achieve more. We call it CompleteBrain because we believe it to be the best and only complete brain supplement available.

CompleteBrain includes a synergistic and proprietary formulation strictly built for improved focus, concentration, memory and mood, in other words, cognitive improvement. This includes well studied ingredients like: DMAE bitartrate, L-Glutamine, Bacopin, DHA Concentrate, Choline, GABA and many more.

While these are key ingredients, they shouldn't be the only ones. In today's modern, fast paced world with diets of processed and fast foods, often if can be the more common vitamins and nutrients that are missing, resulting in brain fog and a lack of mental energy. To solve this, we included many of the common deficient basic vitamins that help fill the gap and/or boost nervous system & brain function. This enables the nootropic ingredients to achieve their full potential, in addition to providing more overall energy. These are things like B1, B2, B3, B6, Vitamin A, C, D & E, Biotin, Calcium, Iodine, Iron, Magnesium, Zinc, Selenium, Copper, etc.

Besides what's in CompleteBrain, it's important to note what's not in it – stimulants. Many manufactures pack stimulants (like caffeine) into their formulas to give you that buzz so you think the product is working. While caffeine can be beneficial to cognitive function, it can also be counter intuitive and cause nervousness and difficultly focusing, in addition to an eventual crash and mental fatigue. We wanted CompleteBrain to work all day, every day, not to supply a simple caffeine buzz. If you work better with caffeine, just combine CompleteBrain with your normal morning Coffee! - Try CompleteBrain today and see the difference!

Questionable at best. Don't know what they cut this with but sometimes it made me feel like I was on some steroids and other times it was like a placebo.

Kevin & Natasha

Yes, It Really Works. Can feel the change on Complete Brain Days!

June 8, 2016

Great product. We have been testing out different brain supplements and nootropics over the past year and have been seeking out a supplement that provides a good cross section of critical brain support. The list in their proprietary blend covers all the major brain support nutritional supplements which most don't have all in one place. Specific to our interests were choline, DMAE, DHA, and Inositol. However they go well beyond that in their mix and the vitamins also provided the balance to a good base nootropic support stack. So, we cleared off the table and went "clean" off of any other nootropics and supplements for a week and then started taking the the complete brain formula so we could see if we actually could notice any differences. The answer in short was YES. We experimented both with taking the supplement first thing in the morning as well as later in the day and also not at all. The typical morning brain fog which for me lasts about two hours was gone in 20 minutes consistently after using Complete Brain. I do drink one cup of coffee in the am and notice a difference on the days that either I did not take Complete Brain first thing in the morning or took it later in the day. Most of the supplements are good only for a 12-24 hour period so any effect is done within the day period. For the past week, I have combined Complete Brain with my regular nootropic stack minus any of the included supplements and note that it

Meh

August 16, 2016

Verified Purchase

I felt more alert and awake, but definitely didnt feel as if it made more focused or absorb more information. Most of the ingredients are in typical vitamins from GNC. Decent product though. Definitely dont take these without eating first though.

I have noticed a difference in my overall demeanor.

December 20, 2015

After taking Brain Supplement & Nootropic by eXplicit Supplements for 3 days now. I have noticed a difference in my overall demeanor. I am smiling more, focus with a sense of tunnel vision and can breeze through my work like it's nothing. My wife noticed the changes in me as well. BRAVO!!!

I received this product at a discount in exchange for a honest review.

Code Doll

See no difference

May 26, 2016

I like that it is made in an FDA registered facility. However, I did not feel any difference when it comes to my brain's performance. I work with a lot of math, algorithm, etc as a computer programmer. I will not

buy this product again, even though it *was* provided with a coupon code. I'll continue buying my regular vitamins.

Reviewer Disclaimer

I used a discount code to purchase this product. The seller never contacted or talked to me. There was no way to influence my review. All thoughts and experiences are my own. If you have any other questions, please feel free to respond on this comment. I do take time and effort to write my reviews, so please be respectful. Thank you.

Tammy

I have been looking for a brain supplement that works ...

June 1, 2016

I have been looking for a brain supplement that works, this one has a lot of vitamin B's in it. Which I have researched and found that vitamin B's is one of the key ingredient that you should look for. Also vitamin B's give you energy. I do believe that I have felt more energized since taking this product. I have not been taking it long enough to notice an increase in memory area. I do feel a little sharper, that could also be the fast acting of vitamin B's that this product has. I have received this product for free or a discounted price for my un biased opinion on this product.
