Certainly Worth a Try!

December 9, 2017

Verified Purchase

I am past AARP eligibility and can certainly tell that I have lost a step both mentally and physically. I have tried several natural and synthetic nootropics over the years. I would say that the positive effects of Huperzine A were among the quickest and most pronounced in my experience. While I purchased the product for the cognitive benefits, there also was a noticeable increase in physical energy as well.

Science-Backed Supplementation; Cognitive Prophylaxis

March 13, 2018

Verified Purchase

Huperzine-A is a cognitive supplement that originates from a variant of Chinese club moss. It has been shown to be a superb form of prophylaxis for age-related decline (and, more specifically, Alzheimer's). While I've long been a devotee of Source Natural's Huperzine, I thought it best to give the Doublewood version a try since it was on sale. The efficacy of this supplement is comparable to that sold by SN, and the composition is actually preferable (pills are uniform and not speckled; there doesn't seem to be a significant strength difference from dose to dose, as sometimes happens with this supplement). I'm confident that it will remain a staple of my regimen for years to come.

Huperzine-A - This isn't my first time trying Huperzine-A, but it is from Double Wood Supplements.

I have to say, their product(s) hands down, are top quality and manufactured in a facility that you want for elite nootropics.

You know you have a high quality product when you can truly perform exactly what's outlined in the "benefits of taking".

I've used Double Wood Supplements Huperzine-A for specifically 2 different scenarios:

- \*Studying for the PMP certification exam
- \*Pre-Training (gym)

I continue to use the product and utilize a 4 weeks on and 2 weeks off method. Every time I do this, I notice the lack of this nootropic in my system and upon start.. reap all the benefits!

Sharp as a tack.

December 13, 2017

Verified Purchase

I used the Huperzine A for a while. It looks like helped with my memory. I can remember people's names better when introducing themselves.  
I seldom could remember names before. I am surprised to remember little things. Little things, I did not really paid attention to, but now I don't need to try to remember them, they just jump right into my memory. I hope it has a long term effect to keep my memory sharp. I think it is wonderful product. Thank you.

January 21, 2018

I have Ehlers Danlos syndrome. It's a genetic condition that affects our collagen strength, which in turn affects our entire body, including our brains. Most of us experience 'Brain Fog'. As it get older, the fog seems thicker. After researching, and looking for something to help, I discovered Neutraceuticals, Specifically Huperzine-A. I do believe it helps clear the fog, and will continue to use it.

**This natural product pretty much opens up your brain**

February 12, 2018

Verified Purchase

I use this product for long work days to help stay focused and also for lucid dreaming. This natural product pretty much opens up your brain, increasing focus, intensifying past memories and if you like to dream, a 600mcg dose of this stuff will put you in a dream that is almost surreal. Lucid dreaming is hit or miss, especially depending on how often you use this product... This shouldn't be taken regularly, but only as needed, as the effects diminish over weeks of constant use.

**Pure Magic for an older guy! Stop The Madness!**

May 9, 2018

Verified Purchase

I started out 7years ago and ramped up using another brand (Source Naturals), but changed to yet another brand after several happy years due to ridiculous price increases... sadly I noticed a rapid decline and my vivid dreams stopped happening. IMMEDIATELY when I started using the Double Wood Huperzine-A, ALL WAS BACK TO NORMAL and I'm happy again. I am very pleased now because I thought the end was near while taking the other (unnamed) brand. Just be warned some of the OTC stuff is not the real thing.

Let me tell a little bit about the magic of this product to those of you who have never tried it. Especially for an older guy like me with declining memory and tenacity and concentration.... this product coupled with Vinpocetine, will make a huge difference in your life at a very reasonable cost. No need to pay big prescription bills, no need to be disappointed by false claims... this works and works very well.

Younger people, and students can benefit cramming for exams... I'm told that is one of its main functions.

**Huperzine A cleared my brain fog.**

April 10, 2018

Verified Purchase

I tried Huperzine A because I had been having difficulty recalling little things like names of people and details of events. Double Wood was recommended on Facebook and after studying it for a few hours I decided to try it and see if it helped. I took a 1/4 of a tablet the first and second days and didn't notice anything. I increased it to half a tablet and after a couple of days I felt the brain fog lifting. I now take two tablets once a day and I can tell the difference. My brain fog has almost disappeared and my recall is improving. This is an incredible product. I recommend it to anyone with memory issues if you want better mental clarity. Also research how Huperzine A works in the brain. It's amazing how it works.
