About the product

- COGNITIVE FUNCTION: Huperzine A may help maintain cognitive function by supporting the brain's functional levels of the neurotransmitter acetylcholine.*
HEALTHY BLOOD FLOW: Ginkgo biloba may facilitate the flow of blood and oxygen through capillaries to support brain health.*
COGNITIVE & MOOD: Dietary supplement developed to provide nutritional support during many of the normal, age-related changes observed in brain function and cognitive health.
DOUGLAS LABORATORIES researches, develops and manufactures the right suite of rigorously designed, science-based, healthy aging supplements.

Product Description

Brain Memory, provided by Douglas Laboratories, is a synergistic combination of nutrients, specially designed to help produce the acetylcholine needed to help keep the mind stay sharp.

- QUALITY -

For 60 years, Douglas Laboratories has been dedicated to ensuring that the products we deliver are the highest quality available.

- HEALTHY AGING -

Douglas Laboratories manufactures nutritional supplements for long-term health and active lifestyles.*

- 60 YEAR LEGACY -

Over the past 60 years, Douglas Laboratories has grown into a globally recognized leader in the development of science-based nutritional supplements.

As we age, changes occur in many areas of our brain, notably in the prefrontal cortex and hippocampus, that can affect brain volume, neurotransmitter levels, protein and glucose metabolism, blood flow and blood vessel structure. These changes may impact our memory recall, ability to perform tasks and emotional well-being, and compromise overall quality of life. Factors such as genetics, diet, exercise and the environment can all influence cognitive health during later years. Emerging research continues to focus on how we may be able to provide nutritional support during many of the normal, age-related changes we observe in brain function.*

Amazon Customer

Very good product

September 17, 2017

Package Type: Standard Packaging

My dad had Parkinson's disease which affected his memory and cognitive functioning pretty severely. The difference once he started were amazing and immediate. He went off a couple of times and we noticed a decline within a few weeks so he went back on. My husband uses it as well for his short term memory and to help him focus. He loves it!

it really works !

October 27, 2018

Package Type: Standard Packaging **Verified Purchase**

I am 59 years old and I start at least 10 years ago having problems to remember information like names or material that I studied a couple days before. (I am still forgetting where I put the car's key) I have been

taking Brain Memory for the last 6 month and I surprise myself when the information pops up in my head without effort which I really appreciate because it make my life easier and I am getting better grades in college.

Rachel

So far so good

April 6, 2016

Verified Purchase

After a few weeks of taking these pills, I can notice a slight improvement in my memory and focus. I would probably have better results if I remembered to take them twice a day every day. Go figure! I keep forgetting to take the pills that will help with memory! I'm not sure at this point if the pills have actually made a difference, so I will try to continue adding results with time.

As for the pills themselves, they are a small caplet that is about the size of a Mike & Ike (candy). I really like the size of the pill because it is easy to swallow. Also it does not have an after taste or cause burping like some vitamins do. It does not feel like a stimulant either, and I don't feel a boost of energy after taking these.

The bottle suggests to take one before breakfast and one before dinner. I have not had any adverse effects with taking these pills alone. I have also taken them along with a colon cleanse pill from CVS (2 large supplements) and did not have any side effects then either. However, when I took these pills in combination with a thermogenic diet pill, I got sick and didn't keep the pills down. The diet pill warned that mixing certain other vitamins and supplements could have that effect, so just be careful how you mix these.
