money. This product has pleasantly surprised me. I originally purchased them as I'm actor and often find it difficult to focus when it comes to memorization of lines. I procrastinate a lot and can't often sit down for too long and concentrate. They weren't terribly expensive considering it is only one pill a day and I can't tell you how much they helped me. All the ingredients is natural which is

really good for who has ADD Inattentive type like me :)

**Really Works!**

April 28, 2017  
Size: 60 Capsules **Verified Purchase**

I've tried this product out for a week and it's awesome! As an actor, I have to read and memorize lines and scripts on a daily.

This supplement has helped me be more productive with my time. The lines aren't as hard to remember, even when there has been a period of time in between studying and the actual performance/audition. I would recommend this product to everyone from college students, writers, even elderly who feel their memory isn't as good.

August 22, 2018

I constantly have issues with remembering things and staying focused so I was looking for a product that could help me with just that problem and I was so happy when I found Focus Brain supplements. After having kids I noticed that my memory and focus has definitely declined. After having kids I definitely felt the change so I wanted to try a product that could get me back on track and that could help me remember much better. When I came across these supplement pills I was very satisfied with my purchase and noticed a drastic improvement, I like

This is a great suppliment with lots of organic materials and not chemicals. Lots of b12, matcha and caffeine! I felt more alert and did not feel like my heart was going to burst like i do when I drink coffee.

My brother used it as he was studying for finals and he said he felt perked up

And its vegetarian!!!

**Best one I've tried yet.**

July 10, 2018

Size: 60 Capsules **Verified Purchase**

I have a lot of trouble waking up in the morning. I'm a stay at home mom with a one, 10, and 13 year old and this has helped me get my day going. I feel ready and even excited sometimes to get housework done (crazy, right?). The only downfalls are 1. It only seems to work maybe 80% of the time. And 2. This is a little embarrassing but it makes my underarms stink REALLY bad. I have to apply deodorant at least twice a day. And it's a pretty weird stank. But it's worth it.

**Feel The Diffrence**

November 12, 2018

Size: The Brain Focus 30 Capsules **Verified Purchase**

I must say was skeptical when I first got the Focus+ Brain Supplement and Memory Support Pill. but after taking these supplements for over a week now I can tell that I have more attention to details and all my tasks. I thought I had went into a slump, and my productivity was slipping at work. After taking these I can feel the difference. Another plus to these supplements is they are easy to take, they have a nice almost minty taste, and the benefits from the natural vitamins and minerals puts my mind at ease knowing that I am not putting a bunch of chemicals in my body.
