From the manufacturer

Focus Factor Brain & Vision

Focus Factor Brain & Vision improves memory, concentration and focus, with specialized eye nutrients lutein and zeaxanthin for healthy eye support.

Your Brain and Eyes Need Focus Factor

Focus Factor Brain & Vision is a powerful blend of cognitive and eye nutrients delivering an effective 2 in 1 brain and vision formula.

Promotes Healthy Vision

Lutein and zeaxanthin are natural carotenoids that have been shown through structural and clinical studies to be concentrated in the macular segment of the retina. These carotenoids are not produced by the human body, and their accumulation in the eye is dependent on dietary intake.

This stuff definitely does what it says it does. Improved mental clarity, energy, eye sight is less blurry, memory is less foggy after a few weeks of taking it.

Definitely a regular on my shelf now. Highly recommended.

Four Pills Per Day

February 6, 2018

Vine Customer Review of Free Product ([What's this?](#))

My memory has been lagging for years and I have been a glasses wear since early grade school so why not try something that may benefit both? Well first off too good to be true supplements tend to be just that. I have been using this for a couple weeks now and maybe I have gotten a small boost from both but nothing to recommend. Though I guess I should mention I routinely forget to take the recommended daily dose of four a day. I am good at talking one at each meal of the day, but getting that fourth pill is something I remember maybe fifty percent of the time (that I routinely forget that fourth dose may also be a knock to its memory helping promise). Also this is a big bottle, yet when I opened it, it was only half full. Now no on fills their product to the brim, but only filling your bottles half way seems like a waste of plastic.
