I think better at work

August 4, 2017

Verified Purchase

I have tried many supplements over the years. Most, I try and stop. This one, I continue to take. Why? Because it makes a noticeable difference. I am actually able to think more clearly making me much more productive at work. Two capsules in the morning and I am ready to go.

cheapskate

Thank you Havasu, for a great supplement!

October 20, 2017

I want to preface my review by saying that I've been chronically ill for a long time. I'm in that group of sick people that doctors don't want to deal with. I've been told it's fibromyalgia, or lupus, or depression, etc. Anyone familiar knows symptoms range from widespread pain to brain fog. Lately, my brain fog and short-term memory loss have been pretty bad. That's where this product comes in. I've used Ginkgo Biloba in the past and not been impressed with the results. Since I just recently started taking this, I actually put it through a major (for me) test. After having lived a sedentary, and some days even bed-ridden, life for a long time, I recently drove a moving truck from PA to TX. Now, I realize this is completely subjective, but I credit this supplement with my ability to make that move. I was able to be alert and focused, yet remained calm during the entirety of the drive. Since I haven't taken it long, I can't yet comment on long-term effects, but this supplement made a big difference for me and I intend on continuing it. I would definitely recommend this product for anyone wanting to improve their brain health and function. On a side note, Havasu Nutrition is a pleasure to do business with. I believe they are a fairly new company and are coming up with some great products that I look forward to trying. Their customer service is excellent. So, not only do I recommend this supplement, but I also recommend Havasu.

This actually works! I definitely notice an improvement in focus and mental clarity.

I have taken other ginkgo supplements in the past, and none have been as effective as this one. Highly recommended!

A Great Brain Combo that Works!

October 12, 2017

Verified Purchase

I've been in the high-end supplement business for over 15 years and have seen a lot of good Ginkgo and some pretty good Phosphatidylserine products. As I approach 70, I now know why people would want to use these!! This Havasu Nutrition product is great because it combines a good dose of both these products with just a few good binders. Oh, did I mention, The Product Works!! I feel a lot more clear-headed and have fewer senior moments when I'm using it. Thanks Havasu for coming up with such a great product!

Good mental performance supplement, worth checking out!

August 16, 2017

Verified Purchase

This is a new supplement from Havasu Nutrition. I've been taking their NeuroIgnite supplement for about a month and a half now, and found that I do have better focus, especially when multitasking. They offered a sample of this supplement to try, which I have for the past couple of weeks. I'm stacking it with the NeuroIgnite, and have noticed a bit more energy and clarity of thought. No ill side effects at all stacking both, so far!

If you're looking for a mental boost, whether to combat fatigue, stress and anxiety, or improve general mood, I would recommend trying either supplement or both to see if they help you. Neither is too expensive, so I wouldn't hesitate to give either a trial run for a month!

Surprised at the results.

May 25, 2018

Verified Purchase

At first I thought it would be like most other nutrition supplements where they promise the world and you get no results. However I was surprised at the results and the fact that it worked pretty quickly in a day or so. I would recommend this product.

Daytime:

Improved concentration and focus. In a way it's similar to having a coffee but longer lasting.

Night time:

I immediately noticed dreaming more frequently and staying asleep. Dreams now are very vivid.

Tried another brand that has just Ginkgo and I found it didn't have the same results. The combination of ingredients must be the key.
