College student review on product

May 29, 2018  
Size: 60 Capsules - 30 Day Supply    **Verified Purchase**

As a full time student I have delved into various supplements that state to potentially aid in cognitive support and memory retention. While there is no "magic pill" that exists like in the film Lucy , some however have proven to aid better in scholastic performance than others; personally speaking. Iso Brain has strongly proven to be one of them. Not only did I notice an immediate improvement on being able to

maintain focus on homework 2 hours into my studies at 1 in the morning , but I also noticed a refined recall ability of said material during my finals week. I would highly recommend this product to all students out there who wish to have a safe helping-hand with their intellectual studies. I am most definitely looking forward to my future scholastic endeavors now that I've finally found a great product to help me study effectively !

**The Bees Knees**

November 11, 2018

Size: 60 Capsules - 30 Day Supply [Verified Purchase](#)

About a year ago I started to feel like I was losing energy and just couldn't focus like I used to. I started getting into Nootropics then to help with the recent decline. I have tried pretty much everything out there and have become quite the connoisseur. I used Iso Brain's old formula and loved it. This new version is even better.

I don't feel as tired mentally anymore after long days. and have noticed my short term memory has improved. This is the bee's knees!

Working a full time job AND owning my own business definitely calls for long nights and early mornings. A friend of mine recently introduced me to Isobrain & honestly I wish I would've known about it sooner!! I get the mental clarity and energy I need without the crash of a caffeine boost. Highly recommend.

June 2, 2018

Size: 60 Capsules - 30 Day Supply **Verified Purchase**

I have always gone straight for caffeine pills, but they do nothing for my focus and actually inhibit my ability to focus on tasks at hand. Certainly found the solution with Nootropics!! Organizing and executing my daily tasks comes naturally now. I know noticed an instant difference in my mental state. So glad I can get away from the caffeine jitters.
