Legal Disclaimer

In rare cases, Bacopa monnieri may cause minor irritations such as dry mouth, increased thirst, muscular fatigue, indigestion, and an increase in the frequency of bowel movements. Caution is recommended when used with drugs or herbs that are metabolized by Cytochrome P450 enzymes. Similarly, patients using calcium blocking drugs and sedatives need to exercise caution, as brahmi might interact with them. When used concomitantly with phenytoin, it may reverse phenytoin-induced cognitive impairment. Discontinue use immediately and consult your doctor if you feel any discomfort, pain, or physical or mental distress. Please consult with your healthcare practitioner before using this product if you are pregnant or nursing, taking medications, or have a medical condition. Keep out of the reach of children.

BARO KIM

Believe in it, it will work as you thought.
February 15, 2019
Item Package Quantity: 1 **Verified Purchase**

Everyday I consume almost 8 to 10 various of supplements to take care of my physical health. The one common thing that I always do is finding a harmless supplement that contains nothing chemical components such as glutens, GMOs artificial flavors etc. This Brahmi is made with organic ingredients so that it does not have any of chemical ingredients. The reason why I bought this product was that I kept forget something when I leave my house. This was annoying so that I tried to find exact supplement that supports concentration and memory. And Bacopa Monnieri helps to support normal body functions such as mood and a healthy stress response. I've been taking this supplement about 3 weeks and personally think somehow my memory has been improved. I always believe in this supplement so that I always get positive effect of supplement. I would strongly recommend this product to students who need to study a lot or aged people should consume and improve their memory!

Unknown if this will show long term effects

I'm always a bit skeptical about supplements that promise the moon, but as I work in a very high stress field, I thought I would give these a go. I've only had them for about a week, so I haven't noticed a big effect, but my emotions do seem to have been easier to manage. I wish these came in more than a 15 day supply so it would be easier to see the effects.

Me feeling a bit better in cognitive faculties

I've just gotten off of long term anxiety medication that was hurting my short term memory. It was also messing with my ability to articulate my thoughts and I constantly felt like I was fishing around in the ether for the right words for things or how to express what I wanted to say, or for names of people, movies, etc. Since I've been taking these supplements I've noticed a definite improvement in word recall, name recall, and have been way better at expressing what I'm thinking. This product also seems to help with focus at work. Granted, I also stopped taking the medication, but I think it would be too soon to feel a difference from that as it's only been a few weeks.
