JoySpring's family friendly vitamins are great tasting, effective, non-toxic, and alcohol-free, (and sugar-free, dairy-free, nut-free, wheat-free, and gluten-free) from start to finish. The best part is that children love them and will take them over anything else!

Why JoySpring

We want our children to be healthy and happy, so we've taken a great deal of care and consideration in developing our products for kids. Kids, big and little don't like to swallow pills and won't take things that are 'yucky.'

JoySpring Vitamins are alcohol free, so they are easy to swallow, taste great and work even better. Kids love them! We've raised our own children on these formulas, giving you the confidence that you are giving your child the very best in herbal health support.

The 4-1-1

Frequently Asked Questions

How do I use Genius Drops?

While Genius Drops can be given to your kiddos directly, most parents choose to add the drops to their favorite food or drink. The drops are tasteless, so this works like a charm.

Are Genius Drops Gluten Free?

Yes! JoySpring vitamins are gluten/sugar/alcohol and nut free

This product (Genius Drops) was recommended to me by a friend whose child has ADHD. My child has not been offically diagnosed with ADHD, but my assumption is that he is. So with that beina said. mv ears perked up with the mention of a natural remedy that can help my child focus: getting frustrated and giving up. My son takes many supplements to help his

by far adds clarity and focus the quickest. I only give it to him before school. His teachers are amazed at the differences he has shown in the last week of taking this supplement as an add on to his other supplements. he is willing and now able to focus to on his writing assignments. he is able to join group meetings on the carpet rather than have to be separated from the group. he feels more confident in himself as he is not getting into as much trouble at school. I give this supplement two thumbs up and a 5 star rating!!!

Finally! A non stimulating answer!

March 4, 2018

Flavor: Natural Size: 2 Fl. Oz **Verified Purchase**

I purchased these drops for my 2 sons that have ADHD. The older son (Jack) has epilepsy as well. Since he has epilepsy he is not able to take stimulants (which is majority of pharmaceuticals). With this Jack was able to have a clearer train of thought and focus. He said he felt "awake". I was worried it would make him not want to sleep at night, which we didn't experience at all. We mixed it with 100% cranberry pomegranate juice about 30 ml., and had no problem with the taste. I highly recommend as an alternative to pharmaceutical medicine.

Focus in a jar!

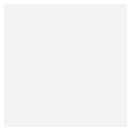

November 17, 2017

Flavor: Natural Size: 1 Fl. Oz **Verified Purchase**

Our son was recently diagnosed with ADD. He has a difficult time focusing, especially in class. As a Mom, it's super important to me try organic alternatives to medicine if and when possible. We are trying everything (low sugar, organic diet, less screen time, etc) to help him with his focus and attention. I scoured the internet and stumbled upon Genius Drops as an organic, natural alternative to medicine. I love that it is all natural and safe and really one of the few herbal products that is being marketed to help with focus for children.

We have just about used up our first bottle and I really do think it's making a difference. Our son doesn't require as many reminders to do things, he started doing chores without me asking here and there (although he's not perfect in any way, it's been an amazing difference). It's hard for me to speak about his performance in school so far but hope to update that soon.

This company seems very eager to get their product out there and their Facebook page and customer service is awesome! Would definitely recommend to anyone looking to help their child in a natural and safe way!

It's been a month, and the results are SIGNIFICANT. So thankful for this stuff!

December 20, 2017

Flavor: Natural Size: 1 Fl. Oz **Verified Purchase**

We have seen major improvement in our son after starting these supplements. It has been about a month and he is much more calm, not having emotional breakdowns nearly as much (whether it's crying or uncontrollable anger) and has been doing better in school! We have been told for a couple of years that he needed to be on medicine for ADD/ADHD and I just didn't want to go the conventional route unless we absolutely had to. So thankful we found this supplement!

Amazing! Improving every day!

January 22, 2018

Flavor: Natural Size: 2 Fl. Oz **Verified Purchase**

My 7 year old son was struggling in school. He just couldn't sit still and focus. He would say his mind was going so fast and he couldn't make it stop. We started this about 40 days ago and within 3 days of him starting this we could already see the changes. His teacher even called us to say she didn't know what I was doing but it was like a completely different child. He is excelling in school, moved up three reading levels and has had nothing but stellar reports from School.

He has great difficulty focusing in class

September 23, 2017

Flavor: Natural Size: 1 Fl. Oz **Verified Purchase**

We noticed a difference immediately and so did my son's teacher. My son has ADHD/ASD. He has great difficulty focusing in class. After a week, his teacher reported that he needed much less input and redirection. This also helped a great deal with his focus in sports. We are very happy with the results so far.

So happy we found these

March 7, 2018

Flavor: Natural Size: 2 Fl. Oz **Verified Purchase**

Absolutely love this product, my 7 year old son has always been hyperactive but when it started affecting his reading and his teacher began pushing the ADD diagnosis on us we were worried. My husband actually found the drops and said he wanted to try these, we saw results in two days, within a week his school therapist was calling to see what the cause of his improved attitude was. We are on our second bottle and he asks for them himself, we give 20 drops two times a day, I personally have tasted them and they taste a bit like black licorice but not terrible. Would recommend them to any mother out there who doesn't want the ADD/ADHD label put on their children right off the bat.
