Found a winner!

Now that I'm a couple years into the "nootropics scene" I feel like I've tried most of what's available. A few years ago the government took one KEY ingredient off the free market because they're using it now as a prescription only fight against Alzheimer's, dementia and other cognitive diseases. That being said, this combination provided here is the best all natural solution that I'VE found. I'm writing a review because I was about to order two more bottles and thought these guys deserve some praise. It would be ridiculous to think you're going to become some sort of super savant after taking these, but I'll tell you you're going to me awful crisp when it comes time to lean on your cranium. Half of the herbs help to stay calm under stress, which gives you time to make better decisions and the other half really stimulate active contemplation. I'd say buy this and give it a month. I'm pretty sure you'll be like me and keep buyin em..!
