**Clarity offers just that and is a good tool in anyone's demanding schedule**

January 13, 2019

**Verified Purchase**

I've tried a number of mental boost products with varying results, but Clarity really worked on keeping my mental focus there when under demanding work deadlines and a full social schedule of decision making and needing to be "on" for long periods of time. It is clear that careful attention was put into getting the

**Clarity has greatly improved my memory and concentration!**

October 7, 2017

Verified Purchase

Clarity has greatly improved my memory and concentration - the brain fog is gone! I am able to think quicker and feel alert without feeling jittery or anxious like I do with caffeine. I feel more relaxed, have more energy and I've been sleeping better too, usually at bedtime my mind races and I have trouble falling asleep but I doze right off now. I'll be a regular user!

**Impressive Product**

November 2, 2017

First of all let me say that Clarity had a tough battle, my mind has been scrambled due to the fact that I have been on heavy narcotic painkillers. That being said, Clarity worked amazingly! It has allowed me to think more clearly, speak more accurately. I am really impressed by this product!

**Worth the ROI**

February 18, 2017

I actually really liked it. I really enjoyed the effects. I have ADHD so I wanted to try something instead of Adderall. I definitely felt the difference between using this and nothing at all. I really like how it does not make me jittery or any noticeable side effects. I definitely like how it felt like my mind was clear and focused.

**Say hello to my little friend!**

I've been a procrastinator since I can remember. I have ideas and never put them to practice. I checked out a book from the public library that teaches you how to organize your life and take action. Well, I never read the damn book. Not only that but I returned it to the library after its due date and paid a fine. Are you getting what type of person I am or think I am? Now a month after taking this pill I'm reading, taking extracurricular college classes, putting my thoughts into action, interested in learning, and absorbing knowledge like a sponge. This is not a magical pill. If you're not into learning, improving yourself, reading, then this thing will do nothing for you. But if you've ever been curious about learning another language but have put it aside then this pill will help you get motivated and stay focused.

I can read without getting distracted. I can write a freaking list of e-mails. I can balance my checkbook. I can write an Amazon review beyond the "yes, it's good!"

Yes! Yes! Yes!

**A No-Brainer**

March 20, 2016

**Verified Purchase**

I found I was losing my intellectual and creative edge as the day moved along and was looking for something natural that would work as a restorative, so I thought I would give this a try. After a week of using it, I am impressed. I started taking two capsules with lunch and realized the effects the first day; my mind wasn't clouding, I was able to keep focused, and I no longer find myself befuddled while trying to remember the things I am supposed to do. If you are looking for a safe nootropic that delivers, I highly recommend Clarity. Give it a try, you will be surprised at how well it works.

I can't say enough about these pills! I have only been taking them a few weeks and I can honestly say that I am better able to think creatively and focus. It's so good to not have my mind wander every few minutes. These are amazing and you guys have a customer for life!

**Worth a try**

July 26, 2017

**Verified Purchase**

This is my first time taking any sort of nootropic, so I wasn't and still am not completely sure what I'm supposed to feel, but I will say that it seems like I have an easier job getting going in the morning now. Not bad.
