Product description

Flavor: **Non-Vegan** | Size: **30 Serving**

Taken daily, Neurella supplements your diet with rich, abundant, powerful anti-oxidants and key natural ingredients that nourish your brain and support neural networks for the long road ahead. Neurella boost brain power over the SHORT and LONG term when taken as suggested. Twelve of the most powerful ingredients shown to improve memory, Neurella provides significant and researched amounts of natural substances. As well as working in synergy to maximize a broad spectrum of brain functions. What sets Neurella apart from the competition? The number of quality ingredients is rarely seen in one nootropic stack. And when you DO see a dozen or more substances packed into ONE stack, they don't deliver a significant enough amount of each individual ingredient to reduce brain fog and memory loss. The real-world experience and knowledge of our Neurella medical team that specializes in nootropics. Each component of Neurella is not only time-tested but clinically successful in the realm of creating a brain food memory booster product. Neurella is NOT an off-the-street, off-the-shelf, amateur, first-stab compilation of randomly chosen substances at random doses. The team of brain experts who helped formulate Neurella includes neurologists, psychiatrists, neuro-psychiatrists, exercise physiologists, neuropsychologists, herbalist and acupuncture-trained medical doctors and memory experts. Neurella works are by 'filling in the gaps' found in most people's overall lifestyle. Many of the components in Neurella function as adaptogens, reducing the effects of stress on our various body and brain systems.

Made in America with the highest quality standards. 4 of the 12 ingredients are trademark compounds that have been clinically studied and proven to be at the highest level of quality and effectiveness.

Rooted in brain science by brain scientists

February 4, 2018
Flavor: Non-Vegan Size: 30 Serving **Verified Purchase**

I am one of those supplement skeptics, especially all the "brain food" and "nootropic" jargon. Given the proverbial FDA disclaimer, you don't know what you're getting. Where is the science?

Turns out Neurella was created by brain scientists. It came recommended by a San Francisco neuroscientist. She shrugs at the many formulations, many of which include a stimulant but told me about Neurella, a new formulation created by integrative neurologists who developed it while treating severe brain injury. Over time they began to see positive, anecdotal clinical results. I thought that interesting - not just a bunch of Silicon Valley types trying to market - not invent -- the next hot nootropic.

Then I learn about Dr. Dale Bredesen, an Alzheimer's expert, who published a disruptive bookseller last year called The End of Alzheimer's: The First Program to Prevent and Reverse Cognitive Decline. She digs deeper and discovered a 2014 article he published in the journal Aging in which 10 patients showed a reduction of dementia symptoms over a few years.

Gave me more mental energy and focus

November 29, 2017
Flavor: Non-Vegan Size: 30 Serving **Verified Purchase**

I usually don't feel much of a difference when taking any kind of vitamin or supplement, since I'm well aware of (and wary of) the placebo effect. After a week or two of using Neurella as directed, however, I can definitely say what I have noticed the most is that I have more sustained amounts of mental energy throughout the day, and more focus to be able to work on tasks longer. This is what I was hoping for in taking Neurella.

This was recommended by a friend and I have been taking it ...

December 8, 2017
Flavor: Non-Vegan Size: 30 Serving **Verified Purchase**

This was recommended by a friend and I have been taking it now almost 6 weeks. At work I sometimes have project that requires my focus for long periods of time. Follow that with four kids and homework and the schedules that comes with them all... I was just looking for something to help me get a little more out of myself.

I found that with Neurella. As the weeks went on I found myself able to complete more items at work without feeling like I needed and break, and not feeling overwhelmed by the end of the day.

I am happy with the results.

Quite Pleased! Just Ordered Again!

September 5, 2018

Flavor: Non-Vegan Size: 60 Serving **Verified Purchase**

I have gone through four bottles, taking 2 capsules in the morning and 2 at night. I began to notice a substantial difference in my ability to remember things better within 3 to 4 weeks. What I am most amazed by is the significant improvement in what is called "threshold syndrome". You know what I mean . . . when you leave a room to go do something, get to the targeted destination, forget why you went there in the first place, return to where you started your mission, only to face-palm-remember your original mission. Once you step over that doorway threshold, you are toast!

My succumbing to threshold syndrome has been reduced by about 90%! I have NEVER had that level of success. Just tickled pink.

Simply Superlative

January 10, 2018

Flavor: Non-Vegan Size: 30 Serving **Verified Purchase**

In 2009, I suffered a severe TBI after an improperly mounted banister tore loose from the wall and I fell down a flight of stairs hitting my head against the wall at the bottom. Complicating matters was the fact that I was not discovered for approximately 36 hours afterwards and was perilously close to not making it. The challenges presented after such an injury are considerable and include difficulties with both short and long term memories, compromised problem-solving and multi-tasking abilities and susceptibility to even the smallest of distractions.

I began taking Neurella at the recommendation of my Neurologist and the improvement in cognition has been nothing short of remarkable. I find that mind is much sharper than it had been and that my energy levels have increased considerably and I find that I am able to remain clearly focused on tasks which require mental effort for much longer periods of time. As part of a career change, I was even able to enroll in graduate school where I did quite well and was able to earn a Master's Degree.

Moreover, as was mentioned by somebody else in a prior review, I too have a fear of possible developing Alzheimer's disease or Dementia down the road. Neurella's protective ability to fight against these conditions provides peace of mind in that I know I am doing everything I can possibly do to prevent it.

This medication is an amazing, natural supplement!

February 14, 2018

Flavor: Non-Vegan Size: 30 Serving **Verified Purchase**

We have been taking this supplement for only two days and are amazed by the results. We are usually feeling sluggish and needing a nap after work. Neurella gives you the strength to go full speed all day long.

I also sometimes wake up with no go-go. I feel hazy as if I am in a coma, usually because of lack of sleep. The results with Neurella are astounding. Within minutes, I feel ready to get going. I would recommend this product as an effective natural remedy for anyone needing energy and motivation.

SERIOUSLY works! Crazy noticeable benefits

November 28, 2018

Flavor: Non-Vegan Size: 30 Serving **Verified Purchase**

I can't say enough great things about this supplement. Not only do I experience sharper focus, the ability to multi-task, and the ability to concentrate for longer amounts of time when I take Neurella, but I've noticed a whole host of awesome benefits that I wasn't expecting! My mood is more stable, my sleep is deeper/I wake up feeling well-rested, my stress level and anxiety are TOTALLY under control (this is a huge one for me. I DEFINITELY notice if I miss a dose), AND my inflammation has drastically decreased, which is amazing. I've had a wrist injury for years that bothers me pretty regularly, but taking Neurella

zaps away my pain. I was blown away and this supplement has seriously changed my life for the better.

I had a few days off of it in between finishing a bottle and waiting for the next one to arrive, and I felt a noticeable difference in my body and mind when I wasn't taking it. Couldn't recommend more highly! I also love that it was created by accomplished brain doctors who know their stuff, so I feel safe taking it long term and confident in the quality of ingredients.
