Cognitive Enhancement & Motivation

February 12, 2019

Verified Purchase

I started using this product recently and have noticed a great improvement in cognitive function and motivation. Really works wonders. Seriously, I got all the laundry folded, made breakfast, and vacuumed all before 8am. Not only that but I was happy to do it. It wasn't like a 'aw, I guess I gotta get up and do things.' but a 'I really want to get this stuff done.' Also before using this product I was really slow to think of terms. I had serious mental fog which made me feel kinda slow. After using this product I can easily access my entire vocabulary without pausing for long periods of time or having to stall with, "Um....you know?...the thing with the stuff..." I could immediately access the specific descriptions I was thinking of. It's made a really profound difference in my confidence when speaking. It's also helped me retain info in my classes after only hearing a lecture once. One of my classes is Anatomy and there is a plethora of information. It has helped my focus when studying and my performance during tests. Totally worth the investment.

SORRY, IT'S A NO FROM ME

February 6, 2019

Verified Purchase

I really wanted to like these. Lots of hype about increased energy and focus. First few days - nothing. So, I increased the dosage. Took 3 *extra* capsules in the morning and 3 in the afternoon. Still nothing. Not even a little pep. I will keep taking them until the bottle runs out, and if I feel any different I will revise my review. But for me, it's a no.

Great Focus

January 24, 2019

Verified Purchase

I've been trying these for about 3 weeks - almost daily. I'm not taking 3 a day, only 2, and I've been happy with how the overall focus I'm able to achieve throughout the day. I gave 4 stars instead of 5 because - and this may not have anything to do with the product - I "crash" hardcore around 7pm - super sleepy/tired. I didn't seem to have this problem before I was taking them. Don't get me wrong - it's not like I fall asleep on the couch at 7, but there is definitely a sense of fatigue.

What's there not to like here? I've been taking the product for several weeks now. The thing about taking mushrooms is that it's a cumulative effect and it takes some time, so patience is required. Rest assured, your body is thanking you.

Works

November 29, 2018

I think these work really well. I had nice energy all day, no jitters. I just generally felt good. Maybe it was a placebo effect, maybe it was these pills. I'm never sure with nootropics. But I felt good.

I really liked that these supplements kept me motivated. I used to be a really bad procrastinator, but when I took these supplements I wanted to get up and go and get things done. One thing I didnt like was the taste of the supplements. I took these to help me focus.

Optify Mushroom supplement , A wonderful Product!

February 18, 2019

Verified Purchase

The price is reasonable. It seems to be helping to sharpen my memory, and I feel more alert in my daily studying.

I do a good amount of Biblical research and once again I feel excited when I discover a connection between one part of scripture with another. I have only been taking this supplement 3 weeks, but I'm hopeful it will be helpful. ej
