Samantha Jackson

Best supplement I've found for focus!

March 21, 2019

Verified Purchase

I've been using this for 12 days now. I was a skeptic because I have a genetic chronic illness and have had little success with supplements, but my doctor recommended I branch out to more natural things due to reactions to almost every medication possible. SO... the first week, I didn't feel different, but after about 7 days, I noticed my energy levels were better, and my focus was immensely improved. I have severe brain fog and some days I'm just like a zombie, zoned out, unable to read or critically think, and this supplement really boosted my ability to think again. I can work with more focus, and speak/think more clearly. My energy isn't boosted like the way caffeine feels, which is great, no crash. I just feel well rested and haven't needed a nap in over a week now. I highly recommend this supplement! And the price is perfect.

It's like fuel for your brain!

February 16, 2019

Verified Purchase

I have been taking Best Mushrooms for a week now and this is what I have noticed

-A slight increase in ability to retrieve information from long term memory

-Easier to remember details, both large and small

-Overall elevation in mood and well-being

- A slight decrease in proximal nerve pain

I have enjoyed using Best Mushrooms thus far and have been seeing compound benefits each day. I am a physical therapy student and an competitive powerlifter and I can see this product being very beneficial for my cognition and sport performance.

Richard Rojas

Big different in how I talk and type.

April 1, 2019

Verified Purchase

I have been a primal one beta tester from day 1. There product is a head of the game. If your like me. I take alot of supplements to get me through the day and these mushrooms are part of my daily vitamins. I did noticed a big difference in the way I talked and presented myself in just a couple of days. Try them out for your self.

Chance M Kleineke

Good ingredients, nothing proprietary

March 4, 2019

Verified Purchase

I do like that this product clearly lays out the ingredients and exactly how much of each type of mushroom is in it. I've been reading and hearing on podcasts recently about great benefits from many mushrooms. And these three are always mentioned and talked about in great detail. This pill-format has all three. I definitely notice the energy increases. Immune and brain function are harder to detail. I feel like the focus part is there. But read up on the ingredients, there is a lot of info out there on them. This is a convenient way to get it in one dose.

Increased physical endurance

February 27, 2019

Verified Purchase

I can't say for sure if I have seen any benefit from a cognitive perspective, and obviously immune health is a hard one to measure in general. I would say that the benefit to me has been physical endurance, noticeable during end of workout cardio on the stair stepper. My legs just feel like they have a bit more fuel in the tank than usual. No changes to diet or other supplementation, and I have not been actively working on endurance. I would say this is an improvement over baseline for me. Not sure if I would use this product again personally (different people respond differently to different compounds), but for the asking price I would encourage others to give it a go. Mushroom blends have some interesting data behind them for cognitive and immune health, and oxygen usage during exercise or physical activity.

Ben

Great mushrooms

February 14, 2019

Verified Purchase

This is pretty good stuff, you get the benefit of all 3 mushrooms in one capsule. Definitely feel more clear and more awake, especially when combined with other vitamins/nootropics. This brand is great too, good customer service , responsive and the product quality is great as well. 🍄🍄

Amazon Customer

Excellent, high-quality Mushrooms!

June 8, 2019

Verified Purchase

The product "Best Mushrooms" has exceeded my expectations! It has gone above what was advertised and expected. The quality is excellent, and so is the price range. The combination and synergistic nature of the Lion's Mane, Cordyceps, and Reishi mushrooms plus their AstraGin proprietary blend of Astragalus membranaceus root extract and Tienchi ginseng root extract work very well together! I am a cancer survivor. A few years back, I had a hematopoietic stem cell transplant (HSCT) derived from umbilical cord blood, which was donated to me by the parents of their newborn baby in Los Angeles. We were a rare 6 out of 6 MHC match.

My doctor recommended this product for my low energy levels (i.e., fatigue) and brain fog. I sought her advice seeking something organic and inexpensive for issues, and she recommended this. I highly recommend you speak to your doctor and make sure to do with any supplement or herb. My results are as follows:

1. Increased levels of natural energy and the amelioration of my chronic fatigue.
