### Brain Boost Ingredients

#### Huperzia A Extract

This water-soluble nootropic is derived from Chinese Club Moss (*Huperzia serrata*). Huperzia A is a reversible acetylcholinesterase inhibitor, which means it prevents the breakdown of acetylcholine, a neurotransmitter, thereby boosting short-term memory and long-term brain health.

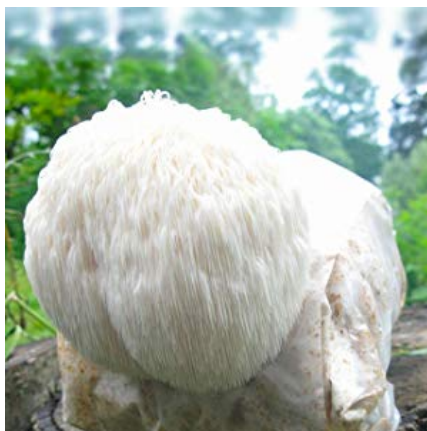

#### Bacopa Extract

Bacopa Monnieri is one of the oldest and most well-respected nootropics. A traditional Ayurvedic medicine, sometimes referred to as "Brahmi," Bacopa has centuries of history as a potent cognitive enhancer, stress reliever, and brain protectant.

#### Black Pepper Fruit Extract

Black Pepper Fruit contains piperine, which helps with nutrient absorption, improves metabolism, and raises dopamine and serotonin norepinephrine levels in the brain, thereby decreasing anxiety, improving mood, and helping with weight loss. It is also thought to have the ability to improve the immune system, and reduce inflammation.

#### **Lion's Mane Extract 30% Polysaccharides**

#### **Cordyceps Extract 30% Polysaccharides**

This "High Performance" adaptogen is renowned for its ability to increase energy and endurance, stabilize blood sugar, reduce exercise-induced oxidative stress, and improve mood and mental clarity. It also helps fight Diabetes, improves liver function and detoxification, and acts as a natural aphrodisiac. Our Cordyceps extract is high in polysaccharides, one of the richest groups and the main bioactive components of the Cordyceps mushroom.

Why is the company so opaque?

August 31, 2018  
Size: 5 Ounces **Verified Purchase**  
There is no website associated with this company, which I find strange for a supplement company. I would like to feel comfortable about the ingredients but there is no way to verify this aside from paying to have the product tested.

Just the boost needed!

July 18, 2018  
Size: 5 Ounces **Verified Purchase**  
I have been a fan of cordyceps mushrooms for some time. I have tried several brands, but have not been so impressed as I am with Purity, wow! The combination is much more impactful than other mushroom blends I have tried. The taste grew on me quickly, it is similar to a bland chocolate and is easily consumed mixed in water alone or as I do, mixed with my morning pea protein shake. I would not recommend it mixed in a cup with a spoon alone, the product mixes best when shaken in a bottle.

I first ordered this right after quitting caffeine, which I felt I needed to quit to kill my anxiety and tension in my body, I was right about that! At my lowest point this product single handedly picked me up and got me out of a serious caffeine withdrawal funk, with extra energy to boot. I have felt a need for physical exertion since taking this, I actually want to work out again. I have also noticed some improvement in mood, memory and word recall.

One unexpected benefit that really sold me on this was the incredible dreams it gives. Who doesn't love to dream? I've always heard "Mushrooms will give you crazy dreams" and that is certainly true here. This

**So far so good. Real good - UPDATED**

August 17, 2018

Size: 5 Ounces **Verified Purchase**

This is day 1. I've been making my own energy drink mixes for quite some time because I have a lifestyle that demands my mentality be at its peak most of the time. I cannot trust energy drink companies to make a healthy and inexpensive enough option.

I've gone through many companies and many products intended for energy & mind/well being enhancement, and after all of my experiences I can say this after just one dose:

This stuff definitely works. It's different than what I'm used to. While other products I've used---- (mytrogenia speciocia, ALCAR, all types of nootropics, ginseng, ginko baloba, BOTH types of bacopas, and much much more) ---have had a level of efficiency, I can feel something different about this blend.

It's smooth in feeling. It hits you energetically, it hits you mentally, it hits you physically, all very evenly. I'm not used to that.

**Great Price, Great Packaging, High Quality Extract.**

June 29, 2018

Size: 5 Ounces **Verified Purchase**

I was looking for a good product to introduce myself to medical mushrooms. I was specifically looking for Lion's Mane as my main interest was cognitive enhancement and increased productivity. While the reviews Brain Boost had were all 5 star, I was nervous about ordering because there were only 6 reviews total. I am SO happy I did.

I received the package in a timely manner and it was VERY well packaged. The extract was tightly double-bagged in standard ziplock bags and then placed inside the resealable foil bag you see in the picture. There was no loose powder. While this may not seem like a big deal I have gotten plenty of vitamin powders before that were either leaking, or started becoming a mess once the package was opened, so I really appreciated this.

Now to the extract itself. This is a high quality product. Granted I have only been using it for a few days, but the dry and ultra-fine consistency is what I've come to expect of high quality extracts. While there is minimal clumping at times, I find that it dissolves pretty easily in my morning coffee. The product does

**It's worth it if you like life!**

December 22, 2018

Size: 5 Ounces **Verified Purchase**

I've tried many nootropics over the last two years (Alpha Brain, Brain Kindle, Genius Mushroom, Brain Plus, etc.) and the Purity Brain Boost is by far the most effective for me. I sleep SO much better! My focus on tasks has noticeably increased and it doesn't take as long to enter my flow state either. My memory and word recall are on point, I feel like an encyclopedia at times lol. Lastly, my alertness in the morning is superb and I have traded in coffee for Brain Boost.

Don't get me wrong, other brands can work and have, but this FEELS correct. My body/brain communication is prime. Go Get Brain Boost!
