137 customer reviews | 10 answered questions

- About the product
- **HIGHEST DOSAGE + ABSORPTION ENHANCER** - Our 2100 mg serving is the highest available and is enhanced with BioPerine, a patented Black Pepper extract clinically proven to aid absorption. Our max dosage along with better absorption provides vastly more bioavailable Lion's Mane than other brands.
  - **TOP QUALITY ORGANIC LION'S MANE** - Our capsules are comprised of 100% pure Lion's Mane extract powder from hand-picked, USA-grown mushrooms. The powder is extracted using a state-of-the-art hot water method to ensure maximum possible nutrient retention. Our Lions Mane supplement is vegan, Non-GMO and gluten free, without the use of harmful additives or fillers.
  - **COGNITION, IMMUNITY & MORE** - Studies have shown Lion's Mane to be one of nature's most powerful nootropics, aiding memory, focus, clarity and overall cognitive performance. In addition, Lion's Mane has also been indicated to boost the immune system, reduce inflammation and provide potent antioxidant benefits.
  - **DOCTOR-DRIVEN, SCIENCE BACKED** - Bringing Dr. Emil's unique knowledge as both a medical doctor & recognized authority in the supplementation field, our blends are painstakingly formulated to provide superior results and are always backed by science - free of gimmicks, fads & false promises.
  - **ONLY THE RIGHT STUFF** - All Dr. Emil products are made from all-natural vitamins, minerals & herbal extracts, without the use of harmful additives; Non-GMO and free of hormones, gluten and all top 8 allergens. All products are manufactured in the USA in an FDA-registered, GMP certified laboratory.

Must have for anyone looking for a mental edge!

May 12, 2019

Verified Purchase

I'm a long time supplement user and very well versed in all types of dietary supplements. I have used everything from sports nutrition products to nootropic smart drugs and everything in between. May products, especially nootropics ("brain boosters") overpromise and underdeliver. I've even used some nootropics that have cost upwards of \$100 with patented ingredients, etc that turned out to do nothing. Being a fan of Lions Mane for several years, I can tell you this product is a true winner. I do believe this brand is superior and this product is certainly superior. What drew me in was the emphasis on the science and the BioPerine. I have used other supplements with BioPerine and it absolutely can make a difference in how your body absorbs the nutrients and hence the efficacy of whatever product you're using

My mind was blown when I immediately noticed a difference in focus after using this supplement. I am currently studying for the LSAT and I knocked out three practice in the time it usually takes me to do 2 (this is a big difference). I actually finished all 3 practice tests about 15 min ahead of the allotted time frame, which is very hard to do and I haven't done so before this using product. Also, I didn't feel the need for a break between taking the tests which means my focus was super on point.

Good natural supplement

April 26, 2019

Verified Purchase

I have been cutting back on my prescriptions and substituting them with more natural alternatives. I purchased Lions Mane to help me with my anxiety and brain fog. I am impressed so far with the results. I've only taken it for a short while but I started noticing the brain fog receding and have not been as anxious as before. I like that this Lions Mane does not use fillers and is organic. I have not had any adverse side effects either.

This is a great value for the money and these capsules have the potential to support your mind and body. I love that it's a natural solution for brain fog and memory support. I also love that it is created for maximum absorption.

These are easy to take and have no aftertaste. I am a fan of this company and am pleased with these shrooms.

I haven't taken them long enough to notice a huge difference, but I am excited to say that I'm definitely noticing a different clarity in my thinking.

**Great buy**

**Verified Purchase**

My grandmother passed from complications of dementia, so brain health is even more important to me now than ever before. This product is a great natural way to improve brain health and mental focus. There's no yucky taste, or aftertaste even, and the capsules are easy to take. I definitely recommend this product.

**Good Choice**

May 2, 2019

This is a great supplement. There is a seal over and under the cap, which is nice. It really helps with concentration and focus. This is also a pretty good value. There is a sketchy smell to the capsules, which isn't really an issue considering i'm not going to be sniffing them. The instructions are clear and son't leave anything out. Overall, this is a great choice of you want a lions mane supplement.

**Smart shrooms**

April 27, 2019

**Verified Purchase**

I am always trying different things to naturally enhance my family's immune system. I just recently read about the benefits of these "smart shrooms" and my friend highly recommend trying it. I was very happy to find out that they make this product using organic mushrooms.

**Overall, fine, but have some concerns...**

May 5, 2019

**Verified Purchase**

Alright, so lion's mane itself is great. Love it. This review is about this product in particular though. The first and most important thing I probably have to say is, this formulation contains 10mg of BioPerine at the recommended serving, which is a potent bioavailability increaser. This obviously helps you get more out of the lion's mane - but if you're taking any medications, you could potentially be giving yourself an effectively higher dose than intended. There's a couple reviews on here that say this has helped with their ADHD and anxiety - but this could be because it's increased the availability of their medication. In those instances for them, it's a positive effect, but in the case of blood pressure medications or sedatives, you

could get into some nasty side effects. There's some vague fine print warning about this on the bottle, but it really should be emphasized more: if you're taking any medication, you need to check with your doctor before using this. I would say this cost 1.5 stars off my review.

Some other things of note, they claim this is both organic, whole fruiting bodies, and third-party tested - I'm awaiting an email back to see the results of the third-party testing and who certifies them as organic,

Calming effects

I have an auto immune disease and decided to try lions mane to boost my immune system. I haven't taken it long enough to know the effects, but I am definitely calmer and more relaxed. Capsules do not upset my stomach.
