jhale0622 Let me tell you a few reason why I LOVE my Thrive business... The obvious reason...the products are bomb. 💣

But, I also love it because I can work it from anywhere, at any time...on my phone...on my own schedule.

When I was at Mardi Gras in New Orleans, I was communicating with people about Thrive.

When I was in a cabin with my girlfriends this weekend, I wanted to be intentional with my time with them, so I told people I would contact them when I got back home.

Staying disciplined with your business

Staying disciplined with your business is a necessity for success, but, choosing when or how to work it is up to you.

So...when you are ready to jump in, here's what's on the table for you... - weekly commission (every Tuesday) - \$800 bonus and \$200 in product credit in your first 14 days - \$399 Ipad bonus in your first 30 days - FREE product credit every month - automobile bonus at the second rank of the company - three lifestyle getaways per year - an upline team who will pour into you and support you, daily - training from the best upline in the business (our team leader just hit one million dollars in commissions in only 2 1/2 years)
