# Thrive Testimonials

October 1, 2013 at 3:34pm 🌐

Merrick M. -

I have been on blood pressure meds as long as I can remember. I stopped taking them over a month ago because he I've been on Thrive. Friday I went for a DOT physical and my blood pressure was 124/80!!!! This is a blessing to say the least!

Tiffany L.

This is my story THRIVIN with Le-Vel! My Anxiety, it's well gone! My daily migraines, yes um GoNE too! O and I'm down 40 lbs in 15 weeks!:) I have been deaf for 24 years in one ear, and magically I can hear, after 24 years! Win or Not, I have already won!:) thanks for my life back Le-Vel!

Michelle G. -

This is my story THRIVIN with Le-vel. I have had migraines 2-4 times a week and chronic daily headaches for over 20 years. UNTIL JULY 18, 2013, which was the first day I put THRIVE BY LE-VEL in my mouth! When I took this product, I knew the first day that this was the answer to my prayers. After living for 20+ years with a pain level of 10-12 every day and going to a pain level of 1-2 on the first day, I knew I had to make Thrive part of my daily lifestyle and something that I would tell everyone about. And I am down 10 pounds and minus 15 inches in 4 weeks, which is a bonus! Thrive'n in BAMA!!

WgW Ashley -

This is My Story THRIVIN' with Le-Vel. I had incredible back pain from two bulging disc in my lower back. Knee pain from something I did when I was a teenager and pain in my hands from Raynaud's phenomenon (which is VERY VERY painful). I also have bi-polar disorder and suffered from a DEEP DEEP depression, no energy... I didn't even want to leave the house! With two kids this isn't possible.

I started taking Thrive on June 14th. I am now depression free; Have tons of energy to keep up with my 3 and 5 year old girls. I have very little to no pain. It has helped with my mood swings and I have lost 13 lbs!!!! It has also helped with my smoking and cutting out soda!!

MOST OF ALL THRIVE HAS HELPED ME WANT TO BE A MOTHER TO MY BABIES!!!!

Becky C. R. -

This is my story , I've been very blessed with having thrived by le-vel . Before starting thrive I had back surgery that left me in pain in my hips and back, 3 years later I had a broken knee that had to be constructed due to a bad break. I already had bad arthritis in my back and now my knee. I had been getting shots in my knees. I high cholestrol and COPD and was pre-diabetic.I couldn't even walk around a block because I hurt so bad. My daily routine was getting my kids off to school and eat breakfast and go back to bed. I seen thrive helping people with weight loss and people all over blood levels getting better so I thought I would give it a try. Well after I started thrive I noticed a huge difference and I started walking and walking without back, hip or knee pain. I went to the doctor and pleaded with him to take me off my medicine for a few months and I promised him if my levels wasn't even better I would never complaining about taking medicine ever again. a week later had blood work and holy molly all my blood work was normal. No more cholestrol ,or arthritis meds for me , pre diabilities were gone. Last week went to the lung specialist and done my yearly breathing test and I was so nervous about going and learned the next day the COPD is improving . Just 2 years ago they found a place on my lung a nodule and its gone too. So yes THRIVE is my story ever day. I'm off a lot of my medicine and when I get up in the mornings I'm not back in bed any more like I use to be, I'm out going for a walk instead. Thank you Le-vel for giving me another chance to live again and being free... I love my life and thrive is my story.

=====

Davinna R -

This is my story THRIVIN' with LeVel. We moved into our house almost 17 months ago and as we were moving in, I took a nasty spill in the garage and tore my left ACL. Add that to an automobile accident 7 years ago this week and I got LOTS of back and knee pain. My house has a split foyer floor plan and so, this made getting about my house a little difficult to say the least. Today, not only am I walking up and down my stairs but I am practically running up and down them with so much more energy and so MUCH LESS pain.

I just have to throw this one out there. When we signed my hubby up on Vicky Suddeth's website, I have to admit...I was intimidated by the cost of Thrive but thought, "Well, maybe we can make enough to cover the cost of our Thrive each month." LOL! I'll put it this way, we have been pleasantly surprised...we are doing that and so much more! It is AWESOME!!! This really has been an answer to prayer for me! I just want to share it with everyone that I can.

=====

Malea F. -

This is MY Story THRIVIN' with Le-Vel. I had a severe migraine for 5 days. I had taken 15 Excedrin within 2 days, and finally resorted to a Lortab 5...nothing...no relief. On Sunday, I got up to get ready for church, determined I could make it through the pain...but, I couldn't, so I took a Lortab 10 and spent the rest of my day in a nauseous miserable funk. (Those who know me, know I HATE pain pills, so I must have been in indescribable pain!) Monday morning rolled around and I got up to start my day, with my head still about to split wide open. Sitting at the computer, I heard a knock on my door. Praise God, it was UPS with my Thrive delivery!! I took my two capsules, did my morning shake, and put on the DFT Foam patch. Literally, within 10 minutes, my 5 day migraine was GONE! GONE! And, it AIN'T been back, Jack!! ;o) I'll be THRIVIN' for LIFE!!

=====

Maria V.

This is my story THRIVIN with Le-Vel! I have NOT yawned during the daytime since I started the Thrive experience. The pills, shake and DFT patch gives me tremendous energy at work that allows me to handle even the most challenging students and colleagues. On my second day on Thrive, I remember texting my sponsor, Regina S.that I felt like having wheels on my

feet as I go about walking from one end of the building to the other. I lost 7.5 lbs in 12 days and my shoulder and plantar fasciitis pain were gone in 4-5 days. Best of all, it targeted my belly fat and bloating that I thought will forever be part of me. My digestion and skin continues to improve as well. Thrive has controlled my hormonal cystic acne from flaring up in the last 10 days. In just two weeks, Thrive has already revolutionized my body and my Life. I'm really excited with what the future holds for me and for all the people that will get to experience Thrive.

=====

Amanda G.

This is my story THRIVIN' with LeVel. I have Fibromyalgia, migraines, and chronic fatigue. I have been one Thrive vitamins and shake for 2 weeks. Since week 1, I have been off all fibro meds, pain meds, antiinflammatories, and have not had to drink ANY caffeine drinks or 5 hour energy shots. I have insane amounts of energy and the best part.....my kids have their mother back! I can finally play with them again! Thrive truely has changed my life. The pain is finally GONE!!!!

=====

Susan -

This is AWESOME! I was in a run for charity two weekends ago and I had decided to pass out brochures and d.f.t to my girlfriends one morning before a weekly early am jog. I told them this would help them before the run coming up. Not only did I sell three day samples but I've now got 13 personals enrolled for free and starting their own thrive experience locally. Runners...this is the perfect product line for athletes.

Le-Vel, thank you for giving us a risk free opportunity to give friends a legitimate business for free and all the money goes towards the purchase of the product! Finally a company that has done it right!

=====

FitStyle -

This is My Story THRIVIN' with Le-Vel!! I'm a fitness coach/consultant and have been invited to promote many supplements on the market. A great friend asked me to sit in on a party that blew my mind with possibilities. My education in biological studies would not allow me to go further without studying all the ingredients and the technology behind Thrive.....and I was glad to see it just made sense and I knew this would be an awesome experience. I'm extremely active and don't desire weight loss at this time in my life. After stretching my samples to 5 days, I was stunned that I lost 3lbs of body fat and increased my lean muscle density!!!! Just goes to show there is something in this for everyone.....THRIVE-on people

=====

Katie -

I am a sophmore at UCLA and was encouraged to buy a thrive d.f.t foam from my friend last week for \$5. I knew nothng about Le-Vel but listened in on a call two days after I had been using the d.f.t.

I think this is going to sweep all over campus because us college kids will spend money on d.f.t everyday because it works so much better than coffee and I feel it all day without getting tired during my classes.

In less than 7 days I have nine friends buying d.f.t from my enroller and it has been awesome for the ability to focus on my studies. Also, in one week my bathing suit is loose. Sweet! I just

started two days ago my brand promoting efforts. I think I'll have 18 friends personally enrolled and ordering this weekend! Pumped!

=====  
Beth G.

This is my story THRIVIN' with Le-Vel. I have gained back my life with my kids, my self confidence and my marriage. I have gone from a size 24 to size 18, I go and do again not jsut sit around at night. The people I work with say my attitude and outlook has completely changed. I don't dred the mornings anymore, I love getting up getting the girls out the door and then I actually take time for myself. I have worn makeup more since I started taking Thrive in April then I have in my whole life. I feel pretty, oh so pretty!!!!

=====  
Amy L. -

This is MY story THRIVIN' with Le-Vel.... Got my life back Jack!!!! I am happy... OFF depression med! I am rested.... NO more pacing the house ALL night! I CAN focus and multi-task again.... No more unorganized wasted time during the day! No more constant headaches! No more achy joints! Steady ALL day energy! Decreased appetite and cravings! BEST part of ALL is that my family benefits the MOST ....because I have been given a new lease on life!!!! My cup runneth over:)))

=====  
Dove -

I joined Le-Vel because of Paul Gravette and the future of DFT. but..... I began seeing all the activity on The LV Life fanage, the real people commenting and decided I to start my THRIVE EXPERIENCE.

Quick history. I was involved in two car wrecks and actually my body was hit by one of the cars so let me say to eveyone reading this, my body has experienced ongoing pain for the last ten years.

I received my THRIVE Promoter Pack and the UPS delivery guy didn't even make it to my door, yes, a little excited! :) I took two pills at 2 pm and followed with the shake. I had to do a demo at 3 pm. Standing in place for 3 hours, my back hardly bothered me like it normally does....I had to really think about it to notice any pain. THIS IS INCREDIBLE for me.

Oh, and yes, I told the UPS guy about it! :) Also, my mom and myself both went 4K VIP our first month!

Looking forward to my THRIVIN' future!

=====  
Jamie H. -

This is my story THRIVIN' with Le-vel. I am a nursing student, wife, mother, and Medical Assistant; but not necessarily in that order. To say I'm stretched thin is an understatement. Thrive has given me the energy and focus to make through endless lectures and reading assignments, class work, studying. I'm sleeping better and my grades have improved! I have the energy to cook dinner for my family again after a long day, and even manage to exercise after cooking, cleaning, helping kids with homework, and numerous practices and lessons! My husband has a wife again, my kids have a mom again, and my patients are going to have a great nurse; as I'm no longer just surviving, I'm Thriving!

=====

Brad -

I was introduced to this company from a friend here in Miami. He's a popular dj in the clubs and he showed me the d.f.t. and told me to buy one of them instead of buying drinks. Straight up, this product is off the charts! My mom has had amazing results and started selling the d.f.t. for \$5 each attached to the thrive experience brochures at her hair salon. I have already gone 4K VIP in my first two weeks!

Miami says it best, "We're takin' Over!" My goal is to make \$1,000.00 per week by October and up from there!

=====

Ann -

I've been a fitness instructor for over ten years and I've honestly never seen any products help my clients with soreness as well as Le-Vel's THRIVE. We now have 50 plus clients "thrivin'" and the word is spreading fast in Phoenix.

We recently started selling the new D.F.T. ( Derma Fusion Technology) and it's another resurgence of orders from existing and most importantly new customers.

We've now spread into six other gyms and the sales are coming in daily! Team Az. is on a mission to help all our clients get their product for FREE by showing them your incredible, "REFER 2 Customers And Yours Is FREE!" Last, we're pumped on hitting 200K VIP with DFT!

=====

Amanda F. -

This is my story THRIVIN' with Le-Vel! I was told about it by Valerie M. I will be honest I have tried EVERYTHING to help with the medical problems, I have diabetes and high blood pressure. Since starting THRIVE I have lost 2 pants sizes, have come off of my bp meds and almost off of my diabetes medicine! I feel better and no longer hurt from a previous injury to my knees! I can't go a day without my THRIVE!! I am so glad that I feel better and I am getting in better shape so I can be around for my three boys for a while. THANK YOOO THRIVE!!!!

=====

Jodi -

This is my thrivin story with le-vel

I have been suffering from multiple autoimmune health problems for the last 18+ years and in recent years they have become debilitating as well as we are running out of medication options that have not caused other health problems for me. I just want to NOT hurt, have energy to keep up with my three busy kids, sleep better and mostly try to get off of some of my many meds i have to take daily to FEEL human.

When My thrive consultant told me a little about thrive it was supposed to do all those things I wanted and very much needed so why not try it!? I can tell you with only a four day sample I can joyfully tell you that I have NOT had to take TWO of my daily meds nor does my body feel like I need them! Biggest plus! I can tell water weight retention is less, energy doubled, sleeping great, and finally my mental attitude has been relieved to the point my "prescription med" for this has lessened as well.

I would NEVER do anything that would jeopardize my health by not taking my daily medications because of how far I have come healthwise, but i will tell you that this product i

have only taken for very little time has made a difference in my life and the way I feel! I was a skeptic but now a believer!! I have tried it all and am blessed to find a natural non harming product that works!!!

=====

Joann -

I have been dealing with depression the last 24 months and also have gained a lot of weight which has not helped my confidence. My girlfriend, kept telling me how many hair salons were going crazy over the results everyone was getting, so I decided to order a Promoter Pack and sample to my clients.

Well, what I didn't realize is what was about to happen to me! My le-vel order came in and I was told that if I didn't take it the right way, I would not experience the results. Sure enough, I took my capsules after lunch and did not take the shake mix and I complained didn't see the first day results. My second day, my sponsor told me to take the 2 capsules and place by my bedside with a glass of water and as soon as I woke to take both capsules before I even got out of bed and follow up with the shake mix 30 minutes after. Pretty amazing what has happened in my first 8 days of following the exact directions.

My pain in my hands from cutting hair for 20 plus years I no longer feel! My focus and mood levels make me feel like I did 20 years ago. And, I decided to up my daily regimine to 2 capsules and 2 shakes daily and already down two pant sizes!

My upline had a party and I took two other girlfriends because they had heard some other hairstylists they knew were talking about Le-Vel and it lit a fire in me and my girlfriends. We knew everyone in the room. Now I get why I was told to enroll everyone I knew for free locally. I MISSED GETTING THEM SELLING FOR ME! But, it's a motivator to go 200K VIP and hit by December.

Thank you Le-Vel for the free opportunity to promote two products that have my life thriving like I felt in my 20's!

=====

Kathy M. -

This is my story. I have my thrive on. I am 61 years old. I have been fighting through 35 years of coaching with Fibromyalgia. 7 children, 11 grandchildren and not able to go on with life as I know it. I am now able to make it through the day without much pain. Go see vb games, all star games. Travel to see kids and work with USA volleyball and coach part time. I NEVER thought I could do any of this again. Yes I do fight off bad things happening to my body. But now I have hope. And I'm going off medicines with side effects that were killing me. I am getting my life back. And getting to spend more time with grandchildren and my children. Thank you. 2 capsules in a.m. 1 shake. And them my DFT. life is good.

=====

Davinna -

It sounds like I am whining but I'm really just trying to give you a little background on what I have been dealing with for 6 years...daily pain. And of course, when you hurt, it's really hard to make yourself get the exercise that you know that you need so, I have put on some more weight too. I said all of that to tell you this.....

My husband enrolled as a FREE Le-Vel promoter. We finally ordered a couples pack ( 2 /

\$100.00 THRIVE EXPERIENCE packs both for he and myself last weekend.)

When my daughter was 3 years old (she is 9 now), I was involved in a pretty nasty accident on I-20 in Atlanta and was rear-ended by a commercial weight pickup truck and 3 18 wheelers. Since then, I have dealt with a lot of back pain on a daily basis. Last year, I tore my ACL in my right knee.

When I took the samples for a couple of days a few weeks ago, I noticed a significant decrease in my pain levels. I was immediately intrigued and began looking at the fanpage and Le-Vel's company growth.

I had 1 my THRIVE EXPERIENCE yesterday, at 8 am and as instructed, on an empty stomach both the capsules and shake mix. I was on the go all day long yesterday (even went grocery shopping and to my Mother In Law's house which involved going up and down stairs numerous times) and it was amazing!! I had no back or knee pain all day long (even when I came back home and had to come in through my garage in the basement and had to go upstairs 1 full story) and I noticed that although my feet tend to swell alot (my doctor says that is a side effect of being as overweight as I am), they were not swollen at all when I came back home last night (after 10 PM) and I still felt great and had lots of energy.

I can't wait to help other women with Le-Vel's THRIVE EXPERIENCE! I have several friends who already started their thrive experience I know for a few weeks now and they are even losing weight, which is also incredible considering this is not focused on w/l.

ATL....Georgia....this is REAL!

=====

Ron -

I have never experienced anything that has made me feel this great. My knee and back pain was gone after 8 days of taking 2 capsules and 1 shake mix every morning. Additionally, in my first month, I went from a size 40 to a size 36 waist line and I'm never tired in the afternoons. ( I did increase to two shakes a day and I've also noticed my mood levels are balanced all day which is pretty amazing.)

I was told by my Le-Vel sales consultant that the thrive would not work if I did not take the capsules and shake within 20 minutes of each other and I had to take them in the morning and absolutely no food for at least an hour of taking. Well, let me tell you, I tried doing it my way and it did not work. If you are a new customer of Le-Vel, if you committ for 8 days straight and follow exactly how to take the thrive experience, you will want to tell everyone you know about this.

In closing, after being skeptical and only a customer for my first month, I actually missed enrolling our local football coach and my close friend because someone else we both know told him about Le-Vel. This was all the motivation needed hit 12K VIP and I now and taking over our town!

Get everyone you know following the directions and don't ever sit back and not enroll your friends for free the day you hear about this. My lesson learned.

=====

Karina S. -

This is my story THRIVIN' with Le-Vel... I have been suffering from Fibromyalgia including chronic pain & stiffness in my muscles and joints, chronic fatigue and brain fog (among many other symptoms) on a daily basis for the last 2 1/2 years. The hardest thing for me was coming to terms with the fact that I had to limit my participation in life; I struggled to accept that my capabilities as a wife, mother, family member and friend had to change. Then my friend Marianne S. gave me samples of Thrive W and Thrive Premium Lifestyle Shake. From day one my life changed; I noticed my pain & fatigue decreased tremendously, I had great energy and was more focused! Since then I have not had to crawl up and down the stairs, I've been able to play with my daughter for more than a few minutes- even taking her to the

park and the fair. Everything Fibromyalgia had taken away from me the Thrive Premium Lifestyle gave back. Now I can truly LIVE and actively participate in my life again! I can't express the amount of gratitude I have for this company, the products and for my friend Marianne for sharing this with me; it is because of them I'm THRIVN'!

=====  
Bridget -

My mom started selling the THRIVE EXPERIENCE by Le-Vel and she would not leave me alone about starting my own experience.

I thought it wasn't going to work, but I started two capsules and the shake mix every morning anyway.

Throughout that day I noticed I had no knee pain, back pain, or shoulder and wrist pain. I also noticed I have more energy and I feel great.

I have been taking Thrive for 8+ weeks and have already lost 25lbs and 4 1/2 inches off my waist! My hair has grown 3 inches which is awesome because hair only grows 1/2 a month on average. My nails are also growing and I feel amazing.

I also had a problem with a fast pulse at 100-132 and the THRIVE EXPERIENCE has helped lower it to just 80. I no longer need my anxiety medications either.

Lovin' Le-Vel!

=====  
April -

I have lost 43 pounds as of today! Please SHARE my story with your friends! I can't wait for D.F.T.! Here it is below.....

BEFORE and AFTER Picture REVEAL, here's my updates!

- \* I hit my 800VIP status!
- \* I earned my 4k in sales my first 3 weeks with Le-Vel!
- \* I won a mini Ipad!

Now, my GOAL is to reveal my FAT Picture, most of you have not seen me fat because I closed down my facebook page, avoided my friends, stopped going out, and now that I have lost 43 pounds as of today, and feel better than I ever have in my life. The people that are the closest to me know that I was suffering from Depression -Post partum and that I was also going through a tough time when my Fiancé went over seas to play ball for 8 months.

I went from being 135 with curves to 180 PLUS with big curves! I began eating to cope with my depression and became 180 plus pounds (i stopped weighing myself at xmas when I reached 184 pounds.

My neighbor got me to take the THRIVE EXPERIENCE and it literally cured my depression, gave me steady energy, took away my chronic back pain, and made me feel alive AGAIN!

I have 3 heart defects and need my valves replaced and this medicine has stopped my angina and my arrhythmias! I can not go running, exercise, walk my kids, and this medicine also helped me with my ADD. I can not take stimulants, this is 100% all natural!!!!

My KIDS are happier, my clothes are happier (no more squeezing into clothes) my BODY is healthier than ever! I am not going to stop THRIVING and i am not going to STOP until you

are ALL THRIVING!

Le-Vel is going to be huge and I am going to be at the top doing something that I love  
HELPING OTHERS

=====  
Clay J. - Ohio

I am a martial arts trainer and gym owner. Through my career I've developed a lot of body pain and can honestly say I have never experienced anything like this Le-Vel THRIVE experience. My body seems to be healing itself and 90% of my past pains in my knees and neck have gone away. Last, I am 100% more mentally alert on these two products and no muscular soreness.

Our gym is running a promotion that whomever has the most free enrollments by the end of the month wins 6 months paid! I think we'll hit 800 new promoters just from this free enrollment promotion alone!

Le-Vel Rocks!

=====  
Beverly B. -

This is my story Thriving with le-Vel. I had lived with horrible pain, fibromyalgia, degenerative disc disease, bulging disc and nerve damage for 15 yrs. The pain took my daughter's mother from her. I couldn't go to school functions without being uncomfortable. My daughter's sporting events were debilitating to my body. I couldn't get out of bed, would barely leave my house because I never had energy. A friend told me about Thrive. It saved me!! I'm able to take mile long walks with my daughter. Go to amusement parks and ride roller coasters!! Go to concerts. I've played tennis with my daughter for the first time ever (I used to play in school), I practice ball with her now. And to my daughter's surprise I can actually play. Losing weight, pain management, and the focus is all a Godsend. THRIVE gave Salem back her mom!! (-:

=====  
My pain from my carpal tunnel was gone in less than 4 weeks and I knew this was a million dollar opportunity for my future as a hair stylist. Ladies, you must get your stylist in this business! I cannot tell you how my world has changed. I own a hair salon and we have a very busy schedule daily and all the girls are starting to sell Le-Vel! Through sharing with all my clients the THRIVE brochure and three days of samples, I broke \$12,000.00 and now it's really starting to get exciting as we've got four more hair salons promoting THRIVE also!

Here's what really shocked me. I was told to enroll everyone I know for free coming in the salon for free and simply teach my other stylists to do the same. We began a weekly call to let others come on and share their testimonies. I've had 27 friends personally order and even better, everyone is getting results!

Thank you Elly for helping me see how simple it is to host a call and let other testimonies do the selling to my friends!

Carol T.  
Living A Lifestyle With Pain Free Hands - That I Deserve!

I was told to "trust" my friend when she encouraged me to become a promoter of Le-Vel by enrolling for free.

Keep in mind, I just recently resigned from a company that was "promoting" they were a company focused on changing lives with a "90 Day weight loss challenge". I can 100% guarantee everyone I am talking to that Le-Vel is going to become bigger than an 50 million dollar a month company.

Let me say, I have been shocked at what has happened to my body in less than ten days of starting my THRIVE 8 week experience. I have had pain in my lower back for the last 4 years and thought I would just have to live with it the rest of my life. Well, the pain is gone! Secondly, I have entered that phase of "womanhood" where we begin to go through changes, hot flashes, etc. Since I started taking 2 capsules and 1 shake every morning, I honestly feel like I did when I was in my 30's....I feel incredible within 20 minutes of getting out of bed! Third, simply from taking 2 capsules and 2 shakes daily, my tennis elbow pain had ceased! Oh, I've also lost 4 inches around my waist and I was never told it would help me lose weight initially!

What I tell all my girlfriends that are ordering is they must take the capsules and the shake mix as soon as they wake up and the rest will take care of itself! This is not only working but I was blessed to break 40K VIP in May! Thank the lord there is a company that I can truly say has reversed my body aging symptoms!

I love Le-Vel!

Rhonda A.  
A Happy Promoter

=====

I am brand new to Le-Vel & the THRIVE 8 WEEK EXPERIENCE. I wanted to let you know what it has done for me already!

I have Rheumatoid Arthritis and Epilepsy, and I am on multiple medications. In just the three days that I have started my 8 week THRIVE EXPERIENCE, the pain in my joints have decreased, I have energy, and I feel great!

I have not been able to exercise in almost two years due to the severe pain, adjustment of medications, and lack of energy. I feel like now there is a light at the end of the tunnel. I want to get back into Zumba ( my love) and I am actually looking at getting a gym membership! How awesome is that!

I can't wait to see how much more improvement I will experience!

Kelly B  
Thrive Customer and Promoter

=====

Angela's personal story:

I have lupus, but was in denial despite my doctor's report over 16 years ago. Some days I couldn't even write because my arms and hands hurt so much and I'm a teacher. I would get a student (they love to help) to write on the board for me-not kidding. There were even days, when I still had my manual Honda Accord, that my kids would have to shift the gears for me-because I had so much pain and fatigue in my hands. It was unreal, now that I look back on it. My general fatigue was so intense some days that I would have to take a short nap before I left work. I even fell asleep in my car a few times just needing to "rest for a minute" before I went inside, waking up an hour or two later.

I was told about Le-Vel and the 8 week THRIVE EXPERIENCE and this has been an incredible blessing. More than anything the decrease in my pain has been so life-changing. Also, the difference it's made in how I manage in my days has made me a believer...and I said to myself and friends, I couldn't "afford" Thrive in the beginning.

Once I did the math on ways I was saving with not having so many cravings, changed vitamins, cutting the pain meds, using it as my breakfast most days etc AND just the better quality of life in general I realized it was not the expense I expected and I CAN'T AFFORD

NOT to keep doing it!! Once folks sample it they'll see it for themselves!! This is not just for people having pain-it's just one of the benefits-that and the energy have been my biggest (not only) changes. I know fitness trainers with their workouts enhanced and noting the increased muscle tone. On that note-time to go exercise this body-be blessed!!

=====

Brenda J. -

I have been looking for a company like Le-Vel and the THRIVE experience for more than 20 years! In 1997 I was diagnosed with fibromyalgia after having battled muscular pain and exhaustion for several years. By 1997 I had given up running and my workouts at the gym due to the pain and exhaustion. The trips to the beach with my kids pretty much halted as did almost everything else, except work. It continues to impact every aspect of my life. On the really bad days, the exhaustion is overwhelming and I don't even get dressed. I spend the days and nights going from bed to sofa, then back to bed, trying to find a comfortable place to sleep. When I worked, I had no energy to do anything but go to work. I could work, or I could run errands, or clean house, or do laundry, or cook dinner...I just couldn't do more than one of those tasks in any one day. I finally had to choose if the money I earned was worth the life (or lack thereof) that I was living. I decided it wasn't, and I retired in February 2012 at 55 years old with 22 years on the job. In addition to the fibromyalgia, I have osteoarthritis in my neck, left shoulder and left hip, and I've endured surgery on my left shoulder twice to repair a torn rotator cuff. I am in some degree of pain every day. About a week ago I was able to try Thrive for the first time, thank you, Surena for sharing THRIVE with me!!

I know now that Le-Vel and THRIVE is gold and it must have been really hard to part with! I took my Thrive capsule when I got up and was waiting for something to happen! At first I was disappointed, I started thinking, nothing what a big hoax! - but then after 30-40 minutes I realized Thrive had gently started working it's magic! I had no pain! Then I realized I was smiling - for no reason- before 6:00 am! Throughout the day I found myself laughing for no reason, except that I was absolutely pain free! That day, thanks to Thrive, I remembered what it feels like to be happy and to be able to have a life without pain! I felt so good that I changed the ringtone on my cell phone to James Brown's "I feel Good"! I didn't want the day to end because I had only that one capsule, and I didn't want to wake up the next day feeling like I normally do.

Thrive is AMAZING! I now have hope that I can live an active and productive life! I received my own sample pack of Thrive yesterday, and I ordered the Founders Pack so I can share what I've experienced. Thrive will be a part of my everyday life. I am looking forward to having the energy to spend time with my grandson at the beach, hiking, and camping, and maybe I'll even run again! I am dreaming of living a Premium Lifestyle thanks to Thrive!

=====

Kristen S. -

My Thrivin with the Thrive product story... I spent the last 2 years with another wellness company and was beyond frustrated and very discouraged and I have to say a bit depressed. A friend shared the Thrive products with me and asked me to try it . I started the products the next day and sent a text about 45 minutes later asking if this was "legal" As I could not believe how I felt! I suffered a re-injury about 8 month's ago and ruptured a disc( which meant no running and no boot camp) and had been dealing with chronic pain for the last 8 month's, was on pain meds and going to physical therapy 2-3 times a week and yet NO relief! THEN came Thrive. I not only am pain free but I am back to working out, doing things I have not done in years, sleeping through the night and my spirits have lifted!!! made the decision to become a Brand promoter and have been sharing this amazing product with others now for the last 5 weeks. There is no better feeling than "feeling great" and being able

to help others do the same... All I can say is Thank you Thrive products, I have my life back, my health back and am on a mission to help others do the same!!!

=====

Amy L - Tx.

I just completed my 8 weeks Experience and it has changed my life!!!!

I went from being severely depressed, no energy, chronic headaches, hair falling out, chronic hand joint pain, insomnia, and just over not feeling good to feeling the best I have felt since college 20 years ago.

By the second week on Thrive my joint pain was gone, my head aches were much improved, I was sleeping all night, and I had so much energy I was even helping with yard work.

I have currently lost 15 pounds, down 2 sizes in clothes, my hair/nails are back to being healthy and growing, have tons of energy, and best of all I am HAPPY and feel like I am in control of my life again. Excited about the future and what Thrive is doing for me and my family.

=====

Susan G - AI.

I went from being a believe of THRIVE to now exploding free singups for [industryshift.com](http://industryshift.com)! This week alone we've added 362 ( and counting by the hour) new brand promoters!

20Lbs of FAT....gone in 3 weeks!

The elbow pain.....no more!

And.....I've made more in a month than my husband's job! LOL! ( He loves Le-Vel now!)

Thank you Le-Vel for the opportunity and the free product every month!

=====

Ann G. - Az.

I'm a fitness trainer and this is OFFICIAL!

My clients are having complete body transformations unlike anything I've ever suggested for supplementation.

Before I started, I shared the ingredients with our doctor and he stated it was an incredible formulation and this was going to help a lot of people.

Well, let me say....our town is thrivin' now! Thank you Paul and Le-Vel! The financial blessings we are experiencing is second to the blessing Le-Vel is providing everyone locally.

"We're Thrivin' And Livin' and Lifestyle We Deserve!"

=====

Erin W- Villa Rica, GA

I had heard about Thrive on Facebook from a friend. I was honestly just about tired of hearing about it and had told my friend that I was about ready to block this person.

**Then, she posted about how much money she made in one week.** I was ready, thinking about perusing a different job path, but had a few financial goals our family needed to meet before that was possible. I sent my friend a message, let me in I'm ready. What do I have to do? Not realizing THRIVE would actually help ME! I didn't realize how many aches and pains I lived with every day as a fitness instructor you kind of learn to work through the hurt. Well, now I feel great!! Nine weeks on Thrive and I have no knee pain, and down 7 pounds! I know

my muscles are leaner and meaner because of it!

=====

Paula P. - GA

I have lost 10 pounds already!

I am currently pursuing my Doctorate degree and have courses that require my full attention to complete. I could not stay awake to complete my tasks before THRIVE. I always fell asleep on the couch before 10:00. Now I can stay awake until 12:00 or later and wake up rested because I sleep soundly once I go to sleep.

I also have experienced relief of intense pain in my elbow which I broke last summer. The doctor told me just two months ago that it would just always hurt. But since taking THRIVE it has stopped hurting in the morning and is no longer going numb. No more hot flashes!! My digestive system is working better than ever!!

=====

This is my story thriving with Le-Vel. Dawn B. introduced me to Le-vel about 2months ago. It is amazing. I have no major health problems. Just the usual, lack of energy, needing to lose some weight, and migraines. The migraines had become so bad I was taking meds everyday. Now my migraines have gotten so much better. My energy is beyond belief. I used to get up in the morning and make myself go to work. We have our own business so you have to go monster what you feel like. Sometimes 7 days a week. I was so depressed it was all I could do to make myself get out of bed. I also am going thru menopause and had really bad night sweats. Now I have none. I love thrive!

=====

DEBBIE. - FI.

I haven't felt this good in 20 years! It has been a month since I started my THRIVE experience. My pain in my back and neck away are gone I have now lost 10 lbs and 4 inches. My appetite has decreased. I encourage anyone who is skeptical to take two capsules as soon as you wake up every morning ( before breakfast) and take 1 shake 30 minutes after you take your capsules. YOU WILL BE SOLD FOR LIFE!

=====

Elly - Co.

I have lost 32 pounds in 8 weeks! More importantly, my doctors are amazed because this works better for my pain than my prescriptions. I love Le-Vel for this incredible product line.

=====

Wilda W - Tx.

One more Thrive milestone. I have phased out two more pills from my daily routine. I have not taken Diovan(BP med) for over a week. Also I am now down from 4 per day on Robaxin to TWO per day. This has been the difficult one because I have taken it for so many years. I feel even better being off of these drugs.

=====

Felicia B. - GA

I was introduced to Thrive through Erin now promoter and my Zumba instructor. She knew

working out was vital to me and I've been in direct sales for 15 years so I knew it worked ( sales/ loving people) that is. She convinced me to take the THRIVE experience and her words were " come on girl!" lets do this thing together. Well here we are 6-7 weeks later. Knees are 80% better and I've reached my 4k VIP! Thanks for my health and my iPad!

=====  
Michelle T. - Flo.

I am so excited! I earned in my first month almost \$3,000.00!  
Thank you Le-Vel for giving us an opportunity to build a business that's build around teams enrolling for free!  
When I heard about Le-Vel and my friends testimony, I knew that two products would be so easy to sell to my contacts and boy is it working!

Last, I have to give a a big shout to Eddie for giving the best local parties you could ask for! I'm using my free iPad, picking out my new car with my \$800.00 allowance and focused on hitting 200K VIP in my goals by the end of August!  
Let's go Orlando!

=====  
Elizabeth W. -

I have now "EXPERIENCED" what it's like to THRIVE for 1 week.  
I have lost 6 ponds in the last 7 days!  
I Haven't slept this good in years!  
The pain in my neck and shoulder from my car accident 2 years ago is gone!  
I pray that all my friends and family will awaken to the blessings and riches that the Le-Vel company can bring to them!! GOD BLESS!!!!

=====  
John L. - California

I referred my grandmother and my mom as my 2 customers so I could get free thrive every month. This is a pretty cool company that lets you join for free and simply refer two customers and gets your for free every month with NO STRINGS ATTACHED! My story is simple. I tell my friends we pay \$600.00 in bonuses on \$800.00 in sales every week. Then I ask them if they know anyone that wants to sell a product that makes you feel incredible. I've never sold anything but we've got San Diego rocking and now growing all over the west coast! Thank Le-Vel for the iPad and awesome \$800.00 monthly car program! Everyone I know needs extra cash and we're stoked about the [industryshift.com](http://industryshift.com) momentum we've got blowing up! It's a perfect opp for the young broke crowd!

=====  
Michelle Y - Montana

Over the past few years I have struggled with pain in my legs and lower back, fatigue, slow steady weight gain, ridiculous snack cravings and unable to keep up with my family and extreme moodiness for not real reason.

I was reading a friends Facebook post about how much better she had been feeling and all the positive things she had to say! Shortly after another dear friend persuaded me to

promote this amazing product!!

THIS IS REAL!

=====

Sheila R. - Tx.

My neighbor convinced me I could make some money getting my friends to experience these \$100.00 THRIVE Packs. So, I bought \$800.00 and thought what the heck, I knew I had at least 6 friends that would spend \$100.00 and I'd have \$200.00 for myself and my husband.

That was 4 weeks ago. Here's my story:

- \* Dropped 6 lbs unwanted body fat in 10 days!
  - \* My chronic pain from multiple injuries.....GONE!
  - \* Sleeping soundly all night without Ambien for the first time in 3 years!
  - \* Gastroenterologist took me off of all meds yesterday!
- \* I invited 5 girlfriends over, told them my story & sold \$1,000.00 of product!
- \* We've enrolled 500+ friends and family as a team all over the US in one month!
- \* My paycheck as of Tuesday is around \$2,600.00 and I won an iPad!

I'm ready for my \$10,000.00 month by August and breaking \$80k VIP!

Are you kidding me!!!

=====

Angie. - California

I've been giving 2 capsules two all my clients as soon as they sit in the chair. As a hair stylist, we hair every complaint you can imagine. Well, let me say, our salon has taken complaints and turned them into profits!

My tip to anyone wanting to make money, as soon as anyone complains, say, "You need to experience THRIVE!"

Thank You Paul, Simon, and the cloud office for helping us make as much with Le-Vel as we do as hair stylists! We are pumped about our financial futures!

=====

Kirsten R. - Ohio

I am a fitness trainer and have seen every product on the retail shelves. Le-Vel's Lifestyle Capsule & Lifestyle Shake mix is EVERYTHING you need in one product! I feel focused, energetic, and no muscular soreness from my workouts! Not to mention I am not feeling famished

=====

Deanna - Tx.

I just started my third day on Thrive and I am soooo excited. My energy is out the roof and normally by this time of the year I am so exhausted. I went out to do a little yard work after school and ended up putting my whole flower garden in.

=====

Erica B. - GA

Since taking my THRIVE capsules every morning and shake mix, I have been able to stop taking diabetic meds. and all signs of diabetes are gone. It has also helped with my IBS. Now i get to enjoy meals with my family when we go out to eat.

=====  
**Eddie S. - Co.**

**I received my Le-Vel order and in my first 4 days I have been able to walk with no knee pain! Infact, 6 miles yesterday according to my Nike monitor! I'm sleeping great, keeping the office organized and calling every friend and family member I know and sharing my story! 27 personals now and counting! I can't wait to see how big our check is by the end of July! 200K...here we come!**

=====  
Carol W - GA

On April 10, 2009, I woke up and couldn't get out of bed for the pain. I was diagnosed with two bulging disc with a benign tumor between the disc, pressing on nerves in my lower back and Fibromyalgia.

I have been in constant pain ever since that day. I have been on Percocet, a very strong narcotic pain med since then, three to four times a day to just function. Without this pain med I cannot stay out of bed much less function. I am a former critical care/trauma nurse so this has been very difficult for me.

My daughter Kim called me wanting me to try Thrive. She knew what my response would be because I have seen so many fads come and go and many putting patients in my ICU. She encouraged me because of the testimonies coming in about it helping people's pain.

I agreed to try it, knowing the THRIVE products would not do harm. I took the first day's and felt more energetic. The second day I was still more energetic but at the end of the day realized I had NOT taken any pain med for over 18 hours. This had NEVER happened since 2009. If I did not take the Percocet at least every 6-8 hours I would get in intractable pain. I was amazed at this product. I shared with Kim immediately.

One Sunday I didn't have time to take the shake before church. By the afternoon I was in bed in intractable pain requiring 1 1/2 Percocet's to get the pain under control. Trust me I will NEVER forget to take my Thrive shake again. I cannot recommend this product enough. As a Registered Nurse to find a natural product that controls pain this much is incredible. We must get this product in the health care system.

=====  
Danielle B.

This is my Thrivin story.....my energy was 0, my pain was 100000, my thoughts were scattered and I never seem to accomplish anything. I've been thriving since April and well I have energy to work my long 12-14 hour shifts at night and make that loooong 60 mile trip home. Now i even have the energy to stop and Work out after my shifts. That's saying alot since most on the time my instructor is a beast! I have no neck,leg,back, or knee pain anymore. Stomach meds are gone and so are some pounds! whoop! Oh and the Clarity whoop! Thrive up throw down peeps! go be blessed!

=====  
Susan M - GA

My sweet daughter-in-law (Emily) convinced me to try Thrive. It took a few weeks to figure out the best way to take it with my current medications (the thyroid pill was the biggest challenge) but we have worked that out and I have now lost 18 lbs and have not deprived myself of anything I normally eat.

For those of you that know me you know I love to eat and not the healthiest foods either. My neck and back pain has decreased to the point that I rarely have to take an Advil which is remarkable since I was taking several every day prior to starting the Thrive. I would recommend Thrive to anyone with muscle/joint pain or even just wanting to lose lbs.

=====  
Kevin S -

I started the THRIVE Experience approx 8 weeks ago! I weighed 203 lbs and was in a size 34 pants. I now weighs 171,3 lbs and in a size 31. That's a amazing 31.7 lbs lost!!!!

=====  
Heather E. - Ga.

A friend of mine (Melissa) convinced me to experience THRIVE. I feel in love the first day and emailed and texted Melissa.

Let me tell you my story: Throughout life I have had pain and depression. My pain and depression had me in the bed 75% of the time. Back in October my Body just started hating me and I was in bed 99% except to fix dinner for my family. I was trying to get answers of what was wrong with me. I couldn't finish sentences and I was just a mental mess. I went to my general dr. She therefore sent me to a Neurologists and Rheumatologist. They ordered so many blood test and other test. I had a MRI done and EEG done with no results.

Several days later I was diagnosed with Fibromyalgia. Since I have been on Thrive I am off my pain meds which was 3 different pills. I have stopped some of my additional depression meds except to one. I went From 8 pills down 3 pills at night. I have so much energy now. I know now my bed was my prison. I am not 100% pain free but at least 80%. Put it this way it does not control me I control it. Oh by the way, I have lost around 15 pounds.

I did not set out to promote this, but this company is so great I can't help myself. I wish everybody felt the way I do on Thrive. I tell people it is possible they just need proof. Do it try a one day sample and you'll be hooked!

=====  
Steve W. - Ga.

I've been in heating and air for 30 years and developed arthritis in my hands and joint swelling in my feet from squatting down in front of hvac units. Within my first week of taking the Thrive Experience, I was completely pain free!! The second week I was running low on shake mix so I just took the capsules and the pain in my hands returned.

I'm starting taking the complete regimen of 2 capsules and shake and within ONE DAY am back to being pain free!!

2 Capsules and a shake in the morning and YOU ARE DONE FOR THE DAY!!

=====  
James, Tx.

I started the Thrive experience to see if I could loose some weight and relieve my hip pain so I could walk better.

By the end of my second week on Thrive my hip pain was greatly reduced and I had lost about 16 pounds.

Debra N. - Carrollton, GA

After years of suffering from Fibro and chronic back pain Emily Mashburn talked me into trying Thrive. Boy am I glad she did. After a few days of taking the pills and shake I was pain free for the first time in years. I could actually stand at the sink and wash dishes without having to take a break before I finished. I was also able to go shopping without having to take several sit down breaks. I recommend Thrive to anyone that has ever suffered from chronic pain of any kind. It truly works! I have also lose 15 lbs without even trying. That is a ad

=====

Lauri S. -

This is My Story THRIVIN' with Le-Vel. I am a 49yr old women who is raising 2 of my 4 granddaughters their ages are 4 and 8. I suffer from fatigue and degenerative disc disease. Waking up was a chore.and staying a wake was almost impossible. Since starting the Thrive Experience 8 days ago I'm able to wake up and stay up, clean, be engaged with my granddaughters and take care of my Life!! I started the DFT 4 days ago my gravings for sugar are almost gone and I have lost 1.5 pounds!! Thank you Le-Vel!!

Kim - GA

My energy level has gone up 100%, my eczema has almost completely gone and I feel wonderful!

=====

**Larry B - GA . I was having to take quite a few Motrin because of joint pain in fingers, playing guitar. Knee pain. Etc. I have lost 9 pounds. I told my wife last week " omgosh my hands don't hurt. The energy is wonderful. I have been posting on FB which IS NOT like me! :))**  
**We are thankful and THRIVING**

=====

Donna M. -

This is my Story THRIVIN' with Le-Vel. I was in a deep, dark tunnel with NO WAY OUT!! After being Married for 30 years, I suffered a DIVORCE, Scoliosis, Fibromyalgia,Arthritis, Degenerative Bone Disease, Arachonoiditis(which is a disabling and incurable disease)a torn Miniscus , 2 carpel Tunnels, a Nerve Disorder in the Left Arm, Insomnia and Depression. I have had multiple Surgeries(too many to list)Extremely high blood pressure(200/105)severe migraines and Dental Implants due to bone loss in my Mouth as well as my body. I was determined I was going to keep eating and enjoying my Food, lol! Now with my Dental Implants and my back full of Titanium, the problems remain!!!! I have tried it all: Therapy, Aquatic Therapy, Chiropractor, Tens Unit, Major Narcotic Drugs, Heat Treatments, Exercise, Yoga and Counseling! Finally, THRIVE FOUND ME!!!! OMG, I was like can it be real? Can it be true? Can it really work? Is it worth me spending the money that I DO NOT have and then IT does NOT work? These were just a sampling of the questions that ran through my mind endlessly day in and day out! I hit VIP800 in 2 days without having the Product and having NOTHING more than THE POWER OF FAITH! The one thing that No one could take away from me was my FAITH and my ability to BELIEVE that SOME THINGS DO HAPPEN for a reason!! Once I hit VIP800, I received my THRIVE CAPSULES and my SHAKE MIX and in less than 24 hours this CONCOCTION did more for me than any DRUG or THERAPY in the ENTIRE WORLD!!! YES AFTER only 24 HOURS I was feeling BETTER!! My Parents wanted to throw a Party because I got OUT of the BED for the first time since January. I finally made it to the RECLINER, a huge leap for me. Today I am THRIVIN' like CRAZY, I

can move, I can walk, I can actually do Aquatic Therapy without my Blood Pressure going through the ROOF, I can STAND on the ROOF TOP and SCREAM to the WORLD about THRIVE and DFT!!!! The best thing to hit this EARTH since Dinosaurs EXISTED!!!! I am BLESSED to HAVE THRIVE and DFT in my Life and to have changed my Life because otherwise I was NOT LIVING, I was simply Existing!!! Thank YOU Le-Vel, Paul Gravette, Simon, THRIVE and DFT for Blessing me with a CHANCE to Live and to ENJOY LIVING EVERY SINGLE DAY!!♥
