My Thrive Story

www.mjsurge.le-vel.com/experience

First, let me give you a little background story on my weight issues. After years of trying to get weight off and trying everything out there, from pills, diets, exercise and even getting my thyroid checked, nothing helped for 12 years! Today, I see HOPE!

My family has a history of Heart disease and Lung disease and I knew something needed to happen with my health, to get me on the right track! Losing my mom and my stepdad in 2014, set my mind on a new path....to change. Seeing my dad struggle with COPD, is heart breaking. Not only was it something my mom wanted for me in my life, but now I wanted it for myself.

When my co-worker, Janice Miller, kept talking to me about this product she was taking, I was very hesitant. I wanted to try something new, but my initial thought was, that it was too expensive. So I waited about 2 more months before I told her I wanted to try it. I did a 4 Day Trial pack, on December 5, 2014 and that's when I knew there was something different about this product, not like anything I had tried before.

Day 1. Immediately I felt a surge of energy. I took 2 pills before I got out of bed with H2O, then I drank my Shake Mix 20 minutes later. I put on the DFT and all of the sudden I found myself doing things I don't normally do in the morning. I started a load of clothes, washed the dishes, put makeup on, and was ready and out the door for work. My usual morning was not like this, too lazy to do laundry, to sleepy to do dishes in the morning, and not excited to do my makeup. On the way to work, my brain was awake, alert and I started noticing different things in the scenery that I had never seen before. As a Pharmacy Technician, you stand all day, and usually my feet hurt when I get home and if I sit down, they kill me when I stand back up and walk across the room. This didn't happen when I got home that night, and I thought....hmmm?

Day 2. Same routine in the morning, except I went ahead and weighed myself, lost 3 pounds. What!?

So I went through my morning, feeling great! Later that day I had so much energy, I cleaned the whole inside of my car, vacuumed, armor all, the works, and I cleaned up the yard outside; debris, putting things away that I never had energy or desire to do before. That night I slept great!

Day 3. My heel spur pain is gone! My psoriasis on my scalp is not itching! My bad hip is not hurting!

place and happy:

Day 4. I had to buy this product! Two weeks later, I had to sell this product!

Today I am proud to say I am a Promoter for Le-Vel! It has changed my life and all I want to do is share this with everyone I meet! I want to help others see that they can be healthy too! To date, I have lost 30 pounds, 7 inches off my waist, and 5 inches off my hips! I am now exercising and being more aware of what I eat. I do not have to use my inhaler now before I work out because I'm healthier and I love it!

This product is for everyone men and women! Every person I am closest to is now a customer or Promoter, my husband, daughter, mother-in-law, niece, co-workers and best friends. They saw a difference in me and not they are Thrivin'.

I still have a long way to go, but with God's help, I will continue to Thrive in His name!
