Feedback

KN95 Protective Face Mask With Valve for EZ Breathing reusable- USA Same day shipping**With EXPRESS 2-3 day shipping**

These KN95 face masks are ideal to protect your mouth and face from dust, haze, germs, allergens, smoke, pollution and more. Depending on your needs, it is the go.

- 100% Brand New and High Quality
- Premium KN95 Face Mask White With Valve
- Elastic straps and adjustable nose clip for different face shapes and sizes.
- Made of high quality material, safe, soft and comfortable.
- Protect you from airborne particulates and pollution.
- Suitable for: home use, industrial use, medical use, first aid, and outdoor activities, and other daily use
- Note: Comes individually packaged

The M-shaped nose clip can be adjusted to fit almost any size/shape face. This mask features a high elastic ear strap with enough elasticity to make a good seal from particles but is not too tight. This unique ventilation design features a one-way breathe easy valve which provides excellent exhalation airflow for smooth breathing.

What is a KN95 Mask?

KN95 is an industry standard and means that the mask provides the intended effectiveness of filtering 95 percent of particles with a mass median diameter of 0.3 micrometers. It can protect you well from PM10, PM2.5, and even smaller particles.

These KN95 masks are made of non-woven fabrics which provide protection and insulation as they act as a filter and bacterial barrier. Our masks are comfortable and non-irritating.

How to Use

- Wash your hands for at least 20 seconds before putting on or taking off a mask. Avoid touching the inside of the mask while wearing it to reduce the risk of infection.
- Clear the inside and outside of the mask, up and down; the KN95 mask has a printed side for the outside; metal strip / sponge strip end is the top of the mask; adjust the metal strip until snug.
- Put KN95 mask over your face and pull the straps over your ears.
- Adjust your mask to ensure that it is snug on your face.
