**mkjilld** Just some of the amazing parts of being a Mary Kay consultant during a pandemic:

❤️ We can do contactless delivery.

👉 We can have our children with us, and they can see how we serve others.

👉 We can provide for our families while social distancing.

👉 We can provide superior customer service with our unique technological practices.

👉 Most of all we can make it work on our schedule, and work as much or as little as we need to serve our customers and family.
