tessa.taylor.marykay Oh 2021 how you have inspired me so far.

Mary Kay Inc (@marykayus) started in 1963, and now it's in nearly 40 countries. Mary Kay has zero landfill site status at their Global Manufacturing Facility and has 1 million trees planted around the world. Mary Kay has more than \$80 million donated by the Mary Kay Foundation since 1996 to help end gender-based violence and cancers affecting women.

Why did I get started with Mary Kay and why do I stay?

I wanted something flexible & fun and where I can make my own

schedule for how much I want to do with it.

I am a born entrepreneur and marketer.

I earn 50% off all of my favorite products and earn 50% commission on everything that I "sell."

Mary Kay has an amazing mission and has amazing leaders. Even though Mary Kay Ash is no longer with us, her family (grandson) continues to run an amazing company he truly cares about.

I want that pink Cadillac 💕

I love having endless girl boss friends. 💕
