The Total Portfolio

The Total Portfolio is the "all-access pass" to Portfolio Solutions.

"I am very pleased with the Total Portfolio. Every time I look at the value of my new portfolio, it is up." — *Subscriber, Dave M.*

A Model Portfolio Based on ALL Our Best Ideas

CALL TODAY: Contact a Product Specialist to learn more.

(888) 863-9356

About *The Total Portfolio*

The **Total Portfolio** uses nearly all of our research to find our top ideas and then allocates accordingly. At this level, the Investment Committee along with Portfolio Manager Austin Root pull ideas from nearly twenty (20) of our different newsletters – which you'll get access to as a subscriber as well.

Then, they take what they consider are the very best ideas, and put them into a done-for-you model portfolio. If you're looking for something designed to offer you speculative upside… income… AND growth you should strongly consider this level. No more guessing about which stocks our gurus think are the best. They're right here in this model portfolio.

The *Total Portfolio* with around 40 different positions is designed to be a conservative portfolio that is *less* volatile than the S&P 500 but offers our readers a clear path to outperformance. Its goal is to help you make returns in a risk-averse way, using hedges and short positions to protect you on the downside… and smaller, faster-growing companies for the upside.

Think of this portfolio as a publisher's version of a hedge fund. If Porter Stansberry, Dr. Steve Sjuggerud and Dr. David Eifrig, Jr. were going to launch a hedge fund, this is the kind of portfolio they would build. It's designed to do what most investors believe can't be done: provide consistent, market-beating results with less volatility than the S&P 500.

If you're the type of person who likes options…but also likes to make life as simple and straightforward as possible… we'd recommend the Total Portfolio. To subscribe to all of these newsletters and trading services individually would cost close to $28,000. But, again, **Portfolio Solutions** readers receive access costs far less than even HALF of that.

These model portfolios are as close to "bulletproof" as we can make them. And during a bull market, it's critical to be fully invested in these ideas, for as long as possible.

With *Portfolio Solutions*, you'll finally have a foolproof plan to create an optimized portfolio for you and your family.

You can finally get organized and allocate your money properly.

And you can finally "get there" with your investments.

Anyone probably could have earned about 19% in an S&P 500 Index fund this year (including dividends).

But you won't earn that most years. Most years won't be anything like this one. Most eight-year stretches won't come close to delivering the returns we've enjoyed since the market bottomed in March 2009.

A reckoning is coming. It always does.

We don't know when… but the stock market has 10%, 20%, and 30% drops in its future. That's just what markets do.

As you can see, with *Portfolio Solutions*, you don't need to worry as much about what's coming.

We've got you covered.

Call the number above to get started.

"Portfolio Solutions has set me free. I'm now able to relax and enjoy life and I don't worry about finding the best investments – Stansberry does it for me."

— Jackson G.

"Portfolio Solutions is a game changer for me…I spent too much time reading research and not enough time living. Now I just follow Stansberry's updates and spend my time how I want to."

— Kirk S.

A Done-For-You Model Portfolio Based on ALL Our Best Ideas

The Total Portfolio is for the reader looking to make the ultimate commitment to their financial future. It's a hedged model portfolio consisting of around 40 recommendations that range from safe income plays to growth stocks, emerging markets, and speculative small cap commodity stocks. In this ready-to-go portfolio, you'll find mostly long stock positions, with a few short recommendations included to help protect you against a sudden downturn in the market.

In short, the Total Portfolio pulls the most promising recommendations from 12 of our most popular research services… and bundles everything together into a single fully-allocated model portfolio. We essentially remove all the guesswork, and save you hours of reading and decision making every month. We'll suggest specific allocations for each recommended company, down to the exact number of shares to buy per $100,000 invested.

✓ Plus, you'll receive **lifetime access** to all the underlying research.

As a new member, you'll receive a monthly briefing that includes a full model portfolio review plus any changes we recommend you make. You can simply hand this document to your broker or type in the stocks on your online brokerage account – it's simple! The Total Portfolio is designed by our investment committee:

- **Dr. Steve Sjuggerud**, a PhD in Finance who has worked as a stockbroker, vice president of a $50 million global mutual fund, and a hedge-fund manager.
- **Dr. David Eifrig**, a former Wall Street investment banker at Goldman Sachs, Chase Manhattan, and Yamaichi. Dr. Eifrig retired from Wall Street, received his medical degree from the University of North Carolina and is published in several medical journals.
- **Porter Stansberry**, the Founder of the world's largest and most successful financial research firm. Porter accurately predicted the collapse of Fannie Mae and Freddie Mac, which resulted in Barron's profiling him.
- **Austin Root**, a former Wall Street investment banker and hedge-fund veteran with more than 20 years of investment experience. Austin has worked for world-class investment firms including the Blackstone Group, Soros Fund Management, and SAC Capital Advisors, and he co-founded a hedge fund with a strategic investment from legendary investor Julian Robertson.

The Total Portfolio helps readers live a more comfortable and stress-free retirement. In less than a year, the Total Portfolio experienced returns such as:

- **89% gains** with the Chinese company The Economist is calling "social media's future."
- **76% gains** with the firm designing microchips for artificial intelligence, virtual reality, and cloud computing.
- **81% gains** with a company skyrocketing from the recovery of the housing market.
- As of Mid-December the Total Portfolio has 16 different open positions that have reached double-digit gains in less than a year.

It would normally cost nearly $45,000 for lifetime access to all of the research Total Portfolio subscribers receive. When you sign up, you'll receive:

✓ A 40+ position investment model portfolio

✓ Your monthly portfolio update from Porter Stansberry and the Investment Committee

✓ Access to our real-time data monitoring service, *Stansberry NewsWire*

✓ An online position-size calculator that shows you exactly how many shares to buy based on your account size

✓ A dedicated Stansberry Portfolio Solutions customer service team and help center

✓ Lifetime access to the following Stansberry publications (Total Lifetime Value: $45,000+)

- *True Wealth* (Lifetime Value: $1,000)
- *Retirement Millionaire* (Lifetime Value: $1,000)
- *Commodity Supercycles* (Lifetime Value: $1,000)
- *Stansberry's Investment Advisory* (Lifetime Value: $1,000)
- *Extreme Value* (Lifetime Value: $3,000)
- *Stansberry Gold & Silver Investor* (Lifetime Value: $3,000)

✓ Access to our two income-focused publications

- *Income Intelligence* (Lifetime Value: $3,000)
- *Stansberry's Credit Opportunities* (Lifetime Value: $6,000)

✓ Plus access to our five elite research services

- *Stansberry's Big Trade* (Lifetime Value: $6,000)
- *True Wealth Opportunities: China* (Lifetime Value: $3,000)
- *True Wealth Opportunities: Commodities* (Lifetime Value: $3,000)
- *Retirement Trader* (Lifetime Value: $6,000)
- *True Wealth Systems* (Lifetime Value: $6,000)
- *Cannabis Capitalist* (Lifetime Value: $5,000)

✓ ***The Stansberry Digest*** – Every weekday, the Stansberry Research editorial team writes up notes on interesting situations taking shape in the markets. This daily e-letter will keep you up-to-date on what's going on with the Stansberry Research family: what we got right… what we got wrong… what we've got planned… and more.

You'll also get immediate access to:

✓ **The Capital Portfolio**: The Capital Portfolio is designed for the busy, on-the-go reader who just wants to look at their portfolio once a month and get on with their life. These 20+ recommendations represent the super high-quality, capital-efficient companies you need to survive whatever the market throws at you.

✓ **The Income Portfolio**: The Income Portfolio is for folks who want access to a complete model portfolio but who also want to get some additional income each month. This portfolio was designed to help grow your retirement account, safely and effectively.
