About Retirement Trader

Before he came to Stansberry Research, Dr. Eifrig was part of an elite team of traders at Goldman Sachs where he created sophisticated investment vehicles for private clients and other traders at the firm. In *Retirement Trader*, Dr. Eifrig takes what he did for Goldman Sachs and, in plain English, shows readers unusual ways to make large, safe gains in the stock and options markets... whenever and wherever these opportunities arise.

The strategies Dr. Eifrig uses in *Retirement Trader* are so safe, he went more than three years without closing a single losing position in the advisory's model portfolio.

Twice a month in *Retirement Trader*, you'll have the opportunity to start safely doubling or tripling the gains you'd normally make in your retirement account, with much less risk. Once you see how simple this strategy is, you'll never look at stocks and options the same way again.

Portfolio Snapshot

Number of Positions

Approx. 15-20

What will we be buying?	Stocks with options
Do you put on short trades?	No
What's a typical holding period?	2 - 3 months

"I started following *Retirement Trader* just about a year ago. I have had 40+ straight winners, and NO losers."

— Mike M.
Subscriber of *Retirement Trader*

“

"Shhhh! Would you please pipe down about the put selling already!! We've got a good thing going here and if you let the buyers know then they'll become sellers, there won't be anyone left to bid up the premiums! Since November I've been selling puts weekly on... stocks. Every week is a winner! Thanks to Stansberry Research I'll be retiring in August at age 58."

— James J.

“

"I first came across [this] approach to selling puts about 18 months ago. As a long-term investor at heart, I have used this approach with trying to buy stocks I really want to own. Bottom line, I get paid to buy the stocks I want!"

— Bob C.
Subscriber of *Retirement Trader*
