

Advanced trading strategies to amplify returns from every corner of the market

True Wealth Systems is an advanced trading product that allows readers access to strategies they would normally never hear about. Most of the trades are executed with easy-to-buy ETFs that often use leverage to amplify returns.

About *True Wealth Systems*

True Wealth Systems is the culmination of everything Dr. Steve Sjoggerud has learned about investing over the past two decades.

His strategies take advantage of investments from every corner of the market – over 40 different sectors – so you will always have the opportunity to make money somewhere.

In fact, this service has been described by one industry analyst as the single most comprehensive advisory letter in the business.

Dr. Sjoggerud spent an incredible amount of time and money devising and testing *True Wealth Systems*. He hired an incredible team – two PhDs, an actuarial scientist, and 15 computer programmers – to develop his own proprietary software. Now, Dr. Sjoggerud can sift through mountains of data and find safe, simple trading strategies that beat “buy and hold.”

As Dr. Sjoggerud himself says, “We do whatever our systems show us... whatever has proven to make big profits – over decades and across all market environments. We don't care if it's digging deep to find market anomalies... or simply riding a trend in plain sight. In *True Wealth Systems*, if it works, we're interested.”

Tested over decades, *True Wealth Systems* has proven to return as much as 60% annualized when you're “in the trade.” And you don't have to take big risks to make this kind of return...

On the first Thursday of each month, Dr. Sjoggerud and his research team will show you that you don't have to take big risks to make big returns.

About The Editor

Dr. Steve Sjoggerud is the editor of *True Wealth*, an investment advisory specializing in safe, alternative investments overlooked by Wall Street. It's based on the simple idea that you don't have to take big risks to make big returns.

Since Steve joined Stansberry Research in 2001, he has found super-safe, profitable investment ideas for his subscribers that the average investor simply never hears about... until the big gains have already been made.

Over the years, for example, *True Wealth* readers had the opportunity to make outstanding gains in Icelandic bonds (32%)... timber (64% and 27%)... and housing (103% and 95%), to name a few. Steve also recommended buying gold back in 2002 – when it was trading for around \$320 an ounce – a call that led subscribers who took advantage to gains of 273%, 206%, and 182% in collectible gold coins, and 118% on shares of Seabridge Gold.

Steve is also the editor of *True Wealth Systems*, which uses powerful computer software – similar to the kind found at hedge funds and Wall Street banks – to pinpoint the sectors most likely to return 100% or more. One major newsletter industry insider called *True Wealth Systems* “the most in-depth research service ever developed.”

And in 2016, Steve launched *True Wealth China Opportunities*. In this monthly service, Steve explores the huge opportunity he sees building in Chinese stocks. Many of the best, most innovative companies there – in technology, real estate, banking, and more – will see their share prices rise by triple-digit percentages (or more).

Throughout his career, Steve has addressed hundreds of financial conferences in the U.S. and around the world, including at the New York Stock Exchange. He holds a doctorate in finance and has worked as a stockbroker, vice president of a \$50 million global mutual fund, and a hedge-fund manager.

Portfolio Snapshot

Number of Positions

Approx. 20

Safety

Moderate

*Number of positions, safety, and returns may vary. These are estimates based upon our track record and historical data.
