“

Ever since we added the Aihu Products to our Clinic, we have had wonderful results reported by our patients. The products are effective, safe, and affordable! Aihu products have a calming effect and the most common ailments we encounter as Naturopathic Doctors are related to stress. We personally use the products and recommend them to everyone.

“

We have found the Aihu Deodorant to be the only natural deodorant that works. We love it and highly recommend it to everyone.

Lori Santel, MS, RN, CRRN, Manager

everyone.

I love the Aihu Cleaning products! I use them in my cleaning business and the customers love how fresh and clean their house smells when I have finished cleaning their home. And I am not exposed to harsh chemicals in my job anymore. My favorite product of all time? The All Surface Cleaner!"

Yvonne Jenny

Aihu Consultant Shakopee, MN

Because of the hidden toxicities found in many chemicals in daily use products, my husband and I have chosen to use the Aihu Products for all of our everyday use. We very much appreciate having this product in our lives.

Dr. Steve Lamer: D.C.D.O.

Board Certified Family & Emergency Physician Emergency Department, Allen Hospital, Waterloo, IA

We use the Aihu Anti- Stress Products in our Dental Office to help reduce anxiety for our patients. They create a nice calming atmosphere for our patients and our patients really like this special treatment.

Mercy Women's Center, Mercy Hospital, Cedar Rapids, IA

We have continued to order the "Inspire" Aihu Deodorant for our patients. As you know our patients were complaining about the non-metallic deodorant that we were giving them to use during their radiation treatments. So we trialed the Aihu Deodorant "Inspire". We got good feedback from patients and have been using it ever since. We haven't had any complaints about it not working well especially during the summer months. The cost is comparable to the non-metallic so it was a win-win for us.

Anonymous

As far as the Aihu Products helping me through my cancer, that's an understatement. They helped me keep going! The Therapeutic Massage Gel helped me with: nausea, fatigue, sore muscles and headaches. The Aromatherapy Spa Wrap helped me with muscle fatigue, aches, headaches and chills. The Therapeutic Bath Salts helped with aches and pains especially the bone aches from Neulasta Shots, stuffy nose and chills. The Hot Oil Spa Soaks helped me with keeping my skin and me hydrated and smooth. The Body Butter helped me with radiation burns and scarring. The Therapeutic Lip Balm helped me with cracked lips and fingers, peppermint pick me up and nausea. The Natural Deodorant really helped me since radiation patients can't use regular deodorant as it can interact with the treatment and burn the skin.
