

BEpic Pills Vs Depression

The combination of two dietary supplements – [Elev8](#) and [Acceler8](#) – help fight depression. This “trio” has antidepressant properties. Experience has shown that people who take B-Epic pills have a chance to relieve most of the symptoms of depression after a while.

Let’s consider it in more detail.

Symptoms of Depression

Manifestations of depression can be different, for some they are less noticeable, for someone with more obvious symptoms. In a state of depression, the patient is aggravated by anxiety, apathy, permanent fatigue, unwillingness to do anything and communicate with other people. Things that used to interest and arouse joy become indifferent. The functions of memory and attention are disturbed, the patient’s behavior is changing. Often during depression, drug or alcohol addictions occur. The patient has a fixation on everything negative. Somatic manifestations include insomnia, constipation, overeating, or vice versa, refusal of food, pain in the heart and stomach, and sexual dysfunction.

Elev8/Acceler8 Pills Fight Causes of Depression

Medical science identifies several major causes of depression:

- **Endocrine and hormonal disorders.** Elev8 eliminates the symptoms of many of these disorders.
- **Trouble sleeping.** Sleep deprivation always worsens the psychological state. Acceler8 perfectly eliminates sleep problems.
- **Bowel problems.** They lead to blood pollution that passes through the brain, causing depression. Acceler8 normalizes gut function.
- **Psychological trauma** (prolonged isolation, loss of a loved one, loss of job, natural disasters, etc.). The combination of Acceler8 and Elev8 components reduces negative emotions and improves mood.
- **Disorders of the metabolism of brain neurotransmitters.** Elev8 improves some brain functions and brain cells metabolism.
- **Inflammatory processes** sometimes lead to anxiety and other mental disorders. Elev8 is able to suppress inflammatory processes.
- **Poor perception of own body weight and appearance.** Acceler8 and Elev8 help reduce weight and improve skin condition. People taking these supplements usually look better and perceive their appearance more positively.

Elev8/Acceler8 for Depression (reviews)

Review by Patty Pearce, Michigan, USA:

“I was skeptical about these products until I started taking them.

I have suffered with depression and anxiety for many many years and when I started taking these 3 magic pills I began feeling so different, a good kind of different, I am happier, I no longer snap at people lol, before taking this I was always tired no matter how much I slept, not anymore, these 3 pills really have changed my life.

Just to say I have tried many antidepressants that did not work for me but these pills have, I am so glad I found something that works for me.”

Chelsea's testimonial:

"In November 2019 me and my fiancé lost our baby. I found out we're were pregnant and that I had was loosing it all in one day! ((Words can not describe the pain I still feel to this day! My 3 and 6 year old found me unconscious on the ground by the time I got to the hospital they told me I was having a miscarriage we had no clue I was even pregnant..."

Prior to this I was in a very abusive relationship with my ex for about 4 years. I was put down beaten everyday and told I was never going to be anyone or anything in life he controlled me my life I had no relationship with friends or family. 4 years of terrible beatings and I fought back bad one day and said "ENOUGH" I'm taking back my life sexual assaults done to me physical assaults and the worst of it all was the mental and emotional. In October 2018 I met the love of my life and my best friend who is now my fiancé! A wonderful man who is beyond amazing to me and our children literally god sent this man to me. And I'm grateful everyday! Because of my past I suffer severely from **depression, anxiety and PTSD**. For the longest time men scared me til I met Michael Bieker and he gave me hope and safety and security and love I never knew existed. So from my past with my ex I was so depressed I honestly gave up on myself I turned to food as comfort and I let myself go.

Once me and my fiancé lost our baby in November 2019 depression got worse I see a baby I cry still to this day. I was introduced to these products by Brandy a wonderful lady who saw hope in me! I cannot thank her enough! These products have given my life back I have energy I haven't had in years! I'm no longer sitting on the couch watching my kiddos play I'm up with them playing like I'm their age! My anxiety and depression is gone since I started these products I'm sleeping like a dad)) no but seriously I'm sleeping amazing and deep sleep and when I wake up I'm not groggy or sluggish I'm ready to wake up face my day and SLAY THE DAY. It's not about just loosing weight guys it's about gut health! Nutrition your body needs! It's amazing how just in 45days I can see the huge difference in my belly!

I have more patience with my fiancé with my children yes I'm a wonderful mom but tbh I get snappy with my anxiety disorder I felt so overwhelmed and now with these pills when I have an anxiety attack come on I barely feel it and it's like I can instantly calm myself down and stay positive! All around I feel I'm becoming a better me a better mom a better fiancé and I'M LOVING IT!

And this is huge! I'm a PEPSIHOLIC! And depended on coffee everyday in a week I haven't had one cup of coffee or soda. DRINKING NOTHING BUT 120oz of water a day

45 days on this 3-pills system and these are my results!!! I'm getting tiny! DOWN 24 pounds!!!!"

Jessica Dalton (CA, USA) says:

"I cannot even begin to explain to you how grateful I am for these products!!! I can't believe that almost three months ago now, I was not feeling like myself.

I didn't feel like doing ANYTHING. Probably ever... Which is hard when you have 3 kids, and your husband is gone from 6am-6/7pm. It was hard mentally more than anything. I felt so useless all the time. I didn't feel like I was good enough at anything. I would stay up for hours at night thinking about all of the things I could have done. And I just felt even worse for myself. Postpartum **depression/anxiety** hit me hard!!

I was this way for months. No one outside of my house ever knew what was going on, because I don't like to burden others, I like to help people, and inspire them. How could I inspire others, when I could barely take care of myself though??

You guys...These products came in and gave me my life back!! Even the first month on them, I would have some occasional days where I still would get down.

But when you think about how long something has been going on with your body, and how negative you were to it with your thoughts...you have to give it time to heal both physically and mentally! Honestly, I love how far I have come, in just a little over two months! I'm very proud. I still have a little ways to go, but I'm going to get there!! And you can too!

The process shown here is from the beginning of March, to now. But I have been on the products since February 8th.

Give your body time, and be kind to yourself! Don't try to rush the results. Drink the water, take the pictures and the measurements if you can. Don't compare your journey to anyone else. Be happy with the progress you're making, even if it's small. And if you aren't seeing anything yet, change up how you do things, or how you take the products. Add a few minutes of exercise daily. Figure out what's best for you! Don't give up on your self!"

Kristyn Williams from Louisville, Kentucky says:

"I was introduced to this magic green pill at the end of March but then my uncle passed of covid-19 unexpectedly. Grief is hard already, but nothing has been more challenging to me than grieving during a global pandemic.

It sent me spiraling.

No family visits. No hugs. No funeral. No traveling from home to home let alone across state lines. No flowers. No food, I could go on. It's been hard ((

I had tried the pill before he passed and loved it, but after my uncle passed I let it sit on my table for almost 3 weeks and I didn't do anything with it. I just allowed myself to grieve and be sad.

With a little nudging from a friend I decided to try it again. I love it even more. Perhaps I was going into a depression or something but I have never felt better. It's like its even better than what it was initially.

I feel so much more myself and because of that I'm gonna share the heck out of it. It's really amazing. I mean that. I've tried a lot of things. I've never experienced anything like this."

B-Epic pills vs Postpartum Depression

Lindsay W. from Pennsylvania says:

So I came across this photo and instantly I was shook.

I remembered how down I felt. How sad I felt. How ugly I felt.

How unhappy I was while having unconditional love for my daughter

It's one of those emotions that is SO hard to truly put into words and you feel guilty for even saying it out loud: "How can you be unhappy when you just had a child"

That is how I felt! Afraid to admit it!

If it wasn't for an amazing friend sharing B-Epic capsules with me I honestly don't know if I would be taking this after photo today!

Unconditionally in love with myself

Uncontrollably happy with myself

All the energy in the world & genuinely the me I knew I could always be!

"I was becoming and angry mom"

Taylor from North Carolina wrote:

"I've only been taking these capsules for a little over a week now. I'm down 4lbs and lost a couple inches, but that's not even the best part!

I'm a SAHM of 3 busy children. It was extremely difficult to get through most days without energy and motivation to get off the couch. **Anxiety** and **depression** was setting in and I was becoming and angry mom, it was also hard to find something that would help me being a breastfeeding mother as well. But these have SAVED ME!

I'm more patient and calm, I have more energy than I've had in I couldn't tell you how long! It's an overall great feeling, and I am so thankful to have been Introduced to these bad boys! I guess magic does exist!"

"I am back to myself"

LaShawna's story:

I am a mother of 3. I had my last baby in January and let me tell you, mentally recovering from that was one of the toughest things I have ever been through in my life!

POSTPARTUM DEPRESSION IS REAL!

The things I enjoyed before the baby, I had zero interest in. I barely wanted to get up in the mornings and brush my teeth, let alone have energy to complete all the duties that come along with being a stay at home mom. Life felt unbearable until I found these magic beans. I am back to myself, somewhat of a better version! Life feels amazing again :)

I recommend anyone suffering from any mood altering problems to give it a try, you won't regret it!

Elizabeth V. Guest from Louisiana shared:

"As the saying goes...the eyes really are the window to the soul! When I took the first pic, I was a broken soul, beaten down by pain, both physical and emotional, I was miserable because due to covid, I had lost my job and I was in poor health.

When I took the bottom pic, literally 4 weeks after starting these supplements, my entire life changed! You can see the light in my eyes!! My eye color didn't change, but you can see I was in a "darker" place and it truly shows on my face but I stepped into the "light" and it has been the most amazing transformation! Can you see it?!"

Leighann from Pittsburgh, Pennsylvania shared her review:

"Who's feeling great and has a positive outlook on life... despite:

- having lost her job?
- having two girls in college?
- having to get her house ready to sell?
- having just ended a relationship?

This girl!

This girl has been on an antidepressant for almost 30 years.

This girl is 53 and going through lots of hormonal changes.

This girl hasn't always had the confidence that she can make it alone.

But, I'm NOT alone! I have my faith in God, of course, but, (if you haven't already) I want you to meet my 3 best little buddies!

Because I sleep better and have more energy and my gut is healthier than ever, I think my mental health has never been better! I now take half the dosage of my antidepressant and I'm getting things done! I am telling ya... ain't nothing gonna break my stride! So happy!"
