Let's Chat!

Hi! I'm Amanda

Once I learned about the harmful chemicals I was slathering on my body each day, I went on a mission to find safer. This product in the picture (the Overnight Resurfacing Peel) is the one that sold me. I've now been using Beautycounter for over 5 years and I've never looked back.

3 years and I've never looked back.

## Did you know the beauty industry hasn't had legislation passed since 1938?

Thousands of chemicals have been introduced since then. Some of which have never been tested for safety in our personal care products.

Currently Canada bans the use of 600 ingredients.

The European Union bans 1,400.

The US?

*THIRTY...3-0....that's it!*

Beautycounter has committed to never using over 1,800 questionable ingredients...and counting. Questionable ingredients that are known endocrine disruptors, linked to cancer, infertility, birth defects, and more.

What you put *on* your body is just as important as what you put *in* your body. Your skin is your largest organ. It's time you know what you're putting on it.

Shocked and appalled?

Let your lawmakers know. Text BETTERBEAUTY to 52886 to advocate for safer laws.
