Here is what I discovered about Kangen(TM) water
during my battle with Stage 4 Throat Cancer
Bill Powers

“You Have Cancer. You’re Going to Die!” the doctors told me.

There are no words to describe how it felt when (end of Nov. 08) I was told that I had **Stage 4 throat cancer with 3 months to live.** Shocked and devastated are too mild. It was as if someone had hit me between the eyes with a brick, made me get back up and then hit me again. With **Chemo** (5 different types: **Cisplatin, Docetaxel, CDDP, Taxotere, 5FU** over a 6 month period) and **Radiation** (32 consecutive days) I would have at best a 50 percent chance of survival. But, I took the long-shot odds with medical treatment. I still had so much to live for.

I started the heavy duty Chemo treatment in January, 2009 and was sick from the onset. The anti-nausea medicine made me so sleepy I couldn't function. I developed severe mouth sores, my hair & beard fell out, I was terribly fatigued, food had no taste and I started losing weight (over the entire treatment period, I lost over 60 pounds.) I was only getting nutrients through a stomach tube and liquids through an IV port.

But I am a fighter and I believe in God's miracles and natural healing, so in addition to Chemo and Radiation, I used prayer, had friends pray and SEARCH for natural healing products.

In May, 2009, God gave me the answer through my dear friend, Mr. Ed Johnson, who researched natural remedies for me. He introduced me to **KANGEN "LIVING" WATER - used in Japan for over 35 years and now available in the USA!**

I purchased the SD-501 Kangen ionic water generator (the missing piece to the natural healing puzzle that I was looking for.)

Within 48-hours after drinking the 9.5 pH Kangen water, my mouth sores were totally gone and for the first time in 6 months, I could eat and drink without using my feeding tube and water port.

I stopped all medical treatment in June, 2009 and completely replaced ALL my cancer drugs with Kangen Water.

December 18, 2009, I had biopsy surgery (**3 biopsies**) to look for abnormalities and to determine if I had any residual cancer.

While waiting for **my biopsy lab report**, I prayed to the Lord that I would be blessed with good results by the end of the year.

THE BIG DAY for me was December 30, when my radiation oncologist, Dr. McGann, who came in on her off-time at 6:30pm (the Lord cut my requested time-frame close), to review my cancer lab report. **The result from the 3 biopsies was absolutely GREAT NEWS; the biopsies showed NO CANCER. The tumor necrosis was 100%!**

Also, since I starting drinking Kangen water in June, I have put on 20 pounds and my energy level is almost 100% back.

Thank you Mr. Hironari Oshiro, Enagic, Kangen water and to my friends and prayer warriors!!!

Yes...I have been blessed with a great friends, doctors, Kangen team members & leaders, Kangen waterand one Awesome God.

I am cancer free and on a mission to spread the word about Kangen water and Enagic. Please join with me!!!

Bill Powers

My name is Bernadine Tillman. I am a certified colon hydrotherapist in Birmingham, AL. I purchased Enagic's SD501 in May 2009 and immediately began to lose weight, have more energy, and sleep better after only a few days of drinking KANGEN water. I have since, provided the water as an additive for the colonics.

My clients love it and are having their own awesome testimonies. As a result, I have been able to increase my bottom line because my clients want this machine in their homes.

I would highly recommend KANGEN water to all my fellow colon hydrotherapists. If you have any questions, please feel free to call me at (205) 323-7582.

**Bernadine Tillman
I-ACT Certified Colon Hydro therapist and
Instructor**

I was introduced to Kangen Water by a friend after I had mentioned that my husband had had cancer and that our dog was going in for surgery on her knee. I started her on the water at once. She recovered from her surgery so much faster than the Vet expected, and her incision healed quickly. Then I had a brilliant idea: if it's working so well for her, why aren't we drinking it?

After I had been drinking the Kangen Water on a regular basis, my energy increased, my thinking was more focused, I was able to eliminate my ADHD drugs completely, and my husband and I lost weight.

While I was at my friend's house getting water, she told me about some of the health benefits that have been reported by people who drink Kangen Water. Mike, one of my best friends' health was failing quickly. He was having blood work done to put him on dialysis and the kidney transplant list. I took water to him and just said 'Drink it, just drink it.' We had nothing to lose at that point. What happened with him was jaw-dropping. When he went back to the doctor the following month, he was taken off the kidney transplant list and the dialysis was cancelled. The doctor couldn't believe the difference and told Mike to just keep doing whatever it was that he was doing. He's still doing very well.

On Sept. 4th, 2009 everything changed in a split second. Our 25 year-old son, Brian, was in a horrible accident and was paralyzed from the upper chest down. His spine was broken and had shifted forward and down. His spinal cord was severed. He went through a grueling 10 hour surgery and was in SICU for what seemed like forever. I stayed with him in Columbus, Ohio where he lived and took care of him while he was on his way back to becoming independent. My husband brought our Enagic Kangen Water machine to him as soon as he was released from the hospital. I started getting him to drink lots of the water. At one point, he could taste the difference in the ice cubes (someone filled the ice cube trays with tap water). One of the things that is all but guaranteed for someone who is paralyzed is bed sores. We've heard horror stories about bad bed sores. Brian has had only one. We soaked a washcloth with Kangen water and laid it on the sore, the next day it was that beautiful bright pink that lets you know it's healing. He has not had one bed sore since.

The biggest joy I have received from this amazing water is the ability to help others.

I have been an individual who has taken part in the “natural” way of life for years. I suffer from Fibromyalgia and Chronic Fatigue and after being diagnosed in 2000, I was placed on antidepressants and sleeping pills to treat it. After months of undesirable side effects, I quit the meds and decided I would live with the pain and treat the disease as best as possible with exercise and diet. My body, especially my back and shoulders, were so tender that just the slightest touch would bring tears.

I have only been drinking Kangen Water for two weeks and have not drunk anything greater than the 8.5 Water. I do not hurt and my energy levels are even higher! I also suffer from Eczema and that condition has improved, as well. I cannot wait to see what the water has in store for me, as well as what it will do for my husband, once he starts drinking it. Kangen is a miracle! I cannot wait to share this wonderful gift with everyone!

JoJo Stamey

jjstamey@healthybodybywater.com

I have been drinking Kangen water for almost 3 months now. One of the first things I noticed was that I had more energy, almost instantly. Also, I grew up suffering with chronic bronchitis and have recently developed horrible sinus and allergy symptoms. Within the first couple of weeks of drinking the water I could definitely tell that it was working on my sinuses and my lungs. Now I feel as though I can breathe much deeper and easier. Additionally, I haven't had any more sinus issues even though this time of the year usually affects me the most.

I am a make-up artist, but I have often times been ashamed to say so, due to reoccurring acne issues and the general poor quality of my skin. Since I have been using the 5.5 beauty water to clean my skin, I have seen a great improvement in my face. I have far less acne and my skin is more firm to the touch.

I know that my body is changing more and more every day and will only continue to get better. I'm even starting to lose weight! This water is definitely changing my life.

Lauren Markham 205-415-0739

My name is LaToyia Buggs and I am 25 years old. I was diagnosed with osteoarthritis when I was 16 years old. I was also diagnosed with scoliosis (curvature of the spine) after a car accident led me to visit a chiropractor. I was prescribed anti-inflammatory medication, but I hated the idea of being on arthritis meds. Who wants to share arthritis pills with their grandmother? After my first refill, I decided to stop taking them, because I knew they weren't making me better. Ever since then, I have dealt with the pain every day of my life in my knees and back.

I purchased the SD501 machine in September 2009. After 3 months of drinking the water, I noticed that my joint and back pain was completely gone! It has been almost 2 months and I'm still pain free. Other things I noticed after drinking the water:

- better sleep
- no sinus headaches
- no hypoglycemic symptoms (a HUGE issue)
- more energy
- more frequent bowel movements
- whiter teeth

Kangen water has greatly increased my quality of life. Being able to participate in the activities I love without discomfort or worry is priceless.

I am Judith Mize. I have been drinking Kangen Water for several months. I am by trade and education a Landscape Designer with 30 plus years of experience. Included in that work was swinging a pic and using a shovel. I worked alongside my team on every job we did. I have had over the years, injuries to my back and my right hip. I actually now have an artificial hip. I also have degenerative disc disease, scoliosis, and herniated discs in my lower back and neck. I have also had to have shoulder surgery. For more than 15 years I have been on anti-inflammatory meds, and some prescription pain meds for the back and hip problems. I also have mitral valve prolapse, and gastrointestinal problems. (severe indigestion)

After drinking Kangen water, I am now pain free and take no medications!!!! For the first time in my life I am hydrated! There is no more joint pain, no more indigestion, no more cramping in my back, no more hip pain, no more shoulder pain and I have lots more energy and feel years younger!

I also have an older German Shepherd dog and a Golden Retriever (three legged). Sky. The German Shepherd is 9 years old and had joint pain. Griffin, the Golden Retriever, has only one front leg and has arthritis with severe degeneration and bone spurs. His hips are completely gone and he is not yet 3 years old.... They both have been on prescription meds, for pain and inflammation. Griffin has taken meds since he was 6 months old and Sky for about a year. They are now on the water and are off the meds. Griffin has lots of energy and plays with our kitten like he is a healthy four legged puppy!!! This is huge since the veterinarian specialist he goes to said he would soon be in a full body wheel chair!

My family has seen dramatic improvement since we have been on the water! I went to visit my grandchildren and daughter after I had been on the water for about three months. I didn't take a machine with me and I was gone for three weeks. I was in agony by the end of the second week and back on meds till I could get back on the water! It took about a week and a half to feel completely well again so I know it was the water. That was the only thing that I changed while I was away. I just can't stop talking about it.

I bought my Enagic SD501 because I had been plagued for 20 years by canker sores. I had been unable to eat any type of citrus fruits.

After drinking 85oz per day for 3 weeks of Kangen water, I am free of canker sores in my mouth and am able to eat anything I want including my favorite delicious pink grapefruit which I had not enjoyed in 35 years.

I had also been plagued with dry prickly broken out skin and mild acne which itched constantly in winter. My skin has improved by 90%. I had stopped playing tennis 7 years ago, after being a tournament player, because my left knee ached all the time and swelled frequently. The knee had not improved by not playing tennis but it at least had not gotten worse. After drinking Kangen water for three months I realized that my knee is pain free. I had hemorrhoids which are completely gone. I had finger pain in both hands, Gone! Sleep apnea. Gone! I am sleeping soundly all night, anxiety free, feel wonderful, and have a very high energy all without any medication!

My wife feels better and has more energy than ever before. Sue has been diagnosed with Type II diabetics for 5 years. Sue's sugar numbers are running 20 points lower without medication.

My daughter has also bought an Enagic machine and completely recovered from severe dermatitis (eczema) brought on by frequent hand washing with 2 babies even though the youngest is still in diapers.

My sister bought an Enagic machine and has been able to reverse a horrible downward health spiral where she feared that she would die.

Peggy had been plagued by horrible migraine headaches, acute bronchitis, osteoarthritis, rheumatoid arthritis, and allergies too numerous to list. Peggy told me after 2 months of drinking Kangen water that she felt her life was saved, headaches much less intense and severe, bronchitis well, osteoarthritis improved tremendously, rheumatoid arthritis better, and allergies much better. Peggy says her energy level and overall health is so much improved that she can now enjoy going outside and playing with her 4 wonderful grandchildren.

I cannot state emphatically enough how wonderfully Kangen water has affected our lives.

Hugh Weeks 205-960-9327 hweeks6804@yahoo.com

I started drinking Kangen water about three months ago and it's been working wonders for me. When I got the machine I weighed about 265 lbs, I suffered from insomnia, and never got sufficient amount of rest which resulted in always being fatigued at work. After the first week of drinking the water I noticed that I was sleeping better and was never drowsy when I woke up. Then I started having more energy while I was at work.

I started drinking more water in the following weeks and I started noticing the big changes. I started losing weight tremendously. Everyday I woke up and went to the scale only to find out that I lost more weight. I was losing 2-3 pounds every day. My weight went from 265 to 262, from 262 to 259, 259 to 256, and so on. By the next week I lost 10 lbs, 17 lbs by the next week. I lost 22 lbs in a month. It has been a total of about 5 weeks now and I'm down to 241 lbs. I've lost about 25 lbs....and counting. All of my clothes that were too small and are now too big. This water is absolutely amazing, and I recommend it for EVERYONE.

Xavier Smith
251-490-3437 goodwater10@live.com

I have been drinking Kangen water for one year. I have had energy issues for the past 15 years and have spent thousands of dollars searching for answers. Drinking the water has given me my quality of life back!

I have hypoglycemia, but I have no symptoms since being on the water. My skin looks and feels so much better.

I usually experience S.A.D in the winter time, but I have noticed that I don't get depressed anymore. That's a great thing!

In March of 2007 while trying to catch my cat that somehow escaped from the house, I broke my arm. I needed surgery. While my arm has since healed, I would go through cycles of pain every few days, a chronic reminder of my accident. Since being on the water, I don't have any pain. This is a great relief!

And, just a follow up to the cat story... it turns out that it wasn't even my cat that I was chasing. (No wonder it was running away).

Speaking of cats, my dogs and cats LOVE the Kangen water!

Lorri Heller
Birmingham, AL

I first noticed a change within the first week of drinking Kangen water. I previously would wake up each morning exhausted. I could tell I must have been tossing and turning because my hair was sticking out on all sides, making me resemble Bozo. After the first week, I would wake up noticeably rested and refreshed with my hair looking better. Entering into my third week of drinking Kangen water, I noticed my joints weren't aching like they had been thus adding to my restful sleep.

Of course, the energy I feel through the day is fabulous and my thoughts are clearer. Now in my third month, I've been focused on detoxification with excellent results. All this, I contribute to Kangen Water. I'm very grateful to have been introduced to such a wonderful product and a company of new friends.

After the loss of many family members to colon cancer, I had become accustomed to the regular colonoscopy and the removal of pre-cancerous polyps. I had learned to live with the chronic stomach pain and bowel issues. Then in 2009, after another colonoscopy and the removal of polyps, I did not recover well and began a year of sickness and pain. In addition, to the expected stomach issues I was now dealing with chronic fatigue and inflammation throughout my body.

After many, MANY test I was put on several medications for Lupus and inflammation. Within months I was rushed to the ER with severe stomach pain. At that time, the Doctor recommended that I have a portion of my colon removed. I began to research every other option that I might have to prevent this surgery. It was during this research that I was made aware of Kangen Water. Of course I was very skeptical, but I had nothing to lose. After all, it wasn't as if anything else was working. Within three weeks of drinking the water according to the protocol that was given to me by the person who shared the water with me, I began to feel and see a difference. Shortly after that, I purchased the Enagic SD 501. The surgery was cancelled and I am off all the medications. Now the inflammation is manageable and I look forward to eliminating it completely.

Amy averaged 1 to 2 pounds a week in the last 6 weeks of pregnancy with our first two children.

While drinking Kangen water with our third, she gained only 2 pounds total in her last month of pregnancy.

Michael Murphree Crestline

The water has been **phenomenal**; it has given me the energy that I prayed for.

Rose Blackmon

Kangen Water has done wonders for me. The water has increased my over all body function and given me more energy.

Bernice Whittle

After drinking Kangen Water, I lost weight, got off my medicine, and noticed my hair growing back. I feel good inside and out since I have been drinking Kangen Water.

Howard Brown hcberb@yahoo.com

After many years of abuse, my body gave me clear warning signs. In 2002 I was in a coma for 47 days due to Acute Pancreatitis. This was also the time I found out I was Diabetic due to Agent Orange while I was in Vietnam. As a result, I became Insulin dependent. My Diabetic Neuropathy was so bad that walking was difficult and accompanied by great pain. I was always on pain medication. Two years later I had abdominal bypass surgery and after another two years, a heart attack. Then three months ago, kidney failure. I was put on a transplant and dialysis list. Enough was enough.

Six weeks ago, a good friend brought over a case of quart jars filled with Kangen water for me to drink. She had been drinking the water and had experienced an increase in energy, hydration and had reduced her Ritalin from 3 a day to only 1. She was concerned about my health and simply asked me to drink the water and see if it helped. "It's only water so it can't hurt."

I immediately noticed that the taste of the water was great. The difference was that this water was run through her counter-top Kangen machine. Mary Ann also started to drink the water and we were up to three cases of water a week. I started to have energy that I haven't had in years.

My most recent appointment with the VA was to get lab work on my blood to "begin dialysis." My doctor came in and said, "Well, you told me you were going to take the kidney transplant and dialysis off the table and you did. You don't need the transplant or the dialysis. Whatever you are doing, keep doing it." He did say that my PH was high, which was good. I told him I was drinking alkaline water. We talked about how bacteria could not grow in an alkaline state and could grow in an acidic state.

Long story short, I feel great. My aches and pains from my arthritis are way down. I can walk further without pain in my legs and my energy is off the charts. Like a chiropractor aligns your spine, the Kangen water aligns your body in an alkaline state allowing your body to do what it's designed to do. I have heard many stories of people healing themselves with this water. So simple, it's hard to believe.

Mike Wise

mmwise@bellsouth.net 205-305-8801

WEIGHT LOSS

I have struggled with my weight for years. No matter how little I ate, I remained fat. I have tried all kinds of diets from high protein, low carb, eating right for my blood type (O+), eating right for my body type (thyroid type), vegetarian, then vegan, and raw food. Each time I would initially lose weight but ultimately gain it back with 10 extra pounds. It was very frustrating to eat so little and constantly be surprised by the scales. The one thing that was always true was that my pH was highly acidic.

After purchasing my SD501, I started drinking only Kangen water. Soon my pH began to neutralize. To my surprise, I lost 7 pounds in one week. After 4 months, I had lost 40 pounds. Not only am I continuing to lose weight but I am sleeping better, looking younger, and living more energetically than I have since I was in my 20s.

This water has truly changed my life. **If you have any questions, please feel free to call me at (205) 323-7582.**

Bernadine Tillman

Too many bathroom breaks!!!

I ignored my naturopathic doctor's suggestion to buy an Enagic machine because I am skeptical and stubborn. However, I just could not say no to a dear friend who later brought me the same information.

I have struggled with IBS (Irritable Bowel Syndrome) for years. Basically I was never able to commit to anything and constantly had my eye on the door in case I had to make a mad dash for the bathroom. It has been a crazy way to live or should I say not live. I have given up on dating and long road trips. Actually I had given up on a lot.

I have been on the water for over a month and am shocked by how well I feel. My "attacks" are down at least 90% and my confidence is up about 150%.

I can't explain the change this has made in my life in such a short time. I may be a new testimonial but I believe there are only more improvements waiting in store for me.

Dr. Shannon Hanrahan
Fullerton, CA

My name is Ludie and my husband, Wayne and I would like to share with you some GREAT NEWS about how Kangen Water has changed our lives. Several years ago I had 2 bulging discs in my lower back and other tests showed degenerative discs in my mid to upper back, knees and feet. My job requires a lot of sitting and this added to the buildup of arthritis along my spine to the lower back, knees, feet and hands. My hands hurt so much I had to stop quilting, working with flowers and gardening. I was taking pain pills to be able to continue working at my job.

I tried several pain management, spinal decompression – to keep from having back surgery. My neurosurgeon then recommended Laser RFL procedures on both my lower and upper back. These are a great alternative to surgery but you have to wait 6 months between each procedure, which has gone on for four years. Between visits I was still in a lot of pain and I had to hire someone to help with housework because bending, lifting and even cooking was difficult. It was a big effort just getting in and out of the car, and it was painful to ride on long trips. I kept searching for home remedies and alternative methods to use between the procedures. These helped, but not enough to keep me from having the RFL procedures.

I heard about the Kangen Water when Jodi Payne was on the radio with Rhonda Dial. I was very skeptical and am also very practical and thought it sounded crazy that water could help so many things. Since we knew Rhonda had a machine, we tried the water, and eventually purchased our own machine.

The first month we both felt lots more energy. After 2 months I felt much better and was getting better mobility after riding and just doing daily chores. I think we did not see the results as fast as other people did, because we were fairly healthy, with no major problems except my back and disc problem and the arthritis. God has blessed us with good health and we try to eat good foods and take vitamins, minerals and herbs. Amazingly after about 5 months, the swollen arthritis joints began to decrease and the soreness in my fingers that had been stiff for a long time went away. The laser RFL procedures on my base have lasted longer (which is great). Another great

benefit Wayne and I have both noticed is that our skin is not dry and itchy this winter as it has been in the past.

Our granddaughter age 3 ½ never asked for water. She always wanted to drink juice, and her parents would give her half water and half juice so she would drink some water. One day I gave her Kangen water in her cup. She drank it, looked at me, smiled and said, “Granny, I like this. It tastes good.” So now when she comes to visit us she wants Granny’s water. She will go over to our machine and say “I am thirsty – can I have some good water?”.

That should tell us something when a 3 year old can tell the difference.

I will be 65 shortly and Wayne is 67. We both work and play with our grandchildren. Wayne keeps up a 2 acre yard and has a fairly large garden. We feel better than we have in a long time.

Everything we do in life is a choice. We notice people save and spend money on just about anything they really want (cars, new wardrobes, sports, vacations, collectibles, etc.). If you cannot afford the large 501 machine, you can begin with the smaller model.

We have chosen to put priority on improving our health, or staying healthy at our age and with God’s blessing to never have to do all those prescription drugs. We owe this to ourselves and our family.

My suggestion is go to some of these meetings, meet and talk with the folks who have gotten great results...get with someone that has a machine and **JUST TRY THE WATER!**

Ludie & Wayne Grantham

How Jane Fowler and Kangen Changed My Life

On December 7, 2009, a patient walked into the chiropractic office where I work, and encouraged me to drink a jar of water, saying, “Drink this. It’ll change your life.”

For someone who didn’t even like water, especially tepid water, I doubted it would change anything except my desire to drink even the measly one to two cups a day that I was currently struggling with; but, when she said, “If you know of anyone with acid reflux, this water tends to help with that.”

THAT got my attention because my acid reflux was so bad that a physician had told me that if I didn’t get it under control, I would have to have surgery...my esophageal area was already showing signs of damage. I had been changed from one medication to another to yet another during the last few years, without a great deal of success, and I have been sleeping sitting up in a recliner since 2005, to help keep the acids from coming up into my throat, so I was extremely interested in something that would help with my situation.

However, I have never liked water and, although I have tried in earnest to drink it, my four-cup mug, filled with ice, almost always came back home with me half full, so I wasn’t crazy about having to drink a gallon of this stuff a day to help with anything. But, I started on her jar.

Somewhere around 3:00 that afternoon, I realized that there was no more water in the jar. I had actually drunk ALL of the water...that was HUGE for me. And, it came easier than I would have ever thought.

So, since Jane had told me to come by her house that night and get more, I took her up on her generosity.

I told my husband, James, that we were going to Jane’s to get water and his stony response was, “We HAVE water.” I just smiled.

While we were there, Roger, Jane’s husband, was talking to James, telling him some of the wonderful things about the water...James was nice, but I knew that look...he wasn’t buying any of this; he was just pacifying me.

The next morning I decided that I wasn't going to take my Nexium. If this stuff can work on acid reflux, then let it work. I faintly heard part of my brain say, "You don't WANT it to work! You're just trying to find an "out" to, very diplomatically, brush Jane's water off." Hmmm, was that true? She WAS a patient and I DID have to make sure that I didn't offend her. How better than to "try" her water...it not work... and then be able to say, "Jane, thank you so much, but it's just not working for me.?" Well, that wasn't my problem, so I was determined not to take the medication.

I didn't have any problems that Tuesday, but I did have mild meals that day. Wednesday was another story. James had put a stuffed bell pepper in my lunch, which I love, and loved eating for lunch. But around 2:15, it was trying to kill me. There was no reflux yet, but strong indigestion. I went to get the PepcidAC out of my purse, which was a reliable stand-by, and I said, "WAIT a minute. This water is supposed to help with the acidity, which is what the problem is..." and I made the decision to go back and drink the water a little more conscientiously for ten or fifteen minutes and see what happened. I did, and the heartburn totally went away! I was amazed!

For the next few days, I noticed that I had only a few bouts of heartburn, and when I drank the water, it went away. I continued to be amazed. Then, around Saturday, my sister, Kathy, said, "Hey, you haven't had to have an icepack all week."

My mouth dropped open. I have headaches three to five times a week and have to sleep on icepacks to relieve the pain; I also have migraine medication for when those hit me; but I had not had an ice pack since the Saturday before I begin drinking the water. **COULD IT BE THE WATER???** My heart started pounding! I was ecstatic! For someone who has had to take Tylenol and Advil like M&Ms, and sleep on ice almost every night for years, I felt like I had had a curse lifted from me!

In the meantime, James had gotten some 2.5 water from Jane and was soaking his feet in it. He has had terribly rough, cracked skin as well as fungus in his nails ever since I've known him. The nails are dark and thick, and no medication that he has ever taken has done anything for him. His skin was becoming soft again, and he believed the nails were lightening. He was as happy about that as I was about my headaches and acid reflux.

We all three went to the meeting the following Monday night at Michael and Jodi Payne's house. I saw the demonstration and was totally blown away by all of it. I wanted one of the units so bad that it broke my heart because I thought there was no way that we could afford to get one; but, through one of the plans that Enagic offers, we were able to finance it, and had it on the way.

Within a month of Jane walking through the door at my office, I have been able to stop taking four medications! Not only for the headaches and acid reflux, but also for asthma and high blood pressure! My husband thinks he has a new wife and my boss thinks he has a new secretary! My mood has indeed changed and I find myself happier, and have more energy to do some of the things that I have been wanting to do.

My sister, Kathy, stopped drinking soft drinks and started drinking Kangen water. It has helped her with headaches that she suffered from regularly as well. We all three have intestinal tract and colon problems; James and I have been hyper model for years, and have to be sure we're close to a restroom whenever we have a meal (which has been an inconvenience and an embarrassment for years) and Kathy has had just the opposite problem – she has had stomach pain and chronic constipation for years. The water has helped all of us and brought our bodies back to where we should be, normally.

The other wonderful aspect of the SD501 unit that we have is the results of the 2.5 and beauty waters. I have had cuticle rips and mouth sores disappear over night, and James' feet and toenails ARE changing color and becoming more like normal feet should be. He has also had the tags (little hanging warts) under his arms to disappear, and he was in the kitchen doing squats the other day. He hasn't been able to squat in years because of knee pain!

And, for the beautiful women who want to stay beautiful – the lines around and under my eyes are becoming harder and harder to see! I expect that before long, they will be totally gone!!! And, I can actually wear long sleeves this winter! I had to be so careful of what I wore because my elbows were so rough and cracked that when I would move my arms, the material moving against they would hurt so bad. No lotion or cream has even helped them. Now, my elbows and arms are so smooth that I am wearing clothes out of my closet that I have not worn in years because of

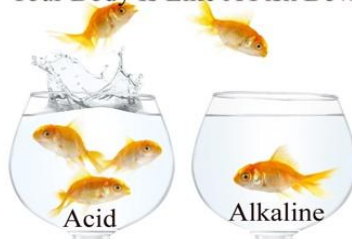

the beauty water! We were so impressed with that that my sister, who lives with us, purchased the Anespa, and we are all LOVING our showers now!

I heard someone say at the first meeting, “If someone offered me a million dollars for my machine but told me I could never own another one, I’d turn them down.” I just scoffed at that nonsense. But today, I can truly say the same thing!! Besides God and my family, my Kangen unit is the best thing that has ever happened in my life.
