## Become an It Works Rep for LESS-It Works Starter Kit Sale

**CLICK HERE TO GET STARTED FOR ONLY \$69!!!!!!**

My name is Carrie and I have been with It Works Global since 2009. That seems unreal in the direct sales world and I think I got lucky when the company found me. I learned later that when choosing a network marketing company one should look at the products, the compensation plan, the integrity of the company, and the leaders. I did not do any of that lol. To do what I did and jump right in [CLICK HERE](#). I had to try. I get many of the same questions so I am going to answer them for you. Until the end of 2019 we have a special!! Get the same basic starter kit and all the same perks, but join for only \$69 instead of the normal \$99!!!

## How much money can I make with It Works?

This is a loaded question but I have a simple answer. You CAN make unlimited income. There are no income ceiling, no limits in our compensation plan. That probably did not answer your question though. We make money in five ways

- Cash when we sell wraps or coffee or anything on hand
- Unlimited weekly bonuses when we fast start our new team members
- Product rewards when we sign up customers
- Monthly commissions

Above is our average monthly income. I challenge you to look carefully at that chart and pick the amount that would help your family and reach out to me on here or on [my website](#) or on [Facebook](#). We can work together and make a plan to accomplish that goal. This company has truly been a blessing for me but I work very hard and it pays all of my bills while I never have to miss anything with my children. Most of them have always had me at home with them.

## How can I be successful with It Works?

•Number three is straight up work ethics! Consistency and self discipline is key. With this you do not have a boss. This is fantastic in theory. What it means in real life is that no one is micromanaging you and telling you what to do. You do not get fired when you decide to not work for a few days. It is all on you and how hard you want to work to accomplish your goals.

Heck yeah!! Most of what I do is on my phone so my day to day is just incorporating it into my daily life. Half the time our team decides to hang out in a zoom room to work together. The camaraderie alone might be what you have missing in your life. Once or twice a year we all get together in Florida to learn and have lots of fun. Most of my good friends are people I met working this business!
