## Skinny Brew Coffee Review!!

### Before Coffee

I never really been a coffee drinker until recently. I had always been that person that didn't do coffee. For years I was convinced I would never do coffee.

As a kid I saw my Parnets was addictive to coffee and my dad still is! I never

wanted to be that person that depend on anything. They would drink coffee all day long every day even at night. I used to hate having to make their coffee. I would get called from my room to make them a cup of coffee because they didn't want to get up and get it themselves.

It wasn't until I got older and within the past two years I finally decided to at least try ItWorks Keto coffee mainly because I was seeing people get amazing results from this coffee! I tried the regular keto coffee and let me tell u at first I didn't care for it at all I hated the taste! But I wasn't a coffee drinker. It wasn't until they came out with the salted caramel keto coffee pods that I feel in love with coffee! I used to drink it a couple times a week.

While pregnant with Daisy. I wouldn't drink coffee because I always watch my caffeine intake while pregnant. Daisy was born December 31st 2019 see full [birth story here!](#)

## **My World Changed!**

February rolled around and the company came out with the new French Roasted Black Skinny Brew Coffee! I wasn't sure I was going to try it mainly because of the caffeine amount and at certain times I can be sensitive to caffeine! As it has 256mg of caffeine. So about twice amount of regular coffee.

I decided to use my product rewards I earn as I am a distributor with It Works and have been for the last 2 and half years! This way I could get 12 days worth of coffee for a discount price instead of paying the money for a 15 day supply.

## **Skinny Brew has arrived!**

The day arrived in the mail I immediately open up the packaged as I was so excited and ready to at least try it! I went live on my Facebook pages and immediately try it in front of everyone. All I did was get some hot water and just pour the coffee into the water and mixed it up! That's it at that time I did not use any sweeter or creamer. I took a tiny sip and as I still was never a huge fan of coffee it took a bit of strength and will power to get that first ever cup of coffee down.

I asked in my group chat what can I use in the skinny brew coffee and they recommend a sugar free creamer Caramel Macchiato since I loved the salted caramel keto coffee pods. So I went that day and bought some of the creamer. The next morning I went live on Facebook again and made the skinny brew coffee but this time with the creamer. With the creamer I was able to stand the taste of the coffee! Yeppy because even just that pervious day I was so focused and had so much energy just from that one cup of coffee!

By day 3 of the 3 day sample of Skinny Brew coffee I have became obsessed with the coffee! I had never gotten so much done! As a mom who just had a baby who was keeping her up all night I needed something to keep me going to keep up with my other 3 kids during the day!

By day 6 Guys I was blown away by my personal 6 day results! Shown below! This coffee has changed my world! I am more active with my kids! My house has never been cleaner! With all the energy I was getting I was able to get so much stuff done that I had put off for months! Granted those last few months of pregnancy you don't feel like doing nothing!
